#BSE 500 TRI, ##BSE 200 TRI, ###BSE Sensex TRI. **Past performance may or may not be sustained in the future.** The above SIP performance is for Quantum Value Fund - Direct Plan and Regular Plan - Growth option. Load is not taken into consideration using applicable NAV on the SIP day (5th of every month). Return on SIP and Benchmark are annualized and compounded investment return for cash flows resulting out of uniform and regular monthly subscriptions as on 5th day of every month (in case 5th is a non-Business Day, then the next Business Day) and have been worked out using the Excel spreadsheet function known as XIRR. XIRR calculates the internal rate of return for series of cash flow. Assuming ₹10,000 invested every month on 5th day of every month (in case 5th is a non-Business Day, then the next Business Day), the 1 year, 3 years, 5 years, 7 years, 10 years and since inception returns from SIP are annualized and compounded investment return computed on the assumption that SIP installments were received across the time periods from the start date of SIP from the end of the relevant period viz. 1 year, 3 years, 5 years, 7 years, 10 years and since inception. *XIRR - XIRR calculates the internal rate of return to measure and compare the profitability of series of investments. ##As TRI data is not available since inception of the scheme, Tier II benchmark performance is calculated using composite CAGR BSE 200 index PRI Value from March 13, 2006 to July 31, 2006 and TRI Value since August 1, 2006. Returns are net of total expenses.
