Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be place before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

The Scheme will follow an active investment strategy. The corpus of the scheme will invest in share of companies meeting an Ethical set of Principles including of Shariah, Jainism and other ethical principles encompassing a broad Ethical Framework. Such companies meeting the ethical criteria will be further screened through Quantum's proprietary integrity framework. These companies will also undergo a financial evaluation based on a set of metrics to ensure they are financially sound before being included in the portfolio.

Shariah Principles:

Shariah has unique approach is that financial transactions are fair & equitable, financial rewards are correlated with the level of risk, efforts and responsibility and prohibits interest, excessive uncertainty / speculation, gambling and harmful businesses. To follow such principles while investing the sector and industry will be excluded are Alcohol, gambling, tobacco, vulgar entertainment, animation content provider, exhibition of films, media-broadcasting, media-content, production & distribution of films, mainstream/conventional financial services, non-halal food and beverages, narcotics substance or anything largely harmful to society.

Jainism Principles:

Jainism has a unique approach to economic development which is strongly centered on sincerity and integrity' around Ahimsa and Karma, which 'encourages a light footprint in life, where consumption is to be simplified and minimized. To follow such principle while investing the sector & industry will be excluded are Meat & Animal Products, Alcohol & Tobacco, Pharmaceutical involving Animal Testing, Weapon & Defense, Gambling & Betting.

These Ethical Principles guide the overall investment framework and decision-making process.

Ethical Investment Framework

I. Ethical Exclusions

The scheme will avoid investing in companies that generate revenues from:

- o Alcohol
- o Gambling
- o Tobacco
- o Vulgar entertainment
- o Film exhibition
- o Media broadcasting and content
- o Film production and distribution

II. Additional Exclusions

The scheme will also exclude companies involved in:

- o Mainstream/conventional financial services
- o Narcotic substances or anything largely harmful to society
- o Leather industries
- o Meat and poultry industries or any form of animal cruelty
- o Animal testing (including pharmaceutical companies involved in such practices)

III. Financial Screening

In line with certain ethical considerations, financial screening will ensure that portfolio companies have:

- o Interest-based debt is less than 25% of total assets
- o Interest income is less than 4% of total income

This financial screening is separate from evaluating financial metrics to ascertain a company's financial soundness.

IV. Integrity Screening

Companies that meet the above criteria will undergo further screening by Quantum's investment process. The strategy aims to match sector weightages with broad, well-diversified indices for the Indian equity markets, subject to ethical screening. The objective is to invest in companies within each sector that score highly on integrity parameters.

Companies meeting the above criteria will further be screened by Quantum's proprietary integrity framework. The strategy determines sector weightages to reflect that of broad well diversified indices for the Indian equity markets subject to Ethical screening. Further, the strategy aims to invest in companies within each sector that stand high on the integrity parameters. The integrity check assesses non-financial aspects of a company's behavior with its various stakeholders, including governance, regulatory risks, and future preparedness. The Governance aspects, how well governed is the company under consideration. Further, the Investment Team will also look at various measures like its preparedness for risks from regulatory as well as disruption like emerging environmental and other regulations or to company specific factors like the conduct with the labour forces which could indicate issues like possibilities of strikes, supply chain disruptions etc. The forward looking assessment of how well is the company prepared for the future with its pro stakeholder behavior whether its if for shareholders, employees, community in which it operates or be its the environmental aspects amongst various stakeholders around the company.

The investment strategy of the Scheme will be to invest in a basket of stocks after intensive analysis on the integrity aspects of the company. The aim is to follow a comprehensive stakeholder approach in order to develop deeper understanding into a company's management practices, sustainable businesses and risk profile, which would thereby help us in understanding the impact on long-term sustainability and stability that drives performance. The companies will also be evaluated on various financial aspects to ensure its on a sound footing further reducing financial risk with such investments.

The primary focus of the Scheme will be on companies based on the following criteria:

1. Exclusion criteria
2. Companies trading \$ 1 million on an average per day for last 12 months
3. Companies qualifying Ethical set of principles including principles like Shariah, Jainism etc amongst broad set of Ethical principles
4. Companies scoring positively on Integrity assessment
5. Companies meeting the criteria for financial soundness that includes leverage, Return on Invested Capital, growth in free cash flow etc.

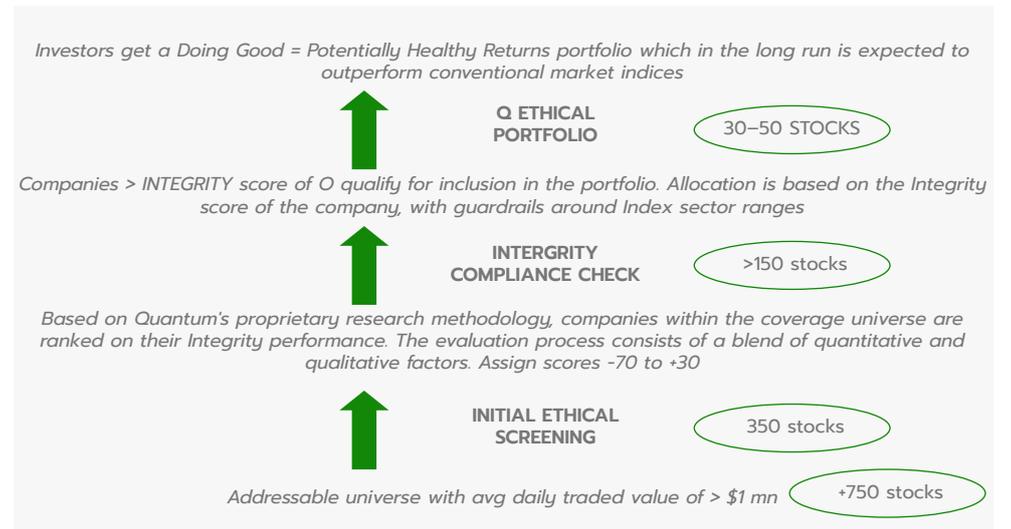

PORTFOLIO CONSTRUCTION

1. Every Stock with intergity composite score equal to or above the threshold integrity score will be part of the portfolio.
2. The AMC would generally not try to time the market and will add stocks that meet the Ethical and integrity criteria actively to capitalize on opportunities post through through assessment of potential companies. Every stock in portfolio will be bought and sold on the basis of weights allotted to it and will not consider the prevailing valuation of the stock.

The AMC will set sector weights for the portfolio in accordance with sector weights of a broad well diversified India equity Index.

3. In case, there are no stocks meeting the Ethical criteria and the integrity score greater than or equal to the set threshold composite score in a particular sector, the weightage of that sector is redistributed on a relative basis among other sectors, where the stocks meet the criteria. Consequently, the weightages of individual stocks qualifying the criteria within those sectors will also change accordingly.
4. The AMC will seek to periodically rebalance the portfolio on account of a new addition of stock, company specific events and in case of change in the view of the sector or the company.

The scheme will invest only in securities which are part of the Ethical Compliant Universe. In case of change in Ethical screening of any company post investment by the scheme, the Investment Team will exit from the scrip in a reasonable time.

The number of Stock in trading volume criteria, integrity criteria and in portfolio will be changed from time to time based on Investment Strategy of the scheme.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Scheme specific risk factors:

Ethical Investing Risk:

Ethical principles and their interpretations have evolved over a period of time and will continue to evolve going forward. In the pursuit to encompass most ethical principles in spirit, the AMC shall seek to gain guidance from an ethical advisor on the principles (as may be practically possible) and for interpretation of the principles. There may be more than one interpretation of the Ethical principles, the scheme shall always be guided by the advice and interpretation provided by the Advisor and or the best of its interpretation. Ethical principles and their interpretations have evolved over a period of time and will continue to evolve going forward. The AMC shall incorporate the same to the best of its knowledge and guidance.

The Scheme will invest only in Securities which will meets the Ethical Set of Principles as defined in the SID. The Fund Manager will review the various disclosures made by the companies and will do due diligence of the companies as part of the research process. The Fund Manager will exit from the securities on identification of variation / deviations in compliance of the Ethical Set of Principles as per the investment process. This may restrict the scheme to sell such securities as desired price.

Liquidity risk:

Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to its inability to liquidate the cash equivalents in time could cause the Scheme to miss certain investment opportunities resulting, at times, in potential losses to the Scheme.

Equity and equity-related risk

The Mutual Fund is not guaranteeing or assuring any returns. The trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. In the event investments are made in unlisted securities, the ability to liquidate such investments would be further limited. Along with liquidity risk, the NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.

The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems.

Price risk

The inclusion or exclusion of security depends entirely on the integration of Ethical principles and a comprehensive analysis of the company based on the integrity criteria. Hence, the buying or selling of a security is independent of valuations. Therefore, the price risk is comparatively higher.

Allocation risk

In the scheme, the portfolio allocations (or weights) are done on two levels: one on sector level and second at security level. The sectoral allocations in the Scheme will track the sectoral allocations of a broad well-diversified index subject to ethical screening and integrity performance to ensure portfolio diversification. Therefore, the underlying security allocation may be under or overweight as compared to that in the broad well-diversified Index. There is a risk that the returns from the Scheme may not be exactly equivalent to the returns from the broad well-diversified Index.

Concentration Risk:

The Scheme will invest in certain securities of certain companies, industries, sectors, based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

For details on risk factors and risk mitigation measures, please refer SID.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be place before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

The Fund seeks to generate capital appreciation by building and maintaining a diversified portfolio, predominantly of Small Cap stocks. The Fund might also have exposure to other equity & equity related instruments depending on the opportunities that broad equity markets provide from time to time. On defensive or liquidity considerations, the Fund may also invest in debt and money market instruments.

Equities have the potential to generate higher returns than most other asset classes over a longer period of time. In equities, Small Cap Companies are potential mid / large caps of tomorrow. These companies offer high growth potential investment opportunity as compared to large cap and mid cap companies due to its differentiated product or market segment providing an ability to gain market share and a smaller base of operation with the potential to expand over a period of time. Also, many such companies are relatively lesser known by market participants and hence lack sufficient price discovery, room for P/E expansion as the company grows over a period of time, both present an investment opportunity from a valuation standpoint.

The investment strategy of the Scheme will be to invest in a basket of stocks after using intensive fundamental analysis, both quantitative and qualitative, monitor the portfolio actively but not so as to engage in excessive trading, and control risk by keeping the portfolio adequately diversified (both in terms of the sectors included in the portfolio as well as with respect to the level of concentration of any particular investment).

Our Investment Criteria: Growth At Reasonable Price (GARP)

Evaluate:

- The business of the company
- The environment in which it operates
- The management, and their long-term goals
- Can the financials support the long-term goals?
- Sustainable Cash flow generation

Analyze:

- The stock price of the company based on fundamentals on a standalone basis or relative to its peer group, its history, and the market
- PER, PCF, P/BV, Div Yld, EV/EBITDA

Buy:

- Current price is trading at a reasonable upside based on our internal estimated value

Sell:

- Current price is > our estimate of long-term value; Risk / Reward
- Better Investment Alternatives
- Changed view of management, Changed view of business

The primary focus of the Scheme will be on companies that will typically be Small Cap Companies with due consideration to market cap and liquidity of the stocks under evaluation. The aim of strategy will be to predominantly build a portfolio of small-cap companies which have:

- a. potential for growth
- b. good capital allocation
- c. sustainable business model and cash flows
- d. reasonable valuations that offer potential for capital appreciation
- e. high standards of corporate governance

In addition to the above, in selecting stocks for the portfolio, the Fund Manager will also focus on the fundamentals of the business, the industry structure, sensitivity to economic factors, the financial strength of the company and the key catalyst for earnings growth.

Valuations will be developed based on the business of the company, the environment in which it operates the skills and resources of its management, the strength of its balance sheet and cash flow relative to its long-term goals, and other fundamental sector criteria. While the portfolio focuses primarily on a buy and hold strategy at most times, it will balance the same with a rational approach to selling when the valuations become too demanding even in the face of reasonable growth prospects in the long run or if there are adverse changes to that company's management, business prospects or the markets in which that company operates or other better alternatives if available.

Investment Process and Recording of Investment Decisions

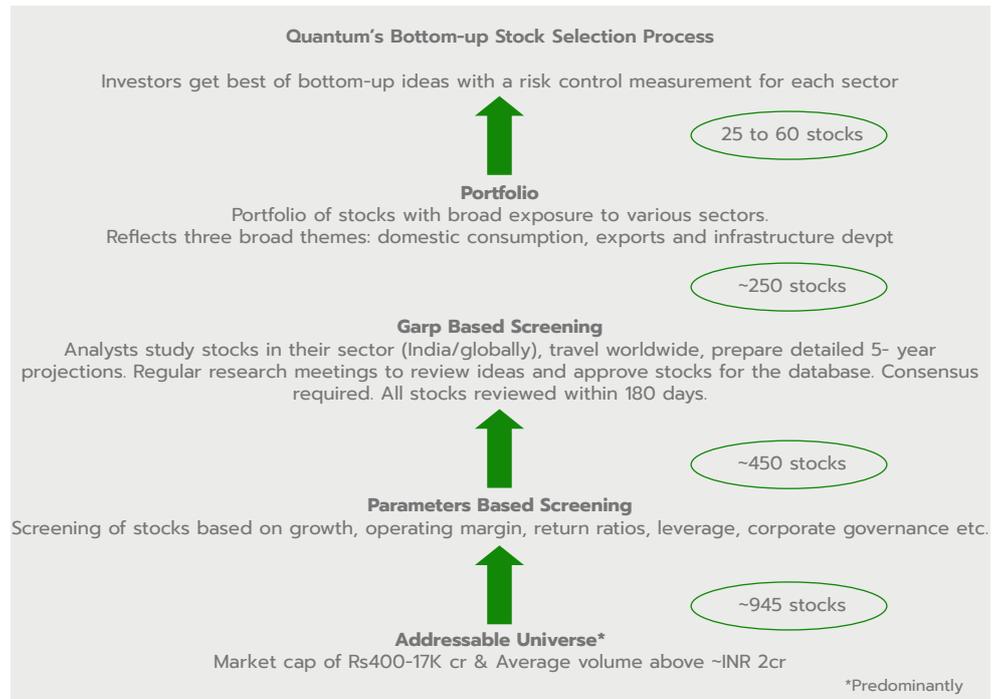

Investment Process

The investment process consists of:

1. Stock selection
2. Portfolio construction

1. Stock Selection

The AMC's stock selection approach is basically bottom up and is depicted below:

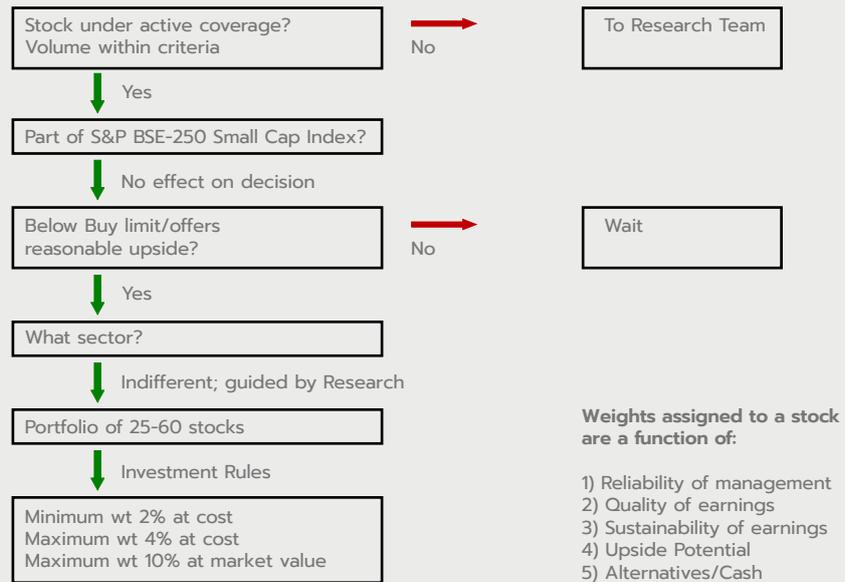

Analysts study stocks in their sector in India with global comparisons wherever necessary. The core universe is generally the Small Cap universe with starts from the 251st stock when sorted by market cap and will have flexibility to include stocks above it as well as new issues from time to time. Research includes visit notes, financial models, and investment thesis, supplemented with broker research.

- a. Portfolio of stocks with broad exposure to various sectors. Investors get best of bottom-up ideas with a risk control measurement for each sector (generally consists of 25 – 60 stocks).

2. PORTFOLIO CONSTRUCTION

- a) Stock has to be under active and current coverage.
- b) Every stock in the AMC's database has a pre – assigned Buy / Sell Limit. This is an INR price based on underlying fundamental sector criteria.
- c) The AMC generally buys a new stock at the pre-determined Buy price and generally sells an existing stock at the pre-determined Sell price or above. It may also buy / add to a stock at a price that is different to its buy price depending on the relative attractiveness of stock considering factors like upside potential and other investment merits. The Scheme could also sell a stock below its sell price if there are visible risks to the target price or any management concerns or if other opportunities are more attractive.
- d) The AMC has adopted Tier I Benchmark - BSE 250 SmallCap TRI which demonstrate the Investment Style / Strategy of the AMC. The AMC is indifferent to whether a stock, the Scheme owns, is in the BSE 250 SmallCap TRI or not although it recognizes its effect on liquidity.
- e) The AMC does not make sector calls. It follows a bottom up stock selection.
- f) The AMC's portfolio management style is conducive to a low portfolio turnover rate. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The Fund Manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it.
- g) The Scheme has no specific target relating to portfolio turnover.

Portfolio Construction

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risks associated with investments in Equity and Equity related instruments.

- Equity instruments carry both company specific and market risks and hence no assurance of returns can be made for these investments. The investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices market movements, and over longer periods during market downturns.

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

- **Market Risk:** Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis. Hence, the value of the Equity and Equity Related investments may go down and an investor may not get back the amount invested.
- **Liquidity Risk:** The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio.
- **Foreign Exchange Risk:** The businesses that we might invest in might have significant reliance on imports and/or exports, which can increase their vulnerability to sharp fluctuations in Foreign Exchange rates.
- **Corporate Governance Risk:** We avoid investing in companies with inferior corporate governance. However, post our investment if poor corporate governance were to manifest in any way such as siphoning of cash, unethical business practices, manipulation of share price, etc. then it can impact the value of our investment.
- **Legislative Risk:** The value and marketability of the Company's investments may be affected by changes or developments in the legal and regulatory climate in India. Changes in law/government policies, taxation, etc. can have an adverse or a favorable impact on the underlying investments.
- **Geopolitical Risks:** Geopolitical tensions between India and any of its neighboring countries can disrupt the economic growth. Subsequently, this might have a non-linear impact on the business that the Scheme has invested in and their valuations.

For details on risk factors and risk mitigation measures, please refer SID.

Quantum Value Fund

An Open Ended Equity Scheme following a Value Investment Strategy

Investment Objective

The investment objective of the Scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.

There is no assurance that the investment objective of the Scheme will be achieved.

Asset Allocation Pattern of the scheme

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Equity & Equity Related Instruments	65%	100%
Debt & Money Market Instruments	0%	35%

The cumulative gross exposure through all permissible investments viz. Equity & Equity Related Instruments and Debt & Money Market Instruments shall not exceed 100% of the net assets of the Scheme pursuant to para-No. 12.24 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/OW/P/2021/31487/1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Indicative Table

Sr. No.	Type of Instruments	Percentage of Exposure	Circular Reference
1	Securities Lending	Upto 50% Net Asset Subject to 5% Overall Stock Lending to any one intermediary	Para 12.11 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024
2	Equity Derivatives Hedging Purpose	5%	Para 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024
3	Overseas Securities / ADRs / GDRs	10%	Para 12.19 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be place before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

- AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
- AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

The investment strategy of the Scheme will be to invest in a basket of stocks after using intensive fundamental analysis, both quantitative and qualitative, monitor the portfolio actively but not so as to engage in excessive trading, and control risk by keeping the portfolio adequately diversified (both in terms of the sectors included in the portfolio as well as with respect to the level of concentration of any particular investment).

The primary focus of the Scheme will be on companies that will typically be included in the BSE 200 Index. Valuations will be developed based on the business of the company, the environment in which it operates the skills and resources of its management, the strength of its balance sheet and cash flow relative to its long term goals, and other fundamental sector criteria. Investments will be made in companies whose shares are undervalued when compared to long term valuation expectations. Investments will be sold when the Investment Manager believes the market price of the shares has exceeded its assessment of the long term value of that company, or if there are adverse changes to that company's management, prospects or the markets in which that company operates. This evaluation against market prices will tend to be based on fundamental criteria (dividend yields, price to earnings, price to cash flow, price to book value, and other different measures of share price ratios), relative to a company's peer group, its history and the overall equity markets.

Market liquidity will be an important tool to mitigate investment risk. Accordingly, a number of the companies in the portfolio may be included in the BSE 200 TRI that the Investment Manager will use as a Tier II benchmark, but this will not be a criterion for including a company in the Scheme's portfolio and the portfolio may not include some of the companies in the BSE 200 TRI. There may, however, be situations where other factors make an investment attractive enough to cause the Investment Manager to purchase a stock despite a relatively low level of liquidity in that stock. In addition, as noted above, the Scheme may invest in securities which are to be listed.

The Scheme may seek investment opportunity in the ADR / GDR and Foreign Securities (maximum 10% of Net Assets) subject to SEBI (Mutual Funds) Regulations, 1996. The Scheme may use derivatives for the purpose of hedging and portfolio balancing (max. 5% of Net Assets) based on the opportunities available subject to SEBI (Mutual Funds) Regulations, 1996.

Investment Portfolio

The Scheme's investment portfolio typically will consist of investments made in shares of "Indian companies" (defined as a company that is listed on a stock exchange in India or elsewhere and, if not located in India, has over 50% of its assets, revenues, or profits generated from operations in India). The Scheme will invest primarily in equity securities of Indian issuers listed on an Indian stock exchange, or on an approved over-the-counter exchange, including in the form of Depository Receipts. From time to time the Scheme may also invest in synthetic instruments, such as derivatives, as permitted under the SEBI Regulations, which are used to gain exposure to the stocks listed on the Indian stock exchanges, and in the shares of companies that are to be listed. The Board of Quantum AMC will from time to time review and approve the overall investment policy and strategy of the portfolio held by the Scheme. The Scheme will be subject to the investment restrictions prescribed under the SEBI (Mutual Fund) Regulations 1996.

While the majority of the assets will be invested in the securities of Indian companies, the Scheme may also invest in Debt & money market instruments or in units of liquid schemes under the Quantum AMC or any other Mutual Fund, subject to the applicable SEBI Regulation limits, for brief periods of time pending investment in equities or other securities more generally associated with the Scheme's portfolio.

The Scheme will also have the ability to invest in the following derivative products (provided these products are listed on a stock exchange); equity and index options, derivatives (including single-stock futures, index futures and currency futures). The Scheme will make such investments only when potential returns are appropriately high enough to justify such investments, in light of the Scheme's objectives. These types of investments will be less than 5% of the total assets of the Scheme. Securities acquired by the Scheme will primarily be denominated in Indian Rupees, although investments may also be made in other currencies, if justified under circumstances then prevailing.

Generally speaking, the portfolio will tend to include shares of 25 to 40 different companies, and the value of the holdings of any one company will tend to be in the range of 2% to 6% of the value of the portfolio. Particular sectors or industries will not be a significant factor in the decision to add a company to the Scheme's portfolio.

Although the Scheme will have the ability to invest in derivatives, it should be noted that the returns will always be dependent on market movements and hence the Scheme is not a typical market neutral "hedge fund". Furthermore, the under-developed nature of the derivatives market at this stage suggests that the Scheme is not likely to use derivative instruments in the near future. Investors seeking "market-neutral" hedge-fund Schemes or short-term investment strategies should not invest in the Scheme.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

The Scheme proposes to invest primarily in equity and equity related securities. The Scheme will, to the extent required to meet Repurchase / Redemption obligations or for want of immediate appropriate investment opportunities in equity or equity related instruments, also hold the funds in money market instruments or, subject to the limits as prescribed under the SEBI (Mutual Fund) Regulations, 1996, invest in units of liquid schemes under the Quantum AMC or any other Mutual Funds. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to its inability to liquidate the cash equivalents in time could cause the Scheme to miss certain investment opportunities resulting, at times, in potential losses to the Scheme.

The Mutual Fund is not guaranteeing or assuring any returns. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities.

For details on risk factors and risk mitigation measures, please refer SID.

Quantum Liquid Fund

An Open-ended Liquid Scheme. A relatively low interest rate risk and relatively low credit risk.

Investment Objective

The primary investment objective of the Scheme is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments.

There is no assurance that the investment objective of the Scheme will be achieved.

Asset Allocation Pattern of the scheme

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Money Market Instruments and other short term debt instruments with maturity / residual maturity* upto 91 days	0%	100%

*In case of securities where the principal is to be repaid in a single payout the maturity of the securities shall mean residual maturity. In case the principal is to be repaid in more than one payout then the maturity of the securities shall be calculated on the basis of weighted average maturity of security. In case of securities with put and call options (daily or otherwise) the residual maturity of the securities shall not be greater than 91 days. In case the maturity of the security falls on a non-business day then settlement of securities will take place on the next business day.

The Cumulative Gross Exposure across Money Market Instruments and other short term debt instruments with maturity / residual maturity upto 91 days shall not exceed 100% of the net assets of the Scheme pursuant to para-No. 12.24 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

The Scheme shall hold at least 20% of its net assets in liquid assets. For this purpose, 'liquid assets' shall include Cash, Government Securities, T-bills and Repo on Government Securities.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/OW/P/2021/31487/1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
 - ii. not to levy exit load, if any, on the investors exiting from the scheme.
- AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

The primary investment objective of the Scheme is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments.

The fund management team would endeavor to maintain consistent performance in the Scheme by balancing yields and safety as well as maintaining high liquidity.

Various risks carried by debt investments such as Interest Rate Risk, Liquidity Risk, default Risk, etc. cannot be eliminated, but can be minimized by diversification and hedging.

The fund management team has a Dynamic Model in place to balance and minimize the various risks in the debt markets.

The fund management team would actively track the local interest rate markets as well as the developments in global markets and accordingly rebalance the portfolio of the Scheme.

The investment objective would be achieved in the following order of priority:

- **Legality & compliance** – Ensuring that the portfolio is at all times completely compliant with all rules and regulations – internal and external.
- **Portfolio Liquidity** – Ensuring that the Portfolio can be liquidated at minimal impact cost to the investors.
- **Capital Preservation** – Ensuring that the investments are made in a manner to minimize market risks and choosing securities which have low default / Downgrade risk.
- **Yield and Return Enhancement** – After meeting the above objectives, the rigorous and in-depth research and analysis of the macro economic situation and fixed income markets should provide for timely investment opportunities which enhance the total returns for an investor – on a risk adjusted basis.

The overall Investment strategy revolves around the above laid down Investment Objectives as investors in a Liquid Fund seek optimal deployment of their surplus funds. Although the investment pattern for the scheme is for short term instruments, the research and analysis on the macro economy situation is carried out for short term as well as for a more structural and longer term horizon – so as to ensure that the portfolio investments are well positioned for all eventual and likely scenarios.

Thus, this dynamic combination of a rigorous top down macro economy and fixed income research and emphasis on Portfolio liquidity and capital preservation is expected to offer risk adjusted returns.

Investment Process

The fund management process is Committee driven. The Investment Committee has been constituted comprising of Managing Director, Chief Executive Officer, Chief Investment Officer, Fund Managers, Head of Compliance, Head of Operations and Risk Officer.

The Committee would oversee and review the investment process on an ongoing basis. All the statutory regulations including the SEBI & RBI Act, Regulations, guidelines and circulars issued from time to time would be adhered to. The investment decisions of the Scheme will be carried out by the Designated Fund Manager.

The performance of the Scheme would be periodically reviewed by the Board of Directors of the AMC & the Trustee.

A comprehensive Investment & Risk Policy and Procedures for investment in Fixed Income instruments has been put in place which governs the Investment Process. The Investment process is systematic, disciplined and research driven.

The investment decisions of the Scheme will be carried out by the Designated Fund Manager.

The Investment process is systematic, disciplined and research driven.

All the investment decisions are arrived at after using a well-researched Top-Down approach carried out by the Fund Manager- Fixed Income. Investments in unrated instruments will be made with prior approval of the Board of AMC and Trustee.

Compliance of the scheme objectives and various risk and regulatory aspects are the building blocks of the process.

The research process combines the macro factors (broad economy) and micro factors (security level) for investment decisions. A brief description of the Top Down approach is as follows:

Analysis of long term macro-economic indicators
GDP, inflation, monetary & fiscal policy and currency

Forecast the direction and the level of interest rates

Micro Analysis - Company and Instrument analysis
Credit Research, Market Research, Spreads and Liquidity Analysis

The macro & micro analysis narrows down to a list of securities based on the investment objectives and risk parameters

Credit Rating Analysis
Minimum Investment grade

Forecast the direction and the Level of Interest Rates

Company Analysis
Proprietary credit analysis – qualitative management assessment, fundamental factors, forecasts

The macro & micro analysis narrows down to a list of buyable credits for portfolio selection

Portfolio Selection
Selection based on liquidity, yields, spreads and relative value

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

- **Interest Rate Risk/Market Risk:**

Changes in interest rate may affect the Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in the fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk or Default Risk:**

Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

- **Liquidity Risks:**

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.

• **Settlement Risk:**

Different segments of the financial markets have different settlement cycle/ periods and such settlement cycle/ periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.

• **Re-investment Risk:**

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows than earlier assumed.

Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

For details on risk factors and risk mitigation measures, please refer SID.

Plans/Options

Plans available under the Scheme:

- Direct Plan
- Regular Plan

Options under each Plan(s):

- Growth Option
- Monthly Income Distribution Cum Capital Withdrawal Option (IDCW)
 - ▶ Payout of Income Distribution cum Capital Withdrawal (IDCW) Facility;
 - ▶ Reinvestment of Income Distribution cum Capital Withdrawal (IDCW) Facility
- Daily Reinvestment of Income Distribution Cum Capital Withdrawal option (IDCW)

(a) Growth Option:

The Income will not be declared & distributed under this Option. The income attributable to Units under this Option will continue to remain invested and will be reflected in the Net Asset Value of Units under this Option.

(b) Monthly Income Distribution Cum Capital Withdrawal Option (IDCW)

In the Monthly Income Distribution cum Capital Withdrawal Option, the fund will endeavour to declare regular Income Distribution on a monthly basis.

Monthly Income Distribution cum Capital Withdrawal option has two facilities namely Monthly Payout of Income Distribution cum capital withdrawal Facility; and Monthly Reinvestment of Income Distribution cum capital withdrawal Facility.

Income will be declared on every 25th of the month or on the next Business Day if 25th of the month is not a Business Day. The Income declared will be paid to the Unitholders within 7 working days from the declaration of the Income. If the Income Distribution payable to the Unitholder under the Payout of Income Distribution cum Capital Withdrawal Facility is less than or equal to Rs. 500/-, then the Income Distributed will be compulsorily reinvested in the same Facility.

Income will be distributed from the available distributable surplus after the deduction of TDS and applicable surcharge, if any.

(c) Daily Reinvestment of Income Distribution cum Capital Withdrawal (IDCW) Option

In the Daily Reinvestment of Income Distribution cum Capital Withdrawal Option, the Fund will endeavour to declare regular Income Distribution on a daily basis. The Income declared under this Option would be re-invested to the credit of the Unitholder's account at the ex-Dividend NAV by way of additional Units of the Scheme and no payout of Income will take place.

Please note that the Income is subject to availability of distributable surplus, if any. There is no assurance or guarantee to Unitholders as to the rate of Income distribution nor that the Income will be regularly paid, though it is the intention of the Mutual Fund to make regular Income distribution under this Option.

Investor should indicate the Direct / Regular Plan for which the subscription is made by indicating the choice in the application form. In case of valid application received without indicating any choice of plan then the application will be processed for plan as under:

Quantum ELSS Tax Saver Fund

An Open Ended Equity Linked Saving Scheme with a Statutory Lock in of 3 years and Tax Benefit

Investment Objective

The investment objective of the scheme is to achieve long-term capital appreciation by investing primarily in shares of companies that will typically be included in the BSE 200 Index and are in a position to benefit from the anticipated growth and development of the Indian economy and its markets.

There is no assurance that the investment objective of the Scheme will be achieved.

Asset Allocation Pattern of the scheme

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Equity & Equity Related Instruments*	80%	100%
Debt & Money Market Instruments	0%	20%

In accordance with the ELSS, investments by the Scheme in equity and equity related Securities will not fall below 80% of the net assets of the Scheme.

*Equity & equity related instruments shall mean all those instruments which are permitted as per ELSS Guidelines from time to time and shall include equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of 12 (twelve) months.

The cumulative gross exposure through all permissible investments viz. Equity & Equity Related Instruments, Debt and Money Market Instruments shall not exceed 100% of the net assets of the Scheme pursuant to para-No. 12.24 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/OW/P/2021/31487/1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Indicative Table

Sr. No.	Type of Instruments	Percentage of Exposure	Circular Reference
1	Securities Lending	As and when permitted under SEBI Regulations	Para 12.11 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024
2	Equity Derivatives Hedging / Non-Hedging Purpose	As and when permitted under SEBI Regulations	Para 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024
3	Overseas Securities / ADRs / GDRs	As and when permitted under SEBI Regulations	Para 12.15 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

- AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.

2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

The investment strategy of the Mutual Fund will be to invest in companies it believes are attractively priced in the market when compared to the Investment Manager's valuation of the company. The Investment Manager's valuation will be based on a number of factors, including the Investment Manager's assessment of the skill and expertise of the company's management team and the long term potential for both the company and the sectors in which it operates. Such opportunities may arise for a variety of reasons ranging from the belief that the markets have undervalued a company, to an assessment that there is opportunity for significant profit or market share growth given the dynamics of the sector a company operates in, or as a result of the company's competitive or proprietary advantages.

The investment strategy of the Scheme will be to invest in a basket of stocks after using intensive fundamental analysis, both quantitative and qualitative, monitor the portfolio actively but not so as to engage in excessive trading, and control risk by keeping the portfolio adequately diversified (both in terms of the sectors included in the portfolio as well as with respect to the level of concentration of any particular investment).

The primary focus of the Scheme will be on companies that will typically be included in the BSE 200 Index. Valuations will be developed based on the business of the company, the environment in which it operates the skills and resources of its management, the strength of its balance sheet and cash flow relative to its long term goals, and other fundamental sector criteria. Investments will be made in companies whose shares are undervalued when compared to long term valuation expectations. Investments will be sold when the Investment Manager believes the market price of the shares has exceeded its assessment of the long term value of that company, or if there are adverse changes to that company's management, prospects or the markets in which that company operates. This evaluation against market prices will tend to be based on fundamental criteria (Dividend yields, price to earnings, price to cash flow, price to book value, and other different measures of share price ratios), relative to a company's peer group, its history and the overall equity markets.

Market liquidity will be an important tool to mitigate investment risk. Accordingly, a number of the companies in the portfolio may be included in the BSE 200 Total Return Index that the Investment Manager will use as a benchmark, but this will not be a criterion for including a company in the Scheme's portfolio and the portfolio may not include some of the companies in the BSE 200 TRI Index. There may, however, be situations where other factors make an investment attractive enough to cause the Investment Manager to purchase a stock despite a relatively low level of liquidity in that stock. In addition, as noted above, the Scheme may invest in companies to be listed where the Investment Manager believes that a listing is likely within 3 years from the date of the investment.

Investment Portfolio

The Scheme's investment portfolio typically will consist of investments made in shares of "Indian companies" (defined as a company that is listed on a stock exchange in India or elsewhere and, if not located in India, has over 50% of its assets, revenues, or profits generated from operations in India). The Scheme will invest primarily in equity securities of Indian issuers listed on an Indian stock exchange, or on an approved over-the-counter exchange, including in the form of Depository Receipts. From time to time the Scheme may also invest in the shares of companies that are to be listed. The Board of the AMC will from time to time review and approve the overall investment policy and strategy of the portfolio held by the Scheme. The Scheme will be subject to the investment restrictions prescribed under the SEBI (Mutual Fund) Regulations 1996 and the ELSS.

While the majority of the assets will be invested in the equity securities of Indian companies, the Scheme may also invest in debt and money market instruments for the purpose of having liquidity.

Generally speaking, the portfolio will tend to include shares of 25 to 40 different companies, and the investment in shares of any one company will tend to be in the range of 2% to 6% of the Scheme's net assets. Particular sectors or industries will not be a significant factor in the decision to add a company to the Scheme's portfolio.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risk Factors related to Equity Investments

By virtue of requirements under the ELSS, Units issued under the QTSF will not be redeemed until the expiry of 3 (three) years from the date of their allotment. The ability of an investor to realise returns on investments in QTSF is consequently restricted for the first three years. Redemption will be made prior to the expiry of the aforesaid 3 (three) year period only in the event of the death of a Unit Holder, subject to the Units having been held for a period of 1 (one) year from the date of their allotment.

The Scheme proposes to invest primarily in equity and equity related securities. Equity Securities and equity-related Securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made by the Scheme may be restricted by trading volumes and settlement periods. This may impact the ability of the Unit Holders to redeem their Units. In view of this, the Trustee has the right, in its sole discretion to limit Redemptions (including suspending Redemption) under certain circumstances. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended Securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell Securities held in the Scheme's portfolio could result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of Securities held in the Scheme's portfolio. Investments in equity and equity related Securities involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment. The AMC may choose to invest in Securities which are to be listed that offer attractive yields within the regulatory limit.

For details on risk factors and risk mitigation measures, please refer SID.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be place before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

Investment Philosophy / Strategy

Portfolio allocation between the equity, debt/ money markets and gold broadly depends on the relative valuations between the asset classes. Relative valuations are determined by evaluation of various influencing factors. Some of the factors that would be reviewed thoroughly for determination of allocations across asset classes include:

1. Price/Earnings Ratio relative to historical averages;
2. The relationship between Earnings Yield to Bond Yield relative to historical averages;
3. Macroeconomic factors prevailing globally, and within India.

The most well-known valuation parameter for equity is the Price-Earnings (P/E) ratio. The estimated earnings of a company are valued at varying multiples that result in a specific but constantly changing price. The P/E multiple is used to determine the current valuation of a stock. Typically, when the P/E ratio exceeds its historical or expected levels the stock moves to an overvalued price. As the P/E ratios of stocks increase over their historical or expected averages, the scheme will look to progressively reduce exposure to equities as an asset class.

The inverse of P/E ratio is earnings yield: it is the earnings per share of the company, divided by the price per share typically expressed as a percentage. This earnings yield can be compared to the bond yield for assessing the relative over or under-valuation of stocks with respect to bonds. Earnings yields on stocks should offer investors a premium over bond yields due to the relatively higher risk associated with investing in equity – ownership of bonds give defined coupon payments, while ownership of shares does not guarantee any payments. This is referred to as the equity risk premium. When the equity risk premium falls to levels below historical averages, equities become relatively more expensive over bonds. These relative yields between bonds and stocks will provide key input to the allocation between equity and debt / money market asset class.

Gold has historically acted as an effective portfolio diversifier. It generally tends to have a negative correlation to equities. Based on the above notion, allocation to gold would therefore increase at times when equities appear expensive on a relative basis and decrease at times when equities appear relatively undervalued.

In addition to these market related factors, the macro environment could influence the allocation decisions. The Portfolio/ Investment Team will need to assess RBI monetary policy, various global and domestic lead/ lag economic indicators, inflation trends, and foreign central bank policies and evaluate their impact as the Portfolio/ Investment Team determine the asset allocation between equity/ debt / money markets / gold asset classes to optimize the allocation.

After determining the optimal asset allocation, the Portfolio/ Investment Team determines the allocation to specific equity, debt / money markets and gold instruments within the asset allocation. The allocations would be regularly reviewed, and necessary portfolio changes would be carried out based on the analysis suggested by various influencing factors.

For investments in equity and equity related securities, the Scheme would predominantly invest in securities of Nifty 50 Index. The Portfolio / Investment Team while investing in other securities in addition to Nifty 50 Stocks will follow the following fundamental and governance criteria amongst others:

- a) Sound Management
- b) Robust Business Model
- c) Good track record of the company
- d) Potential for future growth
- e) Industry and economic scenario

The scheme will follow a combination of top down and bottom-up approach to stock-picking and choose companies across sectors which have the potential to provide growth at reasonable valuations.

For investments in Debt Securities, the scheme will predominantly invest in sovereign and PSU debt securities to ensure that the portfolio has better liquidity and is of relatively high credit quality. The debt allocation will be actively managed, and the Fund Manager and Investment team will take an active view of the interest rate movement by keeping a close watch on various parameters of the Indian economy as well as developments in global markets. Thus, if the Fund Manager and the Investment Team believe that long term interest rates are going to rise, the Scheme can move to instruments which have low maturity and thus low duration and help protect the Scheme's performance. Conversely, if the Fund Manager and Investment Team believe that long term interest rates are going to fall, the Scheme can invest in longer tenor instruments and thus benefit out of the larger rise in prices of longer tenor bonds.

For investments in Gold Related instruments, the scheme will predominantly invest in units of Quantum Gold ETF. In addition, the Scheme could invest in Electronic Gold Receipts as and when permitted under the SEBI Regulations.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risks associated with investments in Equity and Equity related instruments

- Equity instruments carry both company specific and market risks and hence no assurance of returns can be made for these investments. The investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates

and perceived trends in stock prices market movements, and over longer periods during market downturns. Some of the specific risk factors related to the Scheme include, but are not limited to the following:

- **Market Risk:** Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis. Hence, the value of the Equity and Equity Related investments may go down and an investor may not get back the amount invested.
- **Liquidity Risk:** The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio.
- **Corporate Governance Risk:** We avoid investing in companies with inferior corporate governance. However, post our investment if poor corporate governance were to manifest in any way such as siphoning of cash, unethical business practices, manipulation of share price, etc. then it can impact the value of our investment.

Risk Related to Debt & Money Market Instruments

- **Interest Rate Risk/Market Risk:**

Changes in interest rate may affect the Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in the fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk or Default Risk:**

Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Risks associated with investments in Gold Instruments

Quantum Gold Fund (QGF) The underlying Scheme's NAV will react to the Gold price movements. The investor may lose money over short or long period due to fluctuation in scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in bullion prices, market movement and over longer periods during market downturns.

For details on risk factors and risk mitigation measures, please refer SID.

Quantum Equity Fund of Funds

An Open Ended Fund of Funds scheme Investing in Open Ended Diversified Equity Schemes of Mutual Funds

Investment Objective

The investment objective of the scheme is to generate long-term capital appreciation by investing in a portfolio of open-ended diversified equity schemes of mutual funds registered with SEBI. There is no assurance that the investment objective of the Scheme will be achieved.

Asset Allocation Pattern of the scheme

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Open-ended diversified equity schemes of mutual funds registered with SEBI	95%	100%
Money Market Instruments and Liquid Schemes of Mutual Funds	0%	5%

The scheme will only invest in third party mutual funds. The fund shall invest in a mix of diversified equity schemes, mid cap/small cap/large cap/ Flexi cap/ Equity oriented schemes.

The cumulative gross exposure through all permissible investments viz. Open-ended diversified equity schemes of mutual funds and Money Market Instruments and Liquid Schemes of Mutual Funds shall not exceed 100% of the net assets of the Scheme pursuant to para-No. 12.24 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/OW/P/2021/31487/1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Indicative Table

Sr. No.	Type of Instruments	Percentage of Exposure	Circular Reference
1	Securities Lending	Nil	Para 12.11 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be place before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

The investment strategy of the Scheme will be to invest predominantly in open-ended diversified equity schemes of Mutual Funds, which are registered with SEBI after using intensive fundamental analysis both quantitative and qualitative, monitor the portfolio regularly but not so as to engage in excessive churning, and control risk by keeping portfolio adequately diversified.

The Scheme will invest a majority of its money in open-ended diversified equity schemes that have been in existence for at least 3 years at the time of making investments. The Scheme will not invest in any sector / thematic funds. Besides, it will not make any investments in the schemes of Quantum Mutual Fund. Furthermore, the schemes that get short-listed will be tested across the quantitative and qualitative parameters, set as a part of our fund selection process.

The AMC shall appoint a Designated Agency to provide periodically the recommended list of diversified equity schemes. The research methodology to be adopted by the Designated Agency for providing the recommended list shall be reviewed by the Portfolio/Investment Team. Any Change in the research methodology shall also be reviewed by the Portfolio / Investment Team. The Designated Agency may be a bank, which distributes financial products, a research house or a distribution house. The Designated Agency may charge fees in accordance with the terms of the agreement entered into with it, which shall be borne by the AMC. The Portfolio will be reviewed and rebalanced on the receipt of the recommended list from the Designated Agency. Presently, the AMC has appointed Equitymaster Research Private Limited as designated agency to provide the recommended list.

The AMC has the right to designate an additional Agency for obtaining the recommended list. The AMC may also change the Designated Agency, if it deems fit.

The research methodology to be adopted by the Designated Agency for providing the recommended list shall be reviewed by the Board of Directors of AMC and Trustees. Any Change in the research methodology shall also be reviewed by the Board of AMC and Trustee.

Investment Portfolio

The Scheme's investment portfolio typically will consist of investments made in open-ended diversified equity schemes of Mutual Funds registered with SEBI. The Board of the AMC or investment committee of the board of the AMC will from time to time review and approve the overall investment policy and strategy of the portfolio held by the Scheme.

While the majority of the assets will be invested in the open-ended diversified equity schemes of Mutual Funds, which are registered with SEBI, the Scheme may also invest in money market instruments and liquid schemes of Mutual Funds for the purpose of having liquidity.

The portfolio will comprise of 5 to 10 different open-ended diversified equity mutual fund schemes, and the investment in any one mutual fund scheme will be in the range of 10% to 25% of the scheme's net assets.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risk Factors related to Equity Investments

1. The Scheme proposes to invest predominantly in the diversified equity schemes of Mutual Funds, registered with SEBI. Hence the scheme's performance will depend upon the performance of the underlying schemes. Any change in the investment policies or the fundamental attributes of the underlying schemes may affect the performance of the scheme.
2. Investments in underlying equity schemes will have all the risks associated with such schemes including performance of underlying stocks, derivative investments, off shore investments, stock lending, etc.
3. The investors of the Scheme shall bear the recurring expenses and loads if any of the Scheme in addition to the expenses & loads of the underlying schemes. Hence the investor under the Scheme may receive lower pre-tax returns than that they could have received if they had invested directly in the underlying schemes in the same proportions.
4. The Portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying schemes where the Scheme has invested and will not include the investments made by the underlying schemes.
5. The changes in asset allocation may result in higher transaction costs.
6. The Portfolio of the Scheme will normally be comprised of schemes from the recommended list. Though adequate care will be taken to ensure that the methodology adopted by the Designated Agency is proper, there may be any analytical error (like assigning over weightage or under weightage to various risk - return parameters), execution error etc. by the Designated Agency, which may result in the suboptimal performance of the Scheme.
7. Since the Scheme proposes to invest at least in 5 underlying schemes, the significant underperformance in even one of the underlying schemes may adversely affect the performance of the Scheme.

For details on risk factors and risk mitigation measures, please refer SID.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

Investment Philosophy/Strategy

The AMC uses 'passive' approach to try and achieve the Scheme's investment objective. The Scheme would predominantly invest in the units of Quantum Gold Fund. The AMC does not make any judgments about the investment merit of a Quantum Gold Fund nor will it attempt to apply any economic, financial or market analysis. Passive approach eliminates active management risks in regards to over / underperformance vis-à-vis the benchmark.

The Scheme will buy / sell units from the underlying scheme i.e. Quantum Gold ETF in Creation of Unit Size or through the secondary market through stock exchange route to achieve the investment objectives. The Scheme would endeavor to stay invested in the underlying scheme practically to the maximum extent possible at all times. However, the Scheme would also maintain some funds for meeting expenses and redemption purposes, in order to meet the liquidity requirements of the Scheme as prescribed in the Asset Allocation.

Quantum Gold Fund which is the underlying investment of this Scheme endeavors to track domestic prices of gold by investments in physical gold. It is also a passively managed scheme. On an average the Quantum Gold Fund has been 99.99% invested in gold since its inception in February 2008. This track record in terms of the investment allocation to physical gold evidences the extent to which the fund attempts to track the underlying.

Tracking error means the variance between returns of the underlying benchmark (gold ETF units in this case) and the NAV of the Scheme for any given period.

Tracking Error means the extent to which the NAV of the Scheme moves in a manner inconsistent with the movements of the benchmark on any given day or over any given period of time due to any cause or reason whatsoever including but not limited to expenditure incurred by the scheme, payouts of IDCW if any, whole cash not invested at all times as it may keep a portion of funds in cash to meet redemption etc. Tracking error quantifies how closely a manager's return pattern follows that of a benchmark index, and is defined as the standard deviation of the funds excess return over the underlying / benchmark index return.

Given the structure of Quantum Gold Fund, the AMC expects the tracking error to be lower. The AMC will endeavor to keep the tracking error as low as possible. Under normal circumstances, such tracking errors (with respect to the underlying i.e. Quantum Gold Fund) are not expected to exceed 2% per annum. However, this may vary when the markets are very volatile and also when the inflows / outflows in the fund are too-excessive.

A tracking error may result due to conditions that are beyond the control of the fund manager:

- (a) The Scheme would buy the underlying units on the exchange platform. The price at which the Scheme buys underlying units and its NAV (based on London AM fix and RBI reference rate) are likely to be different thereby causing deviation and creating tracking error.
- (b) The underlying units bought will incur a brokerage cost which would again lead to deviation in the Scheme and the underlying NAVs.
- (c) Tracking error would also arise on account of time lag between allotment of NAV to the investor and availability of actual funds for deployment as explained in above para. On account of this time lag, the procurement price of the underlying units would be different than the NAV at which allotment is made leading to tracking errors.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risk Factors related to Investments In Quantum Gold Fund

- The Scheme will invest predominantly in the units of Quantum Gold Fund (QGF), a mutual fund scheme Replicating / Tracking Gold - in the form of an Exchange Traded Fund. The Scheme's performance may depend upon the performance of QGF. Any change in the investment policy or the fundamental attributes of QGF could affect the performance of the Scheme. All risks associated with underlying scheme, including performance of their underlying physical gold, asset class risk, passive investment risk, indirect taxation risk, etc., will therefore be applicable in this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying scheme.
- The Scheme's NAV will react to the gold price movements and movements in the NAV of Quantum Gold Fund. The factor that may affect the price of gold, among other things include demand and supply for gold in India and in the global market, Indian and foreign exchange rates, inflation trends, trading in gold as commodity, legal restriction on movement / trade of gold that may be imposed by RBI, Government of India or countries that supply or purchase gold to / from India, trends and restrictions on export / import of gold in and out of India, etc.
- The portfolio disclosure of the scheme will be limited to providing the particulars of the Quantum Gold Fund where the scheme has invested and will not include the investments made by Quantum Gold Fund. However, as the scheme proposes to invest only in underlying scheme, the underlying assets will be and large be physical gold.
- The investors of the scheme will bear dual loads i.e. those of the scheme and those of Quantum Gold Fund. Hence, the investor under the scheme may receive lower pre-tax returns than what they could have received if they had invested directly in underlying scheme in the same proportions.
- Although the units of Quantum Gold Fund are listed on the stock exchange, there can be no assurance that an active secondary market for Quantum Gold Fund will develop or be maintained.
- Trading in units of Quantum Gold Fund on the stock exchanges may be halted because of market conditions or for reasons that in view of stock exchange authorities or SEBI, trading in the units of

Quantum Gold Fund is not advisable. In addition, trading of units of Quantum Gold Fund is subject to trading halts caused by extraordinary market volatility and pursuant to circuit filter rules of the stock exchanges and SEBI. There can be no assurance that the requirements of stock exchanges necessary to maintain the listing of the units of Quantum Gold Fund will continue to be met or will remain unchanged.

- The units of Quantum Gold Fund may trade above or below their NAV. The NAV of Quantum Gold Fund will fluctuate with changes in the market value of its holdings. The trading prices of the units of Quantum Gold Fund will fluctuate in accordance with changes in its NAV as well as market supply and demand for the units of Quantum Gold Fund. However, given that units of Quantum Gold Fund can be created and redeemed in Creation Units Size directly with Fund, it is expected that large discounts or premiums to the NAV of Quantum Gold Fund will not sustain due to arbitrage opportunity available.
- Any changes in trading regulations by the stock exchanges or SEBI may affect the ability of market maker to arbitrage resulting into wider premium / discount to NAV of Quantum Gold Fund.

For details on risk factors and risk mitigation measures, please refer SID.

Quantum Multi Asset Fund of Funds

An Open Ended Fund of Funds Scheme Investing in schemes of Quantum Mutual Fund

Investment Objective

The investment objective of the Scheme is to generate modest capital appreciation while trying to reduce risk (by diversifying risks across asset classes) from a combined portfolio of equity, debt / money markets and gold schemes of Quantum Mutual Fund.

The Scheme may invest in the units of debt / money market schemes of other mutual funds to gain exposure to debt as an asset class to manage any investment and regulatory constraints that arise / that prevent the Scheme from increasing investments in the schemes of Quantum Mutual Fund.

There is no assurance that the investment objective of the scheme will be achieved.

Asset Allocation Pattern of the scheme

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Units of Equity Schemes	25	65
Units of Debt / Money Market Schemes	25	65
Units of Gold Scheme	10	20
Money Market instruments, Short-term Corporate debt securities, Tri - Party Repo, Repo / Reverse Repo in government securities and treasury bills only	0	5

The Scheme will predominantly invest in the units of Equity, Debt / Money Markets and Gold schemes of Quantum Mutual Fund. Units of any other Equity and Debt schemes launched by Quantum Mutual Fund from time to time would be eligible to be part of the above asset allocation.

Currently, the Scheme is not allowed to invest in the units of Fund of Funds Scheme as per the SEBI Regulations. The Scheme will invest in units of the Fund of Funds Schemes of Quantum Mutual Fund as and when permitted under the SEBI Regulations.

The Scheme may invest in the units of debt / money market schemes of other mutual funds to gain exposure to debt as an asset class to manage any investment and regulatory constraints that arise / that prevent the Scheme from increasing investments in the schemes of Quantum Mutual Fund.

The Cumulative Gross Exposure across schemes and Money Market Instruments etc. and other instruments in asset allocation shall not exceed 100% of the net assets of the Scheme pursuant to para-No. 12.24 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be place before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
 - ii. not to levy exit load, if any, on the investors exiting from the scheme.
- AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

Investment Philosophy/Strategy

Portfolio allocation between the units of equity, debt/ money markets and gold schemes broadly depends on the relative valuations between the asset classes. Relative valuations are determined by evaluation of various influencing factors. Some of the factors that would be reviewed thoroughly for determination of allocations across asset classes include:

1. Price/Earnings Ratio relative to historical averages;
2. The relationship between Earnings Yield to Bond Yield relative to historical averages;
3. Macroeconomic factors prevailing globally, and within India.

The most well-known valuation parameter for equity is the Price-Earnings (P/E) ratio. The estimated earnings of a company are valued at varying multiples that result in a specific but constantly changing price. The P/E multiple is used to determine the current valuation of a stock. Typically, when the P/E ratio exceeds its historical or expected levels the stock moves to an overvalued price. As the P/E ratios of stocks increase over their historical or expected averages, the scheme will look to progressively reduce exposure to equities.

The inverse of P/E ratio is earnings yield: it is the earnings per share of the company, divided by the price per share typically expressed as a percentage. This earnings yield can be compared to the bond yield for assessing the relative over or under-valuation of stocks with respect to bonds. Earnings yields on stocks should offer investors a premium over bond yields due to the relatively higher risk associated with investing in equity – ownership of bonds give defined coupon payments, while ownership of shares does not guarantee any payments. This is referred to as the equity risk premium. When the equity risk premium falls to levels below historical averages, equities become relatively more expensive over bonds. These relative yields between bonds and stocks will provide key input to the allocation between equity and debt / money market schemes.

Gold has historically acted as an effective portfolio diversifier. It generally tends to have a negative correlation to equities. Based on the above notion, allocation to gold would therefore increase at times when equities appear expensive on a relative basis and decrease at times when equities appear relatively undervalued.

In addition to these market related factors, the macro environment could influence the allocation decisions. The Portfolio/ Investment Team will need to assess RBI monetary policy, various global and domestic lead/ lag economic indicators, inflation trends, and foreign central bank policies and evaluate their impact as the Portfolio/ Investment Team determine the asset allocation between equity/ debt / money markets / gold schemes.

After analyzing some or all the factors mentioned above, the Portfolio/ Investment Team determines the relative allocation to specific equity, debt / money markets and gold schemes. The allocations would be regularly reviewed and necessary portfolio changes would be carried out based on the analysis suggested by various influencing factors.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risk Factors related to Investments in Schemes

1. The scheme will invest predominantly in the schemes of Quantum Mutual Fund. Hence all the risk associated with the underlying schemes, including performance of underlying of the underlying schemes, asset class risk, passive investment risk, indirect taxation risk (applicable on gold investments – Increase / decrease in duties / taxes like Customs duty, Octroi charges, Vat, etc.) etc., will therefore be applicable to this scheme. Any changes in the investment policy or the fundamental attributes of the underlying schemes could affect the performance of the Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying schemes.
2. The NAV's of the Scheme(s) may be affected by the changes in the general market conditions, factors and forces affecting the capital markets in particular, level of interest rates, various market related factors and trading volumes, settlement periods and transfer procedures, currency exchange rates, changes in the government policies, taxation laws, any other policies, political and economic developments etc.
3. Despite the fact that the underlying portfolio investments of the Scheme will typically be liquid, in the event of receipt of an inordinately large number of redemption requests and inability of the Underlying Scheme(s) to generate enough liquidity because of market conditions, there may be delays in redemption of units.
4. The liquidity of the Scheme's investments is inherently restricted by liquidity of Underlying Schemes.
5. Unitholders of the Scheme are not being offered any guarantee / assured returns.
6. Changes in government policy in general and in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme.

7. The investor of the Scheme shall bear the recurring expenses, transaction charges and loads if any of the Scheme in addition to the expenses, transaction charges & loads of the underlying schemes. Hence the investor under the scheme may receive lower pre-tax returns than that they could have received if they had invested directly in the underlying schemes in the same proportions.
8. The portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying schemes where the Scheme has invested and will not include the investments made by the underlying schemes.
9. The changes in asset allocation may result in higher transaction costs.

For details on risk factors and risk mitigation measures, please refer SID.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including

details of portfolio not rebalanced.

2. AMC's shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

The investment objective of the scheme is to generate income and capital appreciation through active management of a portfolio consisting of short term and long term debt and money market instruments.

The investment objective would be achieved in the following order of priority:

- **Legality & compliance** – Ensuring that the portfolio is at all times completely compliant with all rules and regulations – internal and external.
- **Portfolio Liquidity** – Ensuring that the Portfolio can be liquidated at minimal impact cost to the investors.
- **Yield and Return Enhancement** – After meeting the above objectives, the rigorous and in-depth research and analysis of the macro economic situation and fixed income markets should provide for timely investment opportunities which would enhance the total returns for an investor – on a risk adjusted basis.
- **Capital Preservation** – Ensuring that the investments are made in a manner to minimize market risks and choosing securities which have low default/downgrade risk.

Debt markets tend to be volatile and especially so in a developing market like in India where market depth and liquidity may not be consistent. Longer tenor instruments tend to be more volatile than short term instruments. And that the interest rates and bond prices generally tend to have an inverse relationship.

Thus, when interest rates rise, the price of a bond falls; and in that the price of a bond with longer maturity falls more than the one which has a shorter maturity.

This is also true when interest rates fall, the price of the bond rises; and in that the price of a bond with longer maturity rises more than the one which has a short term maturity.

The Quantum Dynamic Bond Fund has the flexibility to invest across the maturity curve. It can invest in short term as well as long term instruments. And based on the asset allocation table provided, it can invest in government as well as corporate bonds.

The investment strategy thus is to dynamically manage only the duration of the Scheme. Thus the Scheme has the flexibility to invest in short term and long term instruments. But the Scheme has limited ability to take credit exposures. As given in the asset allocation table, despite the dynamic nature of the Scheme, it is restricted in taking exposures in corporate bonds, especially those issued by private sector and there are pre-defined limits for all instruments and investment categories. This is to ensure that the portfolio has better liquidity and is of relatively high credit quality.

The Scheme will thus be actively managed and the Fund Manager and the investment team will take an active view of the interest rate movement by keeping a close watch on various parameters of the Indian economy as well as developments in global markets.

Thus, if the Fund Manager and the Investment Team believe that long term interest rates are going to rise, the Scheme can move to instruments which have low maturity and thus low duration and help protect the Scheme's performance.

Conversely, if the Fund Manager and Investment Team believe that long term interest rates are going to fall, the Scheme can invest in longer tenor instruments and thus benefit out of the larger rise in prices of longer tenor bonds.

Given that Indian macro data points and hence interest rates tend to be volatile, the flexibility of optimal maturity management is key to superior risk adjusted performance.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risk Factors Associated with Fixed Income and Money Market Instruments:

Interest Rate Risk/Market Risk:

Changes in interest rate may affect the Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in the fixed income securities and thereby to possible movements in the NAV.

Credit Risk or Default Risk:

Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Liquidity Risks:

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.

Concentration Risk:

The Scheme will invest in certain securities of certain companies, industries, sectors, asset type etc. based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

Settlement Risk:

Different segments of the financial markets have different settlement cycle/periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.

Re-investment Risk:

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows than earlier assumed.

Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

For details on risk factors and risk mitigation measures, please refer SID.

Plans/Options**Plans available under the Scheme:**

- Direct Plan
- Regular Plan

Options under each Plan(s):

- Growth Option
- Monthly Income Distribution Cum Capital Withdrawal Option (IDCW) Option

In the Monthly Payout of Income Distribution cum capital withdrawal Option, the Fund will endeavour to declare regular Income Distribution on a monthly basis. Income will be declared on every 25th of the month or on the next Business Day if 25th of the month is not a Business Day. The Income declared will be paid to the Unitholders within 7 working days from the declaration of the Income Distribution. If the Income payable to the Unitholder is less than or equal to ₹100/-, then the Income will be compulsorily reinvested in the Option. Income will be distributed from the available distributable surplus after the deduction of TDS and applicable surcharge, if any.

(c) Monthly Reinvestment of Income Distribution cum Capital Withdrawal (IDCW) Facility

In the Monthly Re-investment of Income Distribution cum capital withdrawal Option, the Fund will endeavour to declare regular income distribution on a Monthly basis. The income distributed under this Option would be re-invested to the credit of the Unitholder's account at the ex-Dividend NAV by way of additional Units of the Scheme and no Payout of Income Distribution cum capital withdrawal Option will take place.

The amount of Re-investment of Income will be net of tax deducted at source, wherever applicable. On reinvestment of Income Distributed, the number of Units to the credit of Unitholder will increase to the extent of the Re-investment of Income based on the Applicable NAV as explained above.

Please note that the Income Distribution is subject to availability of distributable surplus, if any. There is no assurance or guarantee to Unitholders as to the rate of Income distribution nor that the Income Distributed will be regularly paid, though it is the intention of the Mutual Fund to make regular Income distribution under this Option.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be place before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

Investment Philosophy/Strategy

India has embarked upon a national level cleanliness movement- "Swachh Bharat Abhiyan". The aim was to clean length and breadth of country, provide cleaner natural resources, improve hygiene and health and contribute towards achieving the sustainable development goal established by the United Nations in 2015.

Supporting the mass movement for cleanliness and sustainability, Quantum ESG Best In Class Strategy Fund is a step towards ensuring that investments flow into greener and cleaner business. The focus of this scheme would be on investing in businesses, which are ensuring sustainable management of natural and human resources, diversity within the organizational structure, prudent management and socially responsible framework of business. The aim of this scheme is to provide the investors an opportunity to have an exposure to sustainable investment option.

The sustainability objectives of the ESG Strategy to achieving positive and above-average ESG profile, mitigating ESG risks and harnessing ESG opportunities, and influencing overall positive behavior by investing in companies that promote sustainable products and services.

The investment strategy determines sector weightages to reflect that of broad well diversified indices for the Indian equity markets. Further, the strategy aims to invest in companies within each sector that stand high on the Environmental, Social and Governance parameters assessed through Quantum Best In Class Strategy.

The investment strategy of the Scheme will be to invest in a basket of stocks after intensive analysis on the environmental, social and governance aspects of the company. The aim is to follow a comprehensive 'ESG Framework' in order to develop deeper understanding into a company's management practices, sustainable businesses and risk profile, which would thereby help us in understanding the impact on long-term sustainability that drives performance.

The primary focus of the Scheme will be on companies based on two criteria. First is for selecting companies under coverage and second is for selecting companies in the portfolio. The first criteria are selecting companies generally trading with liquidity of minimum US \$ 1 million on an average over the last 12 months and second criteria based on their ESG score.

Each security, which is filtered on the basis of first criteria, will be scored on ESG parameters using data sources such as sustainability reports (GRI Framework), Business Responsibility Reports (BRR) and other publicly available documents. Active weights of a security within their respective sector will be determined by a composite Best in Class ESG score. A higher ESG score of a security within the sector will have higher relative weight and vice versa. The selection process ensures eliminating exposure to companies that rank poorly on ESG criteria completely. The sum total of the weights of securities in a sector will equal to track sector weights of broad well-diversified indices subject to companies meeting our threshold Best in Class ESG score. The allocations focus on governance and sustainability; hence will be agnostic to valuations.

The investment strategy is broadly a combination of the following Best In Class ESG approach:

- The Fund uses a best-in-class screening strategy for the companies assessed based on proprietary framework on ESG metrics which generally covers more than 200 parameters which are material to the company's ESG performance. The companies meeting a threshold ESG score is considered for inclusion in the portfolio.
- The metric tracked by the fund to determine the best in class performance of investee companies is an aggregate ESG score determined through a materiality based assessment of companies E,S and G factors. Within each of the pillars there are certain materiality driven metric that would determine companies performance on each of the pillars. However, the factors chosen or its assessment may changes based on the sector or its materiality to companies operations. Examples of various metrics tracked under each pillar of ESG is given here: Emissions, carbon footprint, renewable energy mix, etc under Environment, gender diversity, gender pay parity, human rights, etc under Social and board composition and diversity, CSR spending, data privacy, etc under Governance. This is not an exhaustive list but examples to provide understanding of metrics under each E,S,G factor.
- The strategy would tend to exclude companies in the sectors like Alcohol, Gambling and Tobacco. While the ESG factors determine the quality and sustainability of potential investee companies, it would also scan for financial soundness of companies to ascertain its viability as a good investment. Along with material factors, financial filter including long term return on capital employed, leverage and growth rates are analysed to ensure the financial soundness and operational longevity of the company.

- The composite ESG score meeting our internal threshold assigned to the company on the basis of best-in-class ESG strategy is the one that broadly determines portfolio selection and corresponding weight is assigned to the company based on relative scores of companies within the respective sector, subject to investment guardrails.

The contribution to 'positive environmental change', an investor might reasonably expect:

- The Scheme fund invests in companies that meet Quantum ESG criteria and has a positive Best In Class ESG score which means the company stands relatively better as compared to other companies in their sectors on their ESG performance. While evaluating companies, the Team assess if the company has gone beyond their traditional remit and have made conscious effort to recognize the environment and society

as important stake holders and have achieved a reasonable progress on their environmental footprint and social recognition and contribution. The Team also look for companies efforts in adapting and mitigating climate change and thereby reducing the carbon footprint, improving the resource efficiency, water usage and waste reduction and disposal. Similarly, on the social aspects, companies should work towards being more equitable, encourage diversity, positively contribute towards the society through judicious use of CSR, encouraging worker representation and health & safety at workplace, upholding best standards for data privacy and cyber security.

- The Team do not only measure these aspects through the ESG framework but monitor and engage companies to become better at their ESG performance. One can reasonably expect a gradual improvement and many of these material ESG measure impacting the companies' operations.

Decision-making process for Investing:

- Decision-making process for investing is based on the use of proprietary Best in Class ESG scoring methodology. The broad comparisons made by the analysts of various companies within the sector and also taking clues from global companies evolution provides great insights into any ambiguous claims made by the company being researched. The Research is not restricted We do not restrict our research to self-declared company disclosures. We try to do a 360-degree company check by talking to various stakeholders like suppliers, vendors, customers, channel checks, employees, etc. to get more information to get a granular understanding of the true state of the company's affairs. We also try to get the information is also obtained from unorthodox sources like pollution control boards, NGOs, local communities in our bid to gather more information to try and verify the sustainability claims made by the company.

Investment Portfolio

- The Scheme's investment portfolio typically will consist of investments made in shares of Indian companies listed on a stock exchange in India identified based on the Best In Class ESG Strategy. The Scheme will invest primarily in equity securities of Indian issuers listed on an Indian stock exchange.
- While the majority of the assets will be invested in the securities of Indian companies, the Scheme may also invest in money market instruments or in units of liquid schemes under the Quantum AMC or any other Mutual Fund, subject to the applicable SEBI Regulation limits, for brief periods of time pending investment in equities or other securities more generally associated with the Scheme's portfolio. The Scheme shall endeavor to have a higher proportion of the assets under the Best In Class ESG Strategy.

Generally speaking, the portfolio will tend to include shares of all companies above a particular threshold Best In Class ESG composite score derived as a result of a thorough analysis of Best In Class Strategy assessing the Environment, Social and Governance factors relevant to the company and the sector in which it operates.

Investor can refer [https://www.quantumamc.com/downloads/pdfs/Environment-Social-&-Governance-\(ESG\)-Policy.pdf](https://www.quantumamc.com/downloads/pdfs/Environment-Social-&-Governance-(ESG)-Policy.pdf) for Environment, Social and Governance (ESG) Policy of Quantum AMC

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

(i) Greenwashing

- washing is the process of conveying a false impression or providing misleading information about how a company's business/products/services are more environmentally sound. The Team is well aware that there are many "greenwashing" incentives for companies from brand building to attracting investment flows. It is our fiduciary duty as custodians of investor capital to navigate any greenwashing attempts and endeavor to deliver investors true sustainability geared portfolio.
- ESG Audits are not yet popular in India. Therefore, companies may provide different baselines, scopes and boundaries of disclosures which make comparisons difficult. In such exceptional circumstances, the Fund may not be able to detect such practices and may buy/continue to hold such companies as part of the portfolio.

(ii) Risk of divergence in third-party rating providers' and Quantum MF's view on ESG scores/controversies etc:

The companies under ESG coverage of Quantum MF are assessed based on Quantum's Best in Class proprietary ESG framework. There is a high likelihood that the assessment provided by the third part provider and Quantum's Best in Class proprietary assessment differs materially. For instance, the depth of engagement with company, stakeholders, peers, third parties, vendors etc. would differ and that contributes to the overall ranking of the company. Therefore, it may happen that companies with low ESG score or stocks in excluded sectors as per Quantum's Best In Class assessment may go up in value and that may lead to lag in returns of the fund as compared to the market returns.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

- AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
- AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

Investment Strategy

Investment Philosophy/Strategy

The AMC uses 'passive' approach to try and achieve the Scheme's investment objective. The Scheme would invest in the units of Quantum Nifty 50 ETF. The AMC does not make any judgments about the investment merit of a Quantum Nifty 50 ETF nor will it attempt to apply any economic, financial or market analysis. Passive approach eliminates active management risks in regard to over / underperformance vis-à-vis the benchmark.

The Scheme will buy / sell units from the underlying scheme i.e. Quantum Nifty 50 ETF in Creation of Unit Size or through the secondary market through stock exchange route to achieve the investment objectives. The Scheme would endeavor to stay invested in the underlying scheme practically to the maximum extent possible at all times. However, the Scheme would also maintain some funds for meeting expenses and redemption purposes, in order to meet the liquidity requirements of the Scheme as prescribed in the Asset Allocation.

The AMC shall endeavor that the returns of Quantum Nifty 50 ETF Fund of Fund will replicate the returns generated by the underlying ETF subject to tracking error and expense of the Scheme. The AMC shall endeavor to keep tracking error as low as possible following the passive approach of the scheme.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risk Factors related to Investments In Quantum Nifty 50 ETF

- The Scheme will invest in the units of Quantum Nifty 50 ETF (Q Nifty), a mutual fund scheme Replicating / Tracking Nifty 50 Index - in the form of an Exchange Traded Fund. The Scheme's performance may depend upon the performance of Q Nifty. Any change in the investment policy or the fundamental attributes of Q Nifty could affect the performance of the Scheme. All risks associated with underlying scheme, including performance of their underlying stocks of Nifty 50 Index, asset class risk, passive investment risk, indirect taxation risk, etc., will therefore be applicable in this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying scheme.
- The Scheme's NAV will react to the stock market movements, and movements in the NAV and tracking error of Quantum Nifty 50 ETF. The investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices market movements, and over longer periods during market downturns.
- Investors will bear the recurring expenses of the Scheme in addition to the expenses of Quantum Nifty 50 ETF that means investors' are bearing expense ratio of two schemes. Thus, the Scheme returns may be lower than the returns investors may obtain by directly investing in the Quantum Nifty 50 ETF.
- The Scheme's performance may be impacted by exit loads that may be charged at the time of redemption from the Underlying Scheme.
- The Portfolio disclosure of the Scheme will be limited to providing the particulars of the Quantum Nifty 50 ETF where the Scheme has invested and will not include the investments made by Quantum Nifty 50 ETF.

For details on risk factors and risk mitigation measures, please refer SID.

In the case of NRIs, payments shall be:

- (i) Credited only to NRE account of the NRI investor where the payment for purchase of Units repurchased/ redeemed was made out of funds held in NRE account or
- (ii) Credited, at the NRI investor's option, to his/her NRO account, where the payment for the purchase of the Units repurchased /redeemed was made out of funds held in NRO account or
- (iii) Remitted abroad or at the NRI investor's option, credited to his/ its NRE/FCNR/NRO account, where the Units were purchased on repatriation basis and the payment for the purchase of Units repurchased / redeemed was made by inward remittance through normal banking channels or out of funds held in NRE/FCNR account.

Investors are requested to provide the following details along with the mandatory requirement of bank account details (bank, branch address, and account type and account no.) in the application form for electronic fund transfer (EFT) of income distribution / redemption amount to the unit holders bank account. Quantum AMC will automatically extend this facility to all unit holders in case the bank account as communicated by the unit holder is with any of the bank providing EFT facility.

The 11 digit IFSC (Indian Financial System Code) is to be mandatorily given.

Based on the above information AMC will enable secure transfer of redemption and income distribution via the various electronic modes of transfers (RTGS /NEFT / Direct Credit mode that are available in the banking system).

This facility of EFT is safe and fast and eliminates the potential risk of loss of instruments in transit through physical mode. The Mutual Fund, however, reserves the right to issue a cheque / demand draft to unit holders where this facility is not available. "If the remittance is delayed or not affected for reasons of incomplete or incorrect information, Quantum AMC cannot be held responsible". For validation of IFSC, investor shall attach the cancelled cheque/ copy of cheque. If these documents are not provided the fund will not be responsible for consequent delay in receipt of payment. Fund is also not responsible for bankers delay.

11. Mode Of Payment

1. Quantum Mutual Fund shall not accept applications for subscriptions with third party payment instruments.

- The requirement of nomination shall be optional for jointly held accounts / folios.
- Non-individuals including a Society, Trust, Body Corporate, Partnership Firm, Karta of Hindu undivided family, a Power of Attorney holder and/or Guardian of Minor unitholder cannot nominate. The Nominee should be only individual investors.
- Nomination is not allowed in a folio of a Minor unitholder.
- Investor can make nomination or change nominee any number of times without any restriction.
- The signatories for this nomination form in joint folios / account, shall be the same as that of your joint MF folio account. i.e. - 'Either or Survivor' Folios / Accounts - any one of the holders can sign - 'Jointly' Folios / Accounts - both holders have to sign.
- A minor can be nominated and, in that event, the name and address of the guardian of the minor nominee shall be provided by the Unitholder (optional). The guardian should be a person other than the Unitholder.
- In case all your nominees do not claim the assets from the AMC / DP, then the residual unclaimed asset shall continue to be with the AMC in case of MF units and with the concerned Depository in case of Demat account.
- A Non-Resident Indian may be nominated subject to the applicable exchange control regulations.
- Multiple Nominees: Nomination can be made in favour of multiple nominees, subject to a maximum of THREE nominees. In case of multiple nominees, the percentage of the allocation/share should be in whole numbers without any decimals, adding upto a total of 100%. If the total percentage of allocation amongst multiple nominees does not add upto 100%, we shall apportionment the assets equally among all the nominees.
- In case of fresh nominee registrations, existing nominee details will be overwritten across the schemes under the folio.
- Nomination made by a unit holder shall be applicable for units held in all the schemes under the respective folio / account.
- Nomination shall stand rescinded upon the transfer of units.
- Death of Nominee/s: In the event of the nominee(s) pre-deceasing the unitholder(s), the unitholder/s is/are advised to make a fresh nomination soon after the demise of the nominee. The nomination will automatically stand cancelled in the event of the nominee(s) pre-deceasing the unitholder(s). In case of multiple nominations, if any of the nominee is deceased at the time of death claim settlement, then the assets shall be distributed to the surviving nominees on pro rata basis upon demise of the investor, as illustrated in below the table.

% share as specified by investor at the time of nomination		% assets to be apportioned to surviving nominees upon demise of investor and nominee			
Nominee	% share	Nominee	% initial share	% of A's share to be apportioned	Total % share
A	60%	A	0	0	0
B	30%	B	30%	45%	75%
C	10%	C	10%	15%	25%
Total	100%	-	40%	60%	100%

15. Legal heir(s) of nominee shall not be eligible to inherit the assets of the investor, if the nominee predeceases the investor.
16. Transmission of units in favour of a Nominee shall be valid discharge by the asset management company/ Mutual Fund / Trustees against the legal heir(s).
17. The nomination will be registered only when this form is completed in all respects to the satisfaction of the AMC.
18. In respect of folios/accounts where the Nomination has been registered, AMC shall transmit the assets in the account / folio to the registered nominee(s) for effecting its due discharge. In absence of nomination, AMC shall transmit the assets in the account / folio to either; the legal heir(s) or legal representative(s) of the youngest of the joint holders as per the rules of intestate succession or as per the Will of the latter, as the case may be, after following the prescribed procedure.
19. In case of accounts / folio held by Hindu Undivided Family (HUF), upon the death of the Karta as recorded, the new Karta as constituted under applicable law, would be entitled to operate such an account/folio. In the absence of new Karta, the regulated entity shall effect transmission of account / folio as per dissolution deed and other criteria defined by the respective SRO / industry body in consultation with the SEBI.
20. The nominee(s) shall receive the assets of deceased sole account / sole holder(s) as trustee on behalf of legal heir(s) of deceased holder(s) thereby effecting due discharge of concerned regulated entity
21. For displaying the nominee details in SOA, the investor can either opt to display the name(s) of the nominee(s) or confirm whether the nomination has been made by the investor – Yes/No. If neither option is selected, the default display mode will be set to Yes/No.
22. Investors shall mandatorily provide the following.
 - a) any one of the following personal identifiers of the nominee – PAN or Driving Licence number or last 4 digits of Aadhaar (only the document number is required to be provided; not the document) or Passport Number
 - b) full contact details of nominee(s) such residential address, e-mail address, telephone / mobile number
 - c) relationship of nominee(s) with the investor
 - d) Date of birth of nominee(s) (if nominee is a minor)

13. Demat Account

The unit holders would have an option to hold the units in dematerialized form. The applicant intending to hold units in dematerialized form will be required to have a beneficiary account with a Depository Participant (DP) of the NSDL/CDSL and will be required to mention in the application form DP ID, DP Name and Beneficiary Account No. with the DP name at the time of subscribing to the units of the Scheme.

Investors have to ensure that the sequence of names as mentioned in the application form matches with that of the account held with the Depository Participant. If the details mentioned in the application are incomplete/ incorrect, not matching with the Depository data, then Units will be issued in Physical mode and Statement of Account will be issued to the Unit holder.

For units held in demat form, the KYC performed by the Depository Participant of the applicants will be considered as KYC verification done by the Trustee/AMC.

In case of holding in demat account the bank mandate, mode of holding, nominee details, contact details etc. will be as per the details stated in the demat account and not as per this application.

In case an investor desires to redeem, the redemption request can be placed through Depository Participants and Exchanges specified intermediaries where NSE MFSS/ BSE StAR MF platform is available for redeeming of Mutual Fund Units.

Kindly note that facility to subscribe/ hold units in demat form is not available for Quantum Liquid Fund - Reinvestment of Daily IDCW Facility, Switches and STP investments.

In case of Unit holders holding units in demat (electronic) mode, a demat statement will be sent by Depository Participant to the Unit holders.

14. List Of Documents

Investor are requested to enclose the relevant documents as listed in the check list of accompanying documents depending on the applicant's status and tick in the box against the document.

15. FATCA and CRS Details

FATCA is a tax reporting regime that obligates all financial institutions to report information to the relevant tax authorities about U.S reportable persons and certain entities in which U.S. persons hold a substantial ownership interest. India signed the Inter-Governmental Agreement (IGA) with the U.S. on July 9, 2015.

CRS is the OECD' & G-20's Model Competent Authority Agreement for multilateral tax information sharing. It enables automatic exchange of tax information based on the Standard through bilateral tax treaty networks. India signed the CRS Agreement on June 3, 2015. The Central Board of Direct Taxes has notified Rules 114F to 114H, as part of the Income-tax Rules, 1962, which requires Indian financial institutions to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our account holders. In relevant cases, information will have to be reported to tax authorities/ appointed agencies. For meeting compliance requirements, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. If there is any change in the information provided, kindly intimate the same to us within 30 days.

16. SIP TOP-UP

It is a facility wherein an investor who is enrolling for SIP has an option to increase the amount of the SIP installment by a fixed amount at predefined intervals. Thus, an investor can progressively start increasing the amount invested, allowing him/her to gradually increase the investment corpus in a hassle-free manner. The silent features of the said facility are as follows:

- SIP TOP-UP facility is available in Monthly and Quarterly frequency only.
- Investor can TOP-UP the SIP an amount in fixed intervals with minimum amount of Rs 100/- in multiple of Re.1. For Quantum ELSS Tax Saver Fund Top Up minimum and in multiples of Rs. 500/ only.
- At presently, SIP Top- UP facility is applicable to an Investor who is enrolling for a new SIP.
- The investor can choose a frequency for the Top Up depending on the SIP frequency being opted. In case of a Monthly SIP, the investor can choose either a 'Half-yearly' or 'Annual' based Top-up frequency; in case of a Quarterly SIP, the top-up is available 'Annual' frequency only. In case SIP Top-Up frequency is not mentioned, the default frequency will be considered as 'Annual' for both monthly and Quarterly SIP.
- Investor shall have flexibility to choose either Top-Up Cap on **Amount or Period** (month- year). In case of multiple selection, Top-Up Cap amount will be considered as default selection.
- Investor opted to freeze the SIP top up amount once it reaches a fixed predefined amount. Once the SIP amount was reached freezing amount, the same amount will be considered as SIP instalment amount till the end of the SIP tenure. The fixed pre-defined amount should be same as the maximum amount mentioned by the investor in the bank mandate in case of difference between the Cap amount & the maximum amount mentioned on bank mandate, then amount which is lower of the two amounts shall be considered as the default amount of SIP Cap amount.
- Investor opted to freeze the SIP top up tenure once it reaches the said period, SIP TOP-UP will be stopped, and SIP amount will be considered as SIP instalment amount till the end of the SIP tenure. The fixed pre-defined period should be same as the end of the period of the mentioned by the investor in the bank mandate in case of difference between the end date and Cap period & the maximum period mentioned on bank mandate, then end date will be the earlier of the two dates.
- In case of no selection, TOP-UP freeze date or Cap amount not selected, then as a default amount of 10 Lakhs will be considered as Cap amount. Under the said facility, SIP amount will remain constant from Top - Up Cap date/ amount till the end of SIP Tenure.
- The Top-up details cannot be modified once enrolled. In order to make any changes, the investor must cancel the existing SIP and enrol for a fresh SIP with Top-up option.
- For further details and Forms, investors are requested to refer our website (www.QuantumAMC.com) or visit nearest collection centre of our Registrar viz. KFin Technologies Limited

19. SIP Top-Up

It is a facility wherein an investor who is enrolling for SIP has an option to increase the amount of the SIP instalment by a fixed amount at predefined intervals. Thus, an investor can progressively start increasing the amount invested, allowing him/her to gradually increase the investment corpus in a hassle-free manner. The silent features of the said facility are as follows:

- SIP Top-Up facility is available in Monthly and Quarterly frequency only.
- Investor can Top-Up the SIP amount in fixed intervals with minimum amount of Rs. 100/- in multiple of Re.1/- . For Quantum ELSS Tax Saver Fund, Top-Up minimum amount is Rs. 500/- in multiples of Rs. 500/- only.
- At presently, SIP Top-UP facility is applicable to an Investor who is enrolling for a new SIP.
- The investor can choose a frequency for the Top-Up depending on the SIP frequency being opted. In case of a Monthly SIP, the investor can choose either a 'Half-yearly' or 'Yearly based Top-Up frequency; in case of a Quarterly SIP, the Top-Up is available in "Yearly" frequency only. In case SIP Top-Up frequency is not mentioned, the default frequency will be considered as 'Yearly' for both Monthly and Quarterly SIP.
- Investor shall have flexibility to choose either Top-Up Cap on **Amount or Period** (month-year). In case of multiple selection, Top-Up Cap Amount will be considered as default selection. **Cap Amount:** Investor opts to freeze the SIP Top-Up amount on reaching the Cap Amount limit. Once it reaches the limit, the same amount will be considered as the SIP instalment amount until the end of the SIP tenure. The Cap Amount should be same as the maximum amount mentioned by the investor in the debit mandate. In case there is a difference between the Cap Amount & the maximum amount mentioned on debit mandate, amount which is lower of the two amounts shall be considered as the default amount of SIP Cap amount. **Cap Period:** Investor opts to freeze the SIP Top-Up tenure on reaching the Cap Period limit. Once it reaches the said period, the SIP Top-Up will be stopped, and SIP amount will be considered as the SIP instalment amount until the end of SIP tenure. The Cap Period should be same as the end period mentioned by the investor in the debit mandate. In case there is a difference between the Cap Period & the maximum period mentioned on debit mandate, end date will be the earlier of the two dates.
- In case Top-Up Cap Amount or Period is not selected, then default amount of Rs. 10 Lakhs will be considered as Cap Amount. Under the said facility, SIP amount will remain constant from Top - Up Cap date/ amount till the end of SIP Tenure.
- The Top-Up details cannot be modified once enrolled. In order to make any changes, the investor must cancel the existing SIP and enrol for a fresh SIP with Top-Up option.
- For further details and Forms, investors are requested to refer our website (www.QuantumAMC.com) or visit nearest collection centre of our Registrar viz. KFin Technologies Limited

Instructions on Controlling Persons / Ultimate Beneficial Owner

As per PMLA guidelines and relevant SEBI circulars issued from time to time, non-individuals and trusts are required to provide details of controlling persons [CP] / ultimate beneficiary owner [UBO] and submit appropriate proof of identity of such CPs/ UBOs. The beneficial owner has been defined in the circular as the natural person or persons, who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted and includes a person who exercises ultimate effective control over a legal person or arrangement.

A. For Investors other than individuals or trusts:

(i) The identity of the natural person, who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest. Controlling ownership interest means ownership of/entitlement to:

- more than 10% of shares or capital or profits of the juridical person, where the juridical person is a company.
- more than 15% of the capital or profits of the juridical person, where the juridical person is a partnership.
- more than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.

(ii) In cases where there exists doubt under clause (i) above as to whether the person with the controlling ownership interest is the beneficial owner or where no natural person exerts control through ownership interests, the identity of the natural person exercising control over the juridical person through other means like through voting rights, agreement, arrangements or in any other manner.

(iii) Where no natural person is identified under clauses (i) or (ii) above, the identity of the relevant natural person who holds the position of senior managing official.

B. For Investors which is a trust:

The identity of the settler of the trust, the trustee, the protector, the beneficiaries with 10% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

C. Exemption in case of listed companies / foreign investors

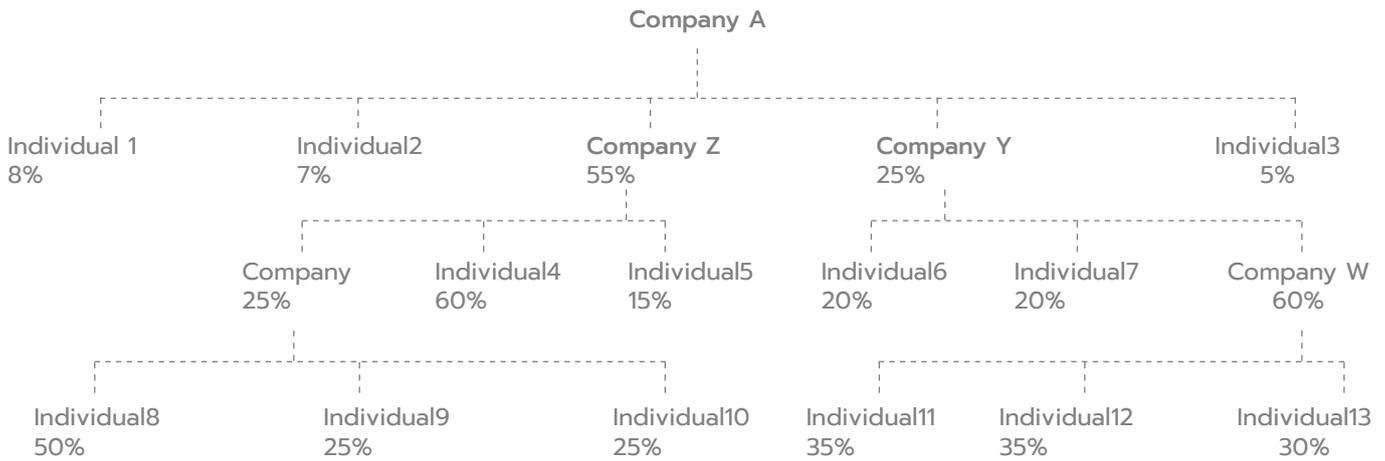

The client or the owner of the controlling interest is a company listed on a stock exchange or is a majority-owned subsidiary of such a company, there is no need for identification and verification of the identity of any shareholder or beneficial owner of such companies and hence exempted from UBO declaration provided other requisite information is provided. Intermediaries dealing with foreign investors' viz., Foreign Institutional Investors, Sub Accounts and Qualified Foreign Investors, may be guided by the clarifications issued vide SEBI circular CIR/MIRSD/11/2012 dated September 5, 2012 and other circulars issued from time to time, for the purpose of identification of beneficial ownership of the client.

D. KYC requirements

Beneficial Owner(s) / Senior Managing Official (SMO) is/are required to comply with the prescribed KYC process as stipulated by SEBI from time to time with any one of the KRA & submit the same to AMC. KYC acknowledgement proof is to be submitted for all the UBO(s) / SMO(s).

Sample Illustrations for ascertaining beneficial ownership:

Illustration No. 1 – Company A

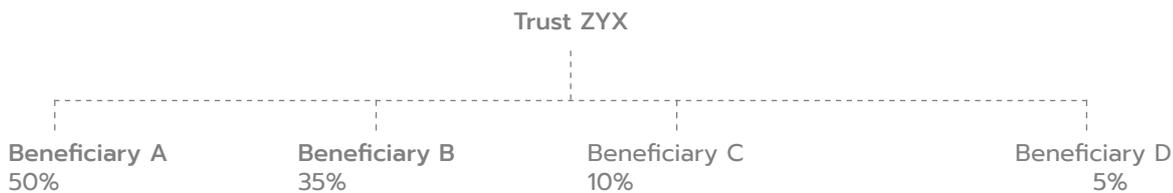

For Applicant A, Individual 4 is considered as UBO as it holds effective ownership of 33% in Company A. Hence details of Individual 4 must be provided with KYC proof, Shareholding pattern of Company A, Z & Y to be provided along with details of persons of Company Y who are senior managing officials and those exercising control.

Illustration No. 2 – Partner ABC

For Partnership Firm ABC, Partners 1, 2 and 5 are considered as UBO as each of them holds >=15% of capital. KYC proof of these partners needs to be submitted including shareholding

Illustration No. 3 – Trustee ZYX

For Trust ZYX, Beneficiaries A, B and C are considered as UBO as they are entitled to get benefitted for >10% of funds used. KYC proof for these beneficiaries needs to be submitted. Additionally, if they have nominated any person or group of persons as Settlor of Trust / Protector of Trust, relevant information to be provided along with the proof indicated.
