Nature of Scheme	Open-ended Equity Scheme	Open-ended Liquid Scheme	Open ended Exchange Traded Fund - Gold	Open-ended Exchange Traded Fund	Open-ended Equity Linked Savings Scheme with a lock-in period of 3 years	Open-ended Equity Fund of Funds Scheme
Investment Objective	The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.	The primary investment objective of the Scheme is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments.	The Investment Objective of the Scheme is to generate returns that are in line with the performance of gold and gold related instruments subject to tracking errors. However, investment in gold related instruments will be made if and when SEBI permits mutual funds to invest, in gold related instruments. The Scheme is designed to provide returns that before expenses, closely correspond to the returns provided by gold.	The investment objective of the scheme is to invest in stocks of companies comprising S & P CNX Nifty Index and endeavour to achieve return equivalent to Nifty by "Passive" investment. The Scheme will be managed by replicating the index in the same weightage as in the S & P CNX Nifty with the intention of minimizing the performance differences between the scheme and the S & P CNX Nifty Index in capital terms, subject to market liquidity, costs of trading, managing expenses and other factors which may cause tracking error.	The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.	The investment objective of the scheme is to generate long-term capital appreciation by investing in a portfolio of open-ended diversified equity schemes of mutual funds registered with SEBI. There can be no assurance of positive returns from following the stated investment strategy.
