Investment Strategy

The Fund seeks to generate capital appreciation by building and maintaining a diversified portfolio, predominantly of Small Cap stocks. The Fund might also have exposure to other equity & equity related instruments depending on the opportunities that broad equity markets provide from time to time. On defensive or liquidity considerations, the Fund may also invest in debt and money market instruments.

Equities have the potential to generate higher returns than most other asset classes over a longer period of time. In equities, Small Cap Companies are potential mid / large caps of tomorrow. These companies offer high growth potential investment opportunity as compared to large cap and mid cap companies due to its differentiated product or market segment providing an ability to gain market share and a smaller base of operation with the potential to expand over a period of time. Also, many such companies are relatively lesser known by market participants and hence lack sufficient price discovery, room for P/E expansion as the company grows over a period of time, both present an investment opportunity from a valuation standpoint.

The investment strategy of the Scheme will be to invest in a basket of stocks after using intensive fundamental analysis, both quantitative and qualitative, monitor the portfolio actively but not so as to engage in excessive trading, and control risk by keeping the portfolio adequately diversified (both in terms of the sectors included in the portfolio as well as with respect to the level of concentration of any particular investment).

Our Investment Criteria: Growth At Reasonable Price (GARP)

Evaluate:

- The business of the company
- The environment in which it operates
- The management, and their long-term goals
- Can the financials support the long-term goals?
- Sustainable Cash flow generation

Analyze:

- The stock price of the company based on fundamentals on a standalone basis or relative to its peer group, its history, and the market
- PER, PCF, P/BV, Div Yld, EV/EBITDA

Buy:

- Current price is trading at a reasonable upside based on our internal estimated value

Sell:

- Current price is > our estimate of long-term value; Risk / Reward
- Better Investment Alternatives
- Changed view of management, Changed view of business

The primary focus of the Scheme will be on companies that will typically be Small Cap Companies with due consideration to market cap and liquidity of the stocks under evaluation. The aim of strategy will be to predominantly build a portfolio of small-cap companies which have:

- a. potential for growth
- b. good capital allocation
- c. sustainable business model and cash flows
- d. reasonable valuations that offer potential for capital appreciation
- e. high standards of corporate governance

In addition to the above, in selecting stocks for the portfolio, the Fund Manager will also focus on the fundamentals of the business, the industry structure, sensitivity to economic factors, the financial strength of the company and the key catalyst for earnings growth.

Valuations will be developed based on the business of the company, the environment in which it operates the skills and resources of its management, the strength of its balance sheet and cash flow relative to its long-term goals, and other fundamental sector criteria. While the portfolio focuses primarily on a buy and hold strategy at most times, it will balance the same with a rational approach to selling when the valuations become too demanding even in the face of reasonable growth prospects in the long run or if there are adverse changes to that company's management, business prospects or the markets in which that company operates or other better alternatives if available.

Investment Process and Recording of Investment Decisions

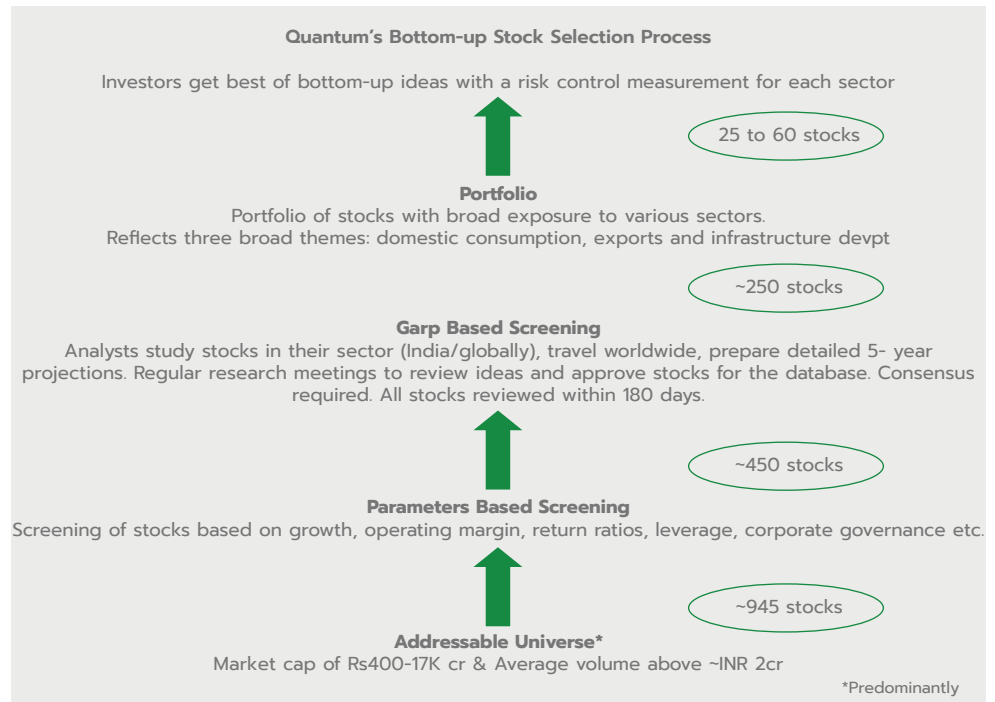

Investment Process

The investment process consists of:

1. Stock selection
2. Portfolio construction

1. Stock Selection

The AMC's stock selection approach is basically bottom up and is depicted below:

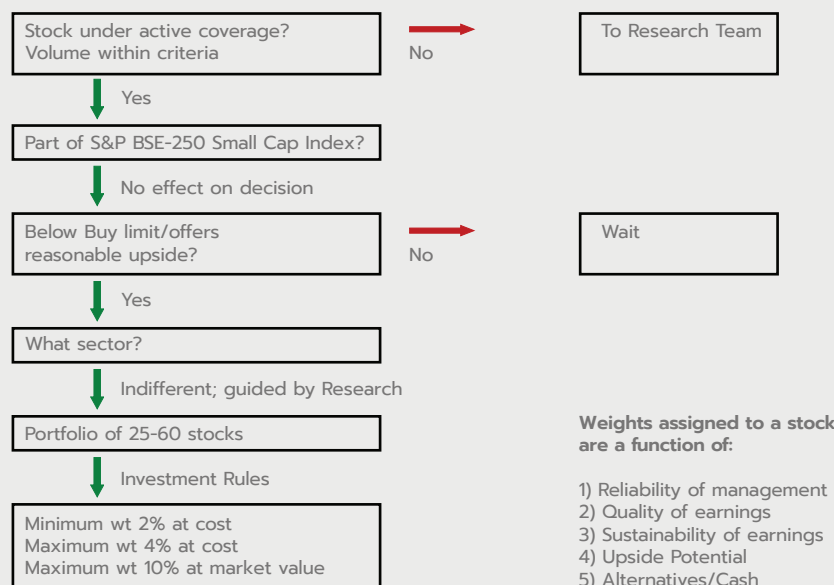

Analysts study stocks in their sector in India with global comparisons wherever necessary. The core universe is generally the Small Cap universe with starts from the 251st stock when sorted by market cap and will have flexibility to include stocks above it as well as new issues from time to time. Research includes visit notes, financial models, and investment thesis, supplemented with broker research.

- b. Portfolio of stocks with broad exposure to various sectors. Investors get best of bottom-up ideas with a risk control measurement for each sector (generally consists of 25 – 60 stocks).

2. PORTFOLIO CONSTRUCTION

- a) Stock has to be under active and current coverage.
- b) Every stock in the AMC's database has a pre – assigned Buy / Sell Limit. This is an INR price based on underlying fundamental sector criteria.
- c) The AMC generally buys a new stock at the pre-determined Buy price and generally sells an existing stock at the pre-determined Sell price or above. It may also buy / add to a stock at a price that is different to its buy price depending on the relative attractiveness of stock considering factors like upside potential and other investment merits. The Scheme could also sell a stock below its sell price if there are visible risks to the target price or any management concerns or if other opportunities are more attractive.
- d) The AMC has adopted Tier -1 Benchmark – S&P BSE 250 Small Cap TRI which demonstrate the Investment Style / Strategy of the AMC. The AMC is indifferent to whether a stock, the Scheme owns, is in the S&P BSE 250 Small Cap TRI or not although it recognizes its effect on liquidity.
- e) The AMC does not make sector calls. It follows a bottom up stock selection.
- f) The AMC's portfolio management style is conducive to a low portfolio turnover rate. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The Fund Manager will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it.
- g) The Scheme has no specific target relating to portfolio turnover.

Portfolio Construction

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Risks associated with investments in Equity and Equity related instruments.

- Equity instruments carry both company specific and market risks and hence no assurance of returns can be made for these investments. The investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices market movements, and over longer periods during market downturns.

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

- Market Risk:** Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis. Hence, the value of the Equity and Equity Related investments may go down and an investor may not get back the amount invested.
- Liquidity Risk:** The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio.
- Foreign Exchange Risk:** The businesses that we might invest in might have significant reliance on imports and/or exports, which can increase their vulnerability to sharp fluctuations in Foreign Exchange rates.
- Corporate Governance Risk:** We avoid investing in companies with inferior corporate governance. However, post our investment if poor corporate governance were to manifest in any way such as siphoning of cash, unethical business practices, manipulation of share price, etc. then it can impact the value of our investment.
- Legislative Risk:** The value and marketability of the Company's investments may be affected by changes or developments in the legal and regulatory climate in India. Changes in law/government policies, taxation, etc. can have an adverse or a favorable impact on the underlying investments.
- Geopolitical Risks:** Geopolitical tensions between India and any of its neighboring countries can disrupt the economic growth. Subsequently, this might have a non-linear impact on the business that the Scheme has invested in and their valuations.

For details on risk factors and risk mitigation measures, please refer SID.

15. FATCA and CRS Details

FATCA is a tax reporting regime that obligates all financial institutions to report information to the relevant tax authorities about U.S reportable persons and certain entities in which U.S. persons hold a substantial ownership interest. India signed the Inter-Governmental Agreement (IGA) with the U.S. on July 9, 2015.

CRS is the OECD' & G-20's Model Competent Authority Agreement for multilateral tax information sharing. It enables automatic exchange of tax information based on the Standard through bilateral tax treaty networks. India signed the CRS Agreement on June 3, 2015. The Central Board of Direct Taxes has notified Rules 114F to 114H, as part of the Income-tax Rules, 1962, which requires Indian financial institutions to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our account holders. In relevant cases, information will have to be reported to tax authorities/ appointed agencies. For meeting compliance requirements, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. If there is any change in the information provided, kindly intimate the same to us within 30 days.

Instructions on Controlling Persons / Ultimate Beneficial Owner

As per PMLA guidelines and relevant SEBI circulars issued from time to time, non-individuals and trusts are required to provide details of controlling persons [CP] / ultimate beneficiary owner [UBO] and submit appropriate proof of identity of such CPs/ UBOs. The beneficial owner has been defined in the circular as the natural person or persons, who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted and includes a person who exercises ultimate effective control over a legal person or arrangement.

A. For Investors other than individuals or trusts:

(i) The identity of the natural person, who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest. Controlling ownership interest means ownership of/entitlement to:

- more than 10% of shares or capital or profits of the juridical person, where the juridical person is a company.
- more than 15% of the capital or profits of the juridical person, where the juridical person is a partnership.
- more than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.

(ii) In cases where there exists doubt under clause (i) above as to whether the person with the controlling ownership interest is the beneficial owner or where no natural person exerts control through ownership interests, the identity of the natural person exercising control over the juridical person through other means like through voting rights, agreement, arrangements or in any other manner.

(iii) Where no natural person is identified under clauses (i) or (ii) above, the identity of the relevant natural person who holds the position of senior managing official.

B. For Investors which is a trust:

The identity of the settler of the trust, the trustee, the protector, the beneficiaries with 10% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

C. Exemption in case of listed companies / foreign investors

The client or the owner of the controlling interest is a company listed on a stock exchange or is a majority-owned subsidiary of such a company, there is no need for identification and verification of the identity of any shareholder or beneficial owner of such companies and hence exempted from UBO declaration provided other requisite information is provided. Intermediaries dealing with foreign investors' viz., Foreign Institutional Investors, Sub Accounts and Qualified Foreign Investors, may be guided by the clarifications issued vide SEBI circular CIR/MIRSD/11/2012 dated September 5, 2012 and other circulars issued from time to time, for the purpose of identification of beneficial ownership of the client.

D. KYC requirements

Beneficial Owner(s) / Senior Managing Official (SMO) is/are required to comply with the prescribed KYC process as stipulated by SEBI from time to time with any one of the KRA & submit the same to AMC. KYC acknowledgement proof is to be submitted for all the UBO(s) / SMO(s).

Sample Illustrations for ascertaining beneficial ownership:

Illustration No. 1 – Company A

For Applicant A, Individual 4 is considered as UBO as it holds effective ownership of 33% in Company A. Hence details of Individual 4 must be provided with KYC proof, Shareholding pattern of Company A, Z & Y to be provided along with details of persons of Company Y who are senior managing officials and those exercising control.

Illustration No. 2 – Partner ABC

For Partnership Firm ABC, Partners 1, 2 and 5 are considered as UBO as each of them holds $\geq 15\%$ of capital. KYC proof of these partners needs to be submitted including shareholding

Illustration No. 3 – Trustee ZYX

For Trust ZYX, Beneficiaries A, B and C are considered as UBO as they are entitled to get benefitted for $>10\%$ of funds used. KYC proof for these beneficiaries needs to be submitted. Additionally, if they have nominated any person or group of persons as Settlor of Trust / Protector of Trust, relevant information to be provided along with the proof indicated.
