Investment Objective	The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.	The primary investment objective of the Scheme is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments.	The Investment Objective of the Scheme is to generate returns that are in line with the performance of gold and gold related instruments subject to tracking errors. However, investment in gold related instruments will be made if and when SEBI permits mutual funds to invest, in gold related instruments. The Scheme is designed to provide returns that before expenses, closely correspond to the returns provided by gold.	The investment objective of the scheme is to invest in stocks of companies comprising S & P CNX Nifty Index and endeavour to achieve return equivalent to Nifty by "Passive" investment. The Scheme will be managed by replicating the index in the same weightage as in the S & P CNX Nifty with the intention of minimizing the performance differences between the scheme and the S & P CNX Nifty Index in capital terms, subject to market liquidity, costs of trading, managing expenses and other factors which may cause tracking error.	The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.	The investment objective of the scheme is to generate long-term capital appreciation by investing in a portfolio of open-ended diversified equity schemes of mutual funds registered with SEBI. There can be no assurance of positive returns from following the stated investment strategy.

**Investment Objective:** The principal investment objective of Quantum Index Fund (QIF) is to invest in stocks of companies comprising the S & P CNX Nifty Index and endeavor to achieve returns equivalent to the Nifty by "Passive" Investment. The scheme will be managed by replicating the Index in the same weightage as in the S&P CNX Nifty Index with the intention of minimizing the performance differences between the scheme and the S&P CNX Nifty Index in capital terms, subject to market liquidity, costs of trading, management expenses and other factors which may cause tracking error. **Asset Allocation:** QIF will predominantly invest in stocks constituting the S & P CNX Nifty Index but may invest in Money Market Instruments, other short term debt instruments as permitted under SEBI (Mutual Funds) Regulations, 1996 and Liquid Schemes of Mutual Funds to meet liquidity needs. **Terms of Issue:** QIF is an open-ended Index Exchange Traded Fund. Each unit of QIF will be approximately equal to 1/10<sup>th</sup> (one tenth) of the S & P CNX Nifty Index. Units will be issued at NAV based prices. On an ongoing basis direct purchases from the Fund would be restricted to only Authorised Participants and Eligible Investors. Units of QIF can be bought/sold like any other stock on the National Stock Exchange of India Ltd (NSE) or on any other stock exchanges where it is listed. **Entry Load:** N.A. **Exit Load:** Nil. **Risk Factors:** **All Mutual Funds and securities investments are subject to market risks including uncertainty of dividend distributions and the NAV of the schemes may go up or down depending upon the factors and forces affecting securities markets and there is no assurance or guarantee that the objectives of the scheme will be achieved. Quantum Index Fund, is the name of the scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or returns. Scheme specific risk:** Equity and Equity related instruments are by nature volatile and prone to price fluctuations due to both macro and micro factors. The Investor may lose money over short or long period due to fluctuation in Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and market movement and over longer periods during market downturns. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments of the QIF. It is to be distinctly understood that the permission given by NSE should not in any way be deemed or construed that the Scheme Information Document for QIF has been cleared or approved by NSE nor does it certify the correctness or completeness of any of the contents of the said Scheme Information Document. The investors are advised to refer to the Scheme Information Document of QIF for full text of the 'Disclaimer Clause of NSE'.
