Investment Strategy	<p>The primary investment objective of the Scheme is to provide optimal returns with low to moderate levels of risk and high liquidity through judicious investments in money market and debt instruments.</p> <p>The fund management team would endeavor to maintain consistent performance in the Scheme by balancing yields and safety as well as maintaining high liquidity.</p> <p>Various risks carried by debt investments such as Interest Rate Risk, Liquidity Risk, Default Risk, etc. cannot be eliminated, but can be minimized by diversification and hedging.</p> <p>The fund management team has a Dynamic Model in place to balance and minimize the various risks in the debt markets.</p> <p>The fund management team would actively track the local interest rate markets as well as the developments in global markets and accordingly rebalance the portfolio of the Scheme.</p> <p>The investment objective would be achieved in the following order of priority:</p> <ul style="list-style-type: none"><li>• Legality &amp; compliance – Ensuring that the portfolio is at all times completely compliant with all rules and regulations – internal and external.</li><li>• Portfolio Liquidity – Ensuring that the Portfolio can be liquidated at minimal impact cost to the investors.</li><li>• Capital Preservation – Ensuring that the investments are made in a manner to minimize market risks and choosing securities which have low default/downgrade risk.</li><li>• Yield and Return Enhancement – After meeting the above objectives, the rigorous and in-depth research and analysis of the macro economic situation and fixed income markets should provide for timely investment opportunities which enhance the total returns for an investor – on a risk adjusted basis.</li></ul> <p>The overall Investment strategy revolves around the process laid down to achieve the Investment Objectives as investors in a Liquid Fund seek optimal deployment of their surplus funds. Although the investment pattern for the scheme is for short term instruments, the research and analysis on the macro economy situation is carried out for short term as well as for a more structural and longer term horizon – so as to ensure that the portfolio investments are well positioned for all eventual and likely scenarios.</p> <p>Thus this dynamic combination of a rigorous top down macro economy and fixed income research and emphasis on Portfolio liquidity and capital preservation is expected to offer risk adjusted returns.</p>								
Risk Profile of the Scheme	<p>Mutual Fund Units are subject to market risks. Please read the Scheme Information Document carefully for details on risk factors and other details before investment. Scheme specific Risk Factors are summarized below:</p> <p><b>Interest Rate Risk/Market Risk:</b> Changes in interest rate may affect the Scheme's net asset value. Generally the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p> <p><b>Credit Risk or Default Risk:</b> Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to</p>								

compensated for the increased risk.

**Liquidity Risks:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.

## Risk Management Strategies

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations.

The Fund has identified the following Risks and designed Risk Management Strategies which is the part of the Investment Process to manage such risks.

Type of Risks	Risk Mitigation / Risk Management Strategies
Interest Rate Risk	Measured through Average Maturity Duration / Portfolio Sensitivity to interest rate changes (PV01). The investment is made only in shorter tenor instruments (< 91 days) and has low duration and is thus exposed to lower market risks.
Credit and Default Risk	Measured through Portfolio credit quality. The Scheme is mandated to invest a minimum of up to 80% in instruments with the highest credit rating as given by a SEBI registered credit rating agency which helps maintain good portfolio quality.
Liquidity Risk	Measured through Trading Data / Portfolio Liquidity Report. The Scheme caps the illiquid assets as a % of portfolio to ensure that the fund remains liquid to meet redemptions.
Mismatch Risk / ALM (Asset Liability mismatch) Risk (Investor horizon and asset maturity mismatch)	Measured through ALM Report.  By mandate, the scheme holds minimum 20% of Net assets in 'liquid assets' like cash, Treps, government securities.  The Fund has a well laid down ALM and Liquidity Risk Management policy which ensures that the portfolio holds sufficient liquid assets to meet potential redemption at any given point of time.

## TERMS & CONDITIONS

### Systematic Transfer Plan (STP)

This facility allows Unitholders to transfer specified fixed sums on periodic basis from one scheme to other schemes launched by the Mutual Fund from time to time by giving a single instruction. A Unitholder may effect a Systematic Transfer Plan (STP) by redeeming units of the transfer-out (transferor) Scheme at the prevailing NAV, subject to Exit Load, if any and investing the same amount in the transfer-in (transferee) scheme at prevailing NAV of the transfer-in Scheme. To seamlessly facilitate STP between two Schemes of the Mutual Fund, the Unitholder must comply with the redemption requirements of the transferor scheme and subscription requirements of the transferee scheme.

#### STP facility is offered subject to following terms & conditions:

- STP facility is offered with daily - all business days, weekly - 7, 15, 21, 28, fortnightly - 5 & 21 or 7 & 25 monthly and quarterly - 5, 7, 15, 21, 25, 28 of the month under monthly/1st month of each quarter under quarterly frequency.
- In case the frequency is not specified, it will be considered as application for monthly frequency and will be processed accordingly. In case the STP date is not specified or in case of ambiguity, the STP transaction will be processed for fortnightly 5&21 and on 15th of month/quarter. In case the end date is not specified, the Fund would continue the STP till it receives termination notice from the Unitholder.
- Minimum balance in the source (transferor) Scheme should be Rs.5,000/- at the time of enrolment for STP.
- Minimum amount for each transfer: Rs.100/- for daily, Rs 500 for weekly, fortnight, monthly and quarterly frequency. Any STP over and above the minimum amounts mentioned above shall be in multiples of Re.1 thereafter.
- Minimum term/duration: For daily 132, Weekly 25, fortnight 13, Monthly 6 and quarterly 4 Minimum Instalments.
- In case the Unitholder purchases additional units in the transferor scheme, the STP facility would be extended to such additional units also.
- Units marked under lien or pledge in the source Scheme will not be eligible for STP.
- The Unitholder who has opted for STP under a specific scheme can also redeem or switch his units to any other eligible scheme provided he has sufficient balance in his account on the date of such a request.
- In case the unit balance in the transferor scheme is lesser than amount specified by the Unitholders for STP, the AMC will transfer remaining unit balance to transferee scheme.
- The facility will be automatically terminated if the units under the transferor scheme are pledged or upon receipt of intimation of death of the Unitholder.
- The application for start of STP should be submitted to Official Point(s) of Acceptance at least 10 business days before the date of commencement/start date of STP. Unitholder may change the amount/frequency by giving written notice to any of the Official Point(s) of Acceptance at least 10 business days prior to next transfer/STP execution date.
- Unitholder can discontinue STP facility at any time by sending a written notice to any of the Official Point(s) of Acceptance, at least 10 business days prior to next transfer/STP execution date.
- If STP date is a Non-Business Day, then the next Business Day shall be the STP date and the same will be considered for the purpose of determining the applicability of NAV.
- STP will be terminated automatically in case of a Zero balance in the respective Scheme-Folio on the run-date or expiry of the enrolment period whichever is earlier.
