#BSE 500 TRI, ##BSE 200 TRI, ###BSE Sensex TRI. **Past performance may or may not be sustained in the future.** The above SIP performance is for Quantum ELSS Tax Saver Fund - Direct Plan and Regular Plan - Growth option. Scheme performance has been calculated using applicable NAV on the SIP day (5th of every month). Return on SIP and Benchmark are annualized and compounded investment return for cash flows resulting out of uniform and regular monthly subscriptions as on 5th day of every month (in case 5th is a non-Business Day, then the next Business Day) and have been worked out using the Excel spreadsheet function known as XIRR. XIRR calculates the internal rate of return for series of cash flow. Assuming ₹10,000 invested every month on 5th day of every month (in case 5th is a non-Business Day, then the next Business Day), the 1 year, 3 years, 5 years, 7 years, 10 years, and since inception returns from SIP are annualized and compounded investment return computed on the assumption that SIP installments were received across the time periods from the start date of SIP from the end of the relevant period viz. 1 year, 3 years, 5 years, 7 years, 10 years and since inception. *XIRR - XIRR calculates the internal rate of return to measure and compare the profitability of series of investments. Returns are net of total expenses.
