Nature of Scheme	Open-ended Equity Scheme	Open-ended Liquid Scheme	Open ended Exchange Traded Fund - Gold	Open-ended Exchange Traded Fund	Open-ended Equity Linked Savings Scheme with a lock-in period of 3 years	Open-ended Equity Fund of Funds Scheme
Investment Objective	The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.	The primary investment objective of the Scheme is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments.	The Investment Objective of the Scheme is to generate returns that are in line with the performance of gold and gold related instruments subject to tracking errors. However, investment in gold related instruments will be made if and when SEBI permits mutual funds to invest, in gold related instruments. The Scheme is designed to provide returns that before expenses, closely correspond to the returns provided by gold.	The investment objective of the scheme is to invest in stocks of companies comprising S & P CNX Nifty Index and endeavour to achieve return equivalent to Nifty by "Passive" investment. The Scheme will be managed by replicating the index in the same weightage as in the S & P CNX Nifty with the intention of minimizing the performance differences between the scheme and the S & P CNX Nifty Index in capital terms, subject to market liquidity, costs of trading, managing expenses and other factors which may cause tracking error.	The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.	The investment objective of the scheme is to generate long-term capital appreciation by investing in a portfolio of open-ended diversified equity schemes of mutual funds registered with SEBI. There can be no assurance of positive returns from following the stated investment strategy.

**Investment Objective:** Quantum Long-Term Equity Fund's (QLTEF): investment objective is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets. Quantum Liquid Fund (QLF) The primary investment objective is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments. Quantum Gold Fund's (QGF) investment objective is to generate returns that are in line with the performance of gold and gold related instruments, subject to tracking errors. However, investment in gold related instruments will be made if and when SEBI permits mutual funds to invest in gold related instruments. The Scheme is designed to provide returns that before expenses, closely correspond to the returns provided by gold. Quantum Index Fund (QIF) : The principal investment objective of Quantum Index Fund (QIF) is to invest in stocks of companies comprising the S & P CNX Nifty Index and endeavor to achieve returns equivalent to the Nifty by "Passive" Investment. The scheme will be managed by replicating the Index in the same weightage as in the S&P CNX Nifty Index with the intention of minimizing the performance differences between the scheme and the S&P CNX Nifty Index in capital terms, subject to market liquidity, costs of trading, management expenses and other factors which may cause tracking error. Quantum Tax Saving Fund's (QTSF) investment objective is to achieve long term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets. Quantum Equity Fund of Funds (QEFOF) investment objective is to generate long-term capital appreciation by investing in a portfolio of open-ended diversified equity schemes of mutual funds registered with SEBI. There can be no assurance of positive returns from following the stated investment strategy. **Asset Allocation:** QLTEF will primarily invest in Equity and Equity related securities, but may invest in money market instruments and liquid schemes of mutual funds to meet liquidity needs. QLF will invest in Money Market Instruments and other short term debt instruments having maximum repricing tenor of not more than 91 days in maturity. QGF will primarily invest in physical gold and if allowed under SEBI Regulations, also in gold related securities including derivatives, the scheme may invest in money market instruments to meet liquidity needs. QIF will predominantly invest in stocks constituting the S & P CNX Nifty Index, the scheme may also invest in Money Market Instruments to meet liquidity needs. QTSF will primarily invest in Equity and Equity related securities, the scheme may also invest in debt and Money Market Instruments or other liquid instruments as permitted under the Equity Linked Saving Scheme. QEFOF will invest in open ended diversified equity schemes of third party mutual funds registered with SEBI. QEFOF shall invest in a mix of diversified equity schemes, mid cap/small cap/large cap oriented schemes, but may invest in money market instruments to meet liquidity needs. **Terms of Issue:** QLTEF is an open-ended Equity Scheme offering Growth and Dividend Options.
