**ADDENDUM NO. 01 / 2023**

## Notice-Cum-Addendum

**NOTICE IS HEREBY GIVEN** for following change to the Scheme Information Document and Key Information Memorandum of Quantum Dynamic Bond Fund.

### **Change in Product Labeling - Risk-o-meter - of Quantum Dynamic Bond Fund.**

Investors / Unitholders are requested to note that in accordance with SEBI circular No. SEBI/HO/IMD/DF3/CIR/P/2020/197, dated October 05, 2020, risk-o-meter of Quantum Dynamic Bond Fund has been revised based on the scheme's portfolio as on December 31, 2022 as follows:

Scheme Name	Existing Risk-o-Meter Level	Risk-o-Meter Level of the scheme based on the scheme portfolio as on December 31, 2022	Risk-o-Meter
Quantum Dynamic Bond Fund	Moderate	Low to Moderate	

During the month of December 2022, based on the market movement and fixed income team's expectation of future interest rate trajectory, the average Macaulay Duration of the scheme was reduced from 3.15 years on November 30, 2022 to 1.76 years on December 31, 2022. Thus, the score for interest rate risk lowered in the risk-o-meter. This has led to change in the Risk-o-Meter of the scheme to "Low to Moderate Risk" from "Moderate Risk".

The Quantum Dynamic Bond Fund by its scheme objective manages interest rate risks to generate returns. The Fund Manager will increase or decrease the scheme's interest rate risk depending on the interest rate outlook. Investors should thus expect frequent changes in the Risk-o-Meter of the scheme depending on the portfolio positioning.

This addendum forms an integral part of the Scheme Information Document (SID) /Key Information Memorandum (KIM) of Quantum Dynamic Bond Fund as amended from time to time.

All other terms and conditions as mentioned in the SID & KIM of the Quantum Dynamic Bond Fund shall remain unchanged.
