Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of 30 Business Days rebalancing period.

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMCs shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not to levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme:

1. AMCs shall immediately disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. AMCs shall also immediately communicate to investors through SMS and email / letter when the portfolio is rebalanced.

AMCs shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

B. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations and the disclosures as made under the Section “HOW WILL THE SCHEME ALLOCATE ITS ASSETS?”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities / instruments:

- (a) Equity & Equity Related Instruments of Companies identified based on ESG theme following Best In Class Strategy
- (b) Money market instruments and Liquid Schemes of Mutual Fund
- (d) Any other Securities / asset class / instruments as permitted under SEBI Regulations in line with the Investment Objective of the Scheme subject to regulatory approval, if any required.

C. WHAT ARE THE INVESTMENT STRATEGIES?

Investment Philosophy/Strategy

India has embarked upon a national level cleanliness movement- “Swachh Bharat Abhiyan”. The aim was to clean length and breadth of country, provide cleaner natural resources, improve hygiene and health and contribute towards achieving the sustainable development goal established by the United Nations in 2015.

Supporting the mass movement for cleanliness and sustainability, Quantum ESG Best In Class Strategy Fund is a step towards ensuring that investments flow into greener and cleaner business. The focus of this scheme would be on investing in businesses, which are ensuring sustainable management of natural and human resources, diversity within the organizational structure, prudent management and socially responsible framework of business. The aim of this scheme is to provide the investors an opportunity to have an exposure to sustainable investment option.

The sustainability objectives of the ESG Strategy to achieving positive and above-average ESG profile, mitigating ESG risks and harnessing ESG opportunities, and influencing overall positive behavior by investing in companies that promote sustainable products and services.

The investment strategy determines sector weightages to reflect that of broad well diversified indices for the Indian equity markets. Further, the strategy aims to invest in companies within each sector that stand high on the Environmental, Social and Governance parameters assessed through Quantum Best In Class Strategy.

The investment strategy of the Scheme will be to invest in a basket of stocks after intensive analysis on the environmental, social and governance aspects of the company. The aim is to follow a comprehensive ‘ESG Framework’ in order to develop deeper understanding into a company’s management practices, sustainable businesses and risk profile, which would thereby help us in understanding the impact on long-term sustainability that drives performance.

The primary focus of the Scheme will be on companies based on two criteria. First is for selecting companies under coverage and second is for selecting companies in the portfolio. The first criteria are selecting companies generally trading with liquidity of minimum US \$ 1 million on an average over the last 12 months and second criteria based on their ESG score.

Each security, which is filtered on the basis of first criteria, will be scored on ESG parameters using data sources such as sustainability reports (GRI Framework), Business Responsibility Reports (BRR) and other publicly available documents. Active weights of a security within their respective sector will be determined by a

composite Best in Class ESG score. A higher ESG score of a security within the sector will have higher relative weight and vice versa. The selection process ensures eliminating exposure to companies that rank poorly on ESG criteria completely. The sum total of the weights of securities in a sector will equal to track sector weights of broad well-diversified indices subject to companies meeting our threshold Best in Class ESG score. The allocations focus on governance and sustainability; hence will be agnostic to valuations.

The investment strategy is broadly a combination of the following Best In Class ESG approach:

- The Fund uses a best-in-class screening strategy for the companies assessed based on proprietary framework on ESG metrics which generally covers more than 200 parameters which are material to the company's ESG performance. The companies meeting a threshold ESG score is considered for inclusion in the portfolio.
- The metric tracked by the fund to determine the best in class performance of investee companies is an aggregate ESG score determined through a materiality based assessment of companies E,S and G factors. Within each of the pillars there are certain materiality driven metric that would determine companies performance on each of the pillars. However, the factors chosen or its assessment may change based on the sector or its materiality to companies operations. Examples of various metrics tracked under each pillar of ESG are given here: Emissions, carbon footprint, renewable energy mix, etc. under Environment, gender diversity, gender pay parity, human rights, etc. under Social and board composition and diversity, CSR spending, data privacy, etc. under Governance. This is not an exhaustive list but examples to provide understanding of metrics under each E,S,G factor.
- The strategy would tend to exclude companies in the sectors like Alcohol, Gambling and Tobacco. While the ESG factors determine the quality and sustainability of potential investee companies, it would also scan for financial soundness of companies to ascertain its viability as a good investment. Along with material factors, financial filter including long term return on capital employed, leverage and growth rates are analysed to ensure the financial soundness and operational longevity of the company.
- The composite ESG score meeting our internal threshold assigned to the company on the basis of best-in-class ESG strategy is the one that broadly determines portfolio selection and corresponding weight is assigned to the company based on relative scores of companies within the respective sector, subject to investment guardrails.

The contribution to 'positive environmental change', an investor might reasonably expect:

- The Scheme fund invests in companies that meet Quantum ESG criteria and has a positive Best In Class ESG score which means the company stands relatively better as compared to other companies in their sectors on their ESG performance. While evaluating companies, the Team assess if the company has gone beyond their traditional remit and have made conscious effort to recognize the environment and society as important stake holders and have achieved a reasonable progress on their environmental footprint and social recognition and contribution. The Team also looks for companies' efforts in adapting and mitigating climate change and thereby reducing the carbon footprint, improving the resource efficiency, water usage and waste reduction and disposal. Similarly, on the social aspects, companies should work towards being more equitable, encourage diversity, positively contribute towards the society through judicious use of

CSR, encouraging worker representation and health & safety at workplace, upholding best standards for data privacy and cyber security.

- The Team do not only measure these aspects through the ESG framework but monitor and engage companies to become better at their ESG performance. One can reasonably expect a gradual improvement and many of these material ESG measures impacting the companies' operations.

Decision-making process for Investing:

- Decision-making process for investing is based on the use of proprietary Best in Class ESG scoring methodology. The broad comparisons made by the analysts of various companies within the sector and also taking clues from global companies evolution provides great insights into any ambiguous claims made by the company being researched. The Research is not restricted. We do not restrict our research to self-declared company disclosures. We try to do a 360-degree company check by talking to various stakeholders like suppliers, vendors, customers, channel checks, employees, etc. to get more information to get a granular understanding of the true state of the company's affairs. We also try to get the information is also obtained from unorthodox sources like pollution control boards, NGOs, local communities in our bid to gather more information to try and verify the sustainability claims made by the company.

Investment Portfolio

- The Scheme's investment portfolio typically will consist of investments made in shares of Indian companies listed on a stock exchange in India identified based on the Best In Class ESG Strategy. The Scheme will invest primarily in equity securities of Indian issuers listed on an Indian stock exchange.
- While the majority of the assets will be invested in the securities of Indian companies, the Scheme may also invest in money market instruments or in units of liquid schemes under the Quantum AMC or any other Mutual Fund, subject to the applicable SEBI Regulation limits, for brief periods of time pending investment in equities or other securities more generally associated with the Scheme's portfolio. The Scheme shall endeavor to have a higher proportion of the assets under the Best In Class ESG Strategy.

Generally speaking, the portfolio will tend to include shares of all companies above a particular threshold Best In Class ESG composite score derived as a result of a thorough analysis of Best In Class Strategy assessing the Environment, Social and Governance factors relevant to the company and the sector in which it operates.

INVESTMENT PROCESS AND RECORDING OF INVESTMENT DECISIONS

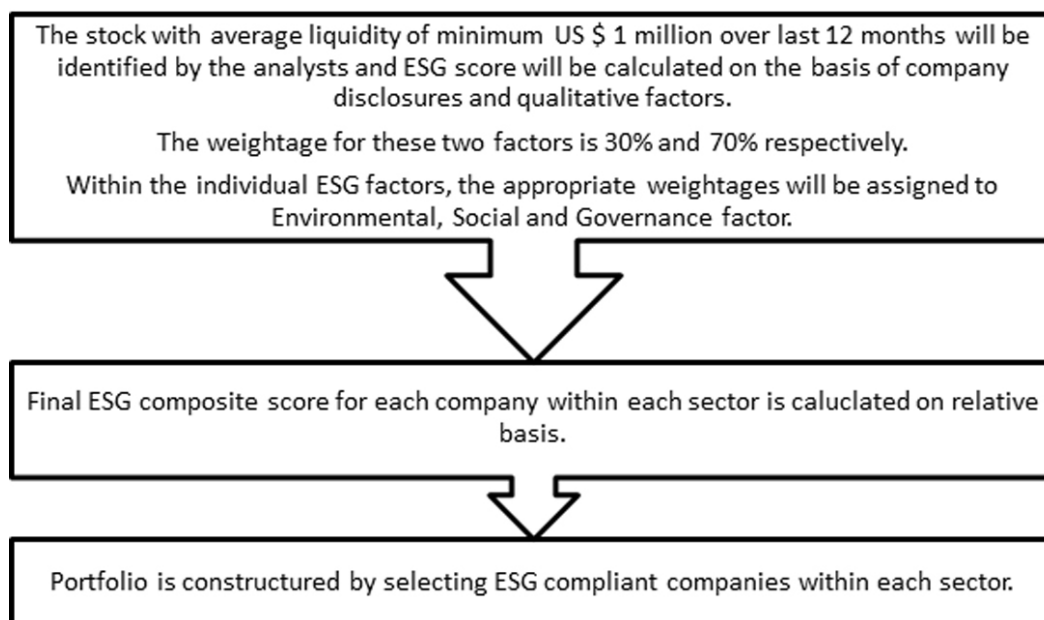

INVESTMENT PROCESS

The investment process consists of:

- Benchmarking Sector weights to that of broad well diversified indices in the Indian equity markets
- Stock selection
- Portfolio Construction

STOCK SELECTION

The AMC's stock selection approach is basically based on Best In Class ESG scores subject to them meeting our internal threshold.

PORTFOLIO CONSTRUCTION

The stock should generally have an average liquidity of minimum US\$ 1 million over last 12 months.

Every Stock with Best In Class ESG composite score equal to or above the threshold ESG score will be part of the portfolio.

The AMC would generally not try to time the market and will add stocks that meet the Best In Class ESG criteria on set rebalancing dates. Every stock in portfolio will be bought and sold on the basis of weights allotted to it and will be value agnostic.

The AMC will set sector weights for the portfolio in accordance with sector weights of a broad well diversified India equity Index.

In case, there are no stocks with ESG score greater than or equal to the set threshold Best In Class ESG composite score in a particular sector, the weightage of that sector is redistributed on a relative basis among other sectors, where the stocks meet the Best In Class ESG criteria. Consequently, the weightages of individual stocks qualifying for the Best In Class ESG criteria within those sectors will also change accordingly.

The AMC will periodically review and if necessary, rebalance the portfolio typically coinciding with rebalancing of the underlying indices and / or quarterly. The AMC will also seek to periodically rebalance the portfolio on account of a new addition of stock, company specific events and in case of change in the view of the sector or the company.

PROCEDURE AND RECORDING OF INVESTMENT DECISIONS:

The investment decisions for the scheme will be carried out by the designated fund manager.

The Chief Executive Officer is not involved in the investment decision making process.

Record of all investment decisions will be maintained with justifications for the same as required under the regulations.

It is the responsibility of the AMC to ensure that the investments are made as per the Internal / Regulatory guidelines, Scheme's investment objective and in the best interest of the Unit holders of the Scheme.

All investment decisions shall be recorded pursuant to para-No 12.23 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, or as may be revised by SEBI from time to time.

PERFORMANCE MEASUREMENT AND REPORTING

The Investment Committee of the AMC at its regular meeting shall review performance of the Scheme, compliance of the various investment restrictions and compliance with the investment objectives stipulated in the Scheme Information Document and all other applicable SEBI Regulations. The AMC and Trustees shall also review the performance of the scheme at their periodical Board Meetings. The performance would be compared with the performance of the Benchmark and with peer group in the industry.

The CEO/Fund Manager will make presentations to the Board of the AMC and the Trustees periodically, indicating the performance of the Scheme. The Board of AMC and Trustee will review the performance of the Scheme in comparison to the benchmark.

The CEO / Fund Manager will bring to the notice of the AMC Board, specific factors if any, which are impacting the performance of the Scheme. The Board on consideration of all relevant factors may, if necessary, give appropriate directions to the AMC. Similarly, the performance of the Scheme will be submitted to the Trustees. The CEO / Fund Manager will explain to the Trustees, the details on the Schemes' performance vis-à-vis the benchmark returns. The Trustees and the AMC Board may also review the performance of the schemes vis-à-vis the benchmark and may take corrective action in case of unsatisfactory performance.

Portfolio Turnover Policy:

The Scheme adopts a long-term approach to investing, typical holding period has been 3 to 5 year's guided by relative Best in Class ESG scores, financial checks and investment guardrails. This long term approach to owning quality stocks could result in an average portfolio turnover of between 20% and 50% subject to relative performance of portfolio holdings. For several of the stocks in the portfolio, the holding period has been greater than 3 years, resulting in lower turnover. Depending on relative and absolute ESG and Financial performance of the portfolio companies, the Portfolio Turnover Ratio can change for the coming year as both the parameters could undergo changes.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Tier I benchmark - NIFTY100 ESG TRI

The benchmark is representative of Fund's Investment Objectives and Asset allocation and most suited for comparison for performance of the scheme.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the Investment Objective & Asset Allocation of the Scheme and the appropriateness of the benchmark.

The Investment includes investments made under Alignment of Interest by Designated Employees in terms of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024

For investments by key personnel and AMC directors including regulatory provisions in this regard kindly refer the SAI.

vi. INVESTMENTS OF AMC IN THE SCHEME

The AMC may invest in the Scheme at any time during the continuous offer period subject to the SEBI Regulations & circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the Scheme.

Further, the AMC shall, based on the risk value assigned to the scheme, invest minimum amount as a percentage of assets under management of the scheme, pursuant to para-No. 6.9.2 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. For details of such investments please refer the link: <https://www.quantumamc.com/downloads/AMC-Investment-in-schemes-of-Quantum-MF.pdf>

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit will be computed by dividing the net assets of the Scheme/Plan/Option by the number of units outstanding under the Scheme/Plan/Option on the valuation date.

The Net Assets Value (NAV) per unit under the Scheme/Plan/Option shall be calculated as follows:

$$\text{NAV (₹)} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including accrued income} - \text{Current Liabilities and Provisions including accrued expenses}}{\text{No. of Units outstanding under Scheme/Plan/Option}}$$

The numerical illustration of the above method is provided below:

Market or Fair Value of Scheme's investments (Rs.) = 10,00,000

Current Assets (Rs.) = 1,00,000

Current Liabilities and Provisions (Rs.) = 50,000

No. of Units outstanding under the Scheme = 1,00,000

$$\text{NAV per unit (Rs.)} = \frac{10,00,000 + 1,00,000 - 50,000}{1,00,000} = \frac{10,50,000}{1,00,000} = 10.50$$

The NAV will be calculated and announced as of the close of every Business Day by 11.00 p.m. The repurchase price shall not be lower than 95% of the NAV subject to SEBI regulation as amended from time to time. For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

Sale (Subscription) and Repurchase (Redemption) Price Illustration:

Assumed NAV Rs.11.00 Per Unit, Entry Load – Nil, Exit Load – 1%

Sale Price = NAV + (Entry Load (%) (if any) * NAV)

Sale Price = 11 + (0% * 11)

Sale Price = 11 + 0

Sale Price = Rs.11/-

Repurchase Price = NAV – (Exit Load (%) * NAV)

Repurchase Price = 11 – (1% * 11)

Repurchase Price = 11 – 0.11

Repurchase Price = Rs.10.89

B. NEW FUND OFFER (NFO) EXPENSES

This section does not apply to the Scheme covered in this SID, as the ongoing offer of the Scheme has commenced after the NFO and the Units are available for continuous subscription and redemption.

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the scheme. These expenses include, Registrar and Transfer Agent fee, marketing and selling costs, custody fees etc.

The estimated recurring expenses of the Scheme are as under:

Expense Head	% of daily Net Assets

Maximum total expense ratio (TER) permissible under Regulation 52 (6) (C)	Up to 2.25%
Additional expenses for gross new inflows from specified cities under Regulation 52 (6A) (b)	NIL
Additional expenses under regulation 52 (6A) (c)	NIL

*as permitted under the Regulations.

^Investor Education and Awareness initiatives.

Pursuant to para-No. 10.1.16 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 the AMC shall annually set apart at least 2 basis points p.a. (i.e. 0.02% p.a.) on daily net assets of the Scheme within the limits of total expenses prescribed under Regulation 52 of SEBI (MF) Regulations for investor education and awareness initiatives undertaken by the Fund.

The Total Expense Ratio of Direct Plan will be lower to the extent of the distribution expenses / commission which is charged to the Regular Plan.

Goods & Service Tax (GST) / Statutory Levies if any, on Investment Management and Advisory Fees will be charged as permitted under the SEBI Regulations.

Brokerage and transaction cost incurred for the purpose of execution of trade will be expensed out in the scheme to the extent of 0.12% for cash market transactions. Brokerage and transaction costs exceeding of 0.12% for cash market transactions if any may be charged to the scheme within the maximum limit of TER as prescribed under regulation 52 of the Regulations.

The AMC has estimated that the above expense will be charged to the Scheme as permitted under Regulation 52 of SEBI (Mutual Funds) Regulations, 1996. The Fund will disclose the Total Expense Ratio (TER) of the Scheme on a daily basis on the website of the AMC (www.QuantumAMC.com) and of AMFI (www.amfiindia.com). Any change in the base TER charged to any scheme/plan will be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change. Investors can refer the aforesaid notice on the AMC website at the link: <https://www.quantumamc.com/total-expense-ratio>.

As per Regulation 52(6)(c) of SEBI (MF) Regulations, the total expenses of the Scheme, including Investment Management and Advisory Fees shall be subject to following limits as specified below:

Asset Under Management Slab	Total Expense Ratio % limits
On the first Rs.500 Crores of the daily net assets	2.25
On the next Rs.250 Crores of the daily net assets	2.00
On the next Rs.1,250 Crores of the daily net assets	1.75
On the next Rs.3,000 Crores of the daily net assets	1.60
On the next Rs.5,000 Crores of the daily net assets	1.50
On the next Rs.40,000 Crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs.5,000 Crores of daily net assets or part thereof
On balance of the assets	1.05

The maximum recurring expenses of the Scheme, including the investment management and advisory fee, together with additional expenses if any, shall not exceed the limits prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations 1996 read with the SEBI Master circular dated June 27, 2024.

ILLUSTRATION OF IMPACT OF EXPENSE RATIO ON SCHEME'S RETURN:

Particular	Regular Plan	Direct Plan
Opening NAV at the beginning of the year (Rs.) (a)	100	100
Closing NAV before charging expense at the end of the year (b)	112	112
Scheme's gross returns for the year	12%	12%
Expense Charged during the year (other than Distribution Expenses/ Commission) (Rs.) (c)	1	1
Distribution Expenses/ Commission charged during the year (Rs.) (d)	0.15	0
NAV after charging expense (b-c-d)	110.85	111
Net Return to the Investor	10.85%	11%

The purpose of the above illustration is to explain the impact of expense ratio of the scheme. Above calculations are based on assumed NAV and Expenses. The actual NAV, expenses and return on your investment may be more or less.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units for the scheme. Load amount are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC www.QuantumAMC.com or may call at toll free no. (1800-22-3863 /1800-209-3863) or your distributor.

Particular	Load chargeable (as % of NAV)
Exit Load/ Switch Out Load:	
10% of units If redeemed or switched out on or before 365 days from the date of allotment.	NIL
Remaining 90% of units if redeemed or switched out on or before 365 days from the date of allotment.	1
If redeemed or switched out after 365 days from the date of allotment.	NIL

Redemptions / Switch outs of units will be done on First In First Out (FIFO) basis. The above-mentioned load structure shall be equally applicable to the special facilities such as Systematic Withdrawal Plan (SWP) / Systematic Transfer Plan (STP) and Switches etc. However, no load shall be charged for switching between option / plan within the Scheme.

I. Introduction

A. Definitions/interpretation

Please refer the link: https://www.quantumamc.com/FileCDN/Pdf/Combined_definitions_&interpretations.pdf

B. Risk Factors:

Scheme Specific Risk Factors:

Greenwashing:

- Greenwashing is the process of conveying a false impression or providing misleading information about how a company's business/products/services are more environmentally sound. The Team is well aware that there are many "greenwashing" incentives for companies from brand building to attracting investment flows. It is our fiduciary duty as custodians of investor capital to navigate any greenwashing attempts and endeavor to deliver investors true sustainability geared portfolio.
- ESG Audits are not yet popular in India. Therefore, companies may provide different baselines, scopes and boundaries of disclosures which make comparisons difficult. In such exceptional circumstances, the Fund may not be able to detect such practices and may buy/continue to hold such companies as part of the portfolio.

Risk of divergence in third-party rating providers' and Quantum MF's view on ESG scores/controversies etc:

The companies under ESG coverage of Quantum MF are assessed based on Quantum's Best in Class proprietary ESG framework. There is a high likelihood that the assessment provided by the third party provider and Quantum's Best in Class proprietary assessment differs materially. For instance, the depth of engagement with company, stakeholders, peers, third parties, vendors etc. would differ and that contributes to the overall ranking of the company. Therefore, it may happen that companies with low ESG score or stocks in excluded sectors as per Quantum's Best In Class assessment may go up in value and that may lead to lag in returns of the fund as compared to the market returns.

Liquidity risk

- Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to its inability to liquidate the cash equivalents in time could cause the Scheme to miss certain investment opportunities resulting, at times, in potential losses to the Scheme.

Equity and equity-related risk

- The Mutual Fund is not guaranteeing or assuring any returns. The trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. In the event investments are made in unlisted securities, the ability to liquidate such investments would be further limited. Along with liquidity risk, the NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.

Price risk

- The inclusion or exclusion of security depends entirely on the comprehensive analysis of the company based on the Environmental, Social and Governance criteria. Hence, the buying or selling of a security is independent of valuations. Therefore, the price risk is comparatively higher.

Allocation risk

- In the scheme, the portfolio allocations (or weights) are done on two levels: one on sector level and second at security level. The sectoral allocations in the Scheme will track the sectoral allocations of a broad well-diversified index to ensure portfolio diversification. The proportion of the scheme portfolio invested in each type of security within the sector will vary depending upon a comprehensive analysis of the company based on the Environmental, Social and Governance factors impacting the company and their peer group within its sector of operations. Therefore, the underlying security allocation may be under or overweight as compared to that in the broad well-diversified Index. There is a risk that the returns from the Scheme may not be exactly equivalent to the returns from the broad well-diversified Index.

Risks associated with stock lending:

- The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the Approved Intermediary, to comply with the terms of agreement entered into between the lender of securities i.e., the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the Approved Intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the Approved Intermediary.
- It may be noted that stock lending activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the Scheme will not be able to sell such lent-out securities until they are returned.

Risk Factors Associated with Fixed Income and Money Market Instruments:

Credit risk

- The Scheme will hold funds in Money Market Instruments. These instruments are subject to credit risk, which is risk resulting from uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuer's ability to meet the obligations.

Interest Rate risk

- Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. The price of long-term securities fluctuate more in response to such interest rate changes than short-term securities. The volatility in the prices may lead to possible movements in the NAV.

Reinvestment risk

- The reinvestment risk arises from uncertainty in the rate at which cash flows from an investment may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received. These rates are subject to interest rate risk.

Liquidity risk

- In case of debt instruments, the ability of resell the instrument depends on the depth of the secondary market. The secondary market in India is still developing. This could be a factor limiting the liquidity of disposing off the instrument.

Performance risk

- Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme shall be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances. The Scheme will endeavor to invest in highly researched securities offering relative yield for the commensurate risks. However, the erosion in the value of the investments / portfolio in the case of the debt markets passing through a bearish phase is a distinct possibility.

Risk Associated with Investing in Liquid Schemes:

The Scheme may invest in Liquid Schemes of Mutual Funds for liquidity purpose, hence all the risk associated with the underlying liquid schemes, including performance of the underlying liquid schemes, Interest Rate Risk/Market Risk, Credit Risk or Default Risk, Liquidity and Settlement Risks, Re-investment Risk, Performance Risk etc., will therefore be applicable to the scheme. Any changes in the investment policy or the fundamental attributes of the underlying liquid schemes could affect the performance of the Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying liquid schemes.

C. Risk mitigation strategies

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations, 1996.

The Fund has identified the following Risks and designed Risk Management Strategies, which is the part of the Investment Process to manage such risks.

Type of Risks	Risk Management Strategies
Liquidity Risk	The Investments are made only in such stocks which has high trading volume in the market.
Quality Risk	Investment universe is selected based on ESG score and the scoring process takes into consideration the nature of industry, quality of business, history of company, management capabilities, promoter background, etc. Regular meetings are attended by analysts to be updated about the Company's information.
Price Risk	The investment process is valuation agnostic, but emphasis is on investing in sustainable business to drive long term performance.
Volatility Risk	External factors like liquidity flows, changes in the business environment, economic policy, corporate governance etc. contributed largely to the volatility. The scheme will manage volatility risk through diversification.

Concentration Risk	The concentration risk and volatility risk both are managed through diversification. The investments are made across various sectors to diversify and within the sector; there is a limit on the allocation to each stock at maximum 5% at cost and 10% at market value.
Allocation Risk	The emphasis is on investing in sustainable business which should do well over the long term. Also, the portfolio is well diversified at the sector level and considers allocation of a broad diversified index for investing. At the time of rebalancing of the portfolio, the sector weights are rebalanced to reflect the Index exposure. In case of changes in sectoral composition, a sector is included or excluded from the portfolio. In case of addition of new sector, the underlying stocks are added in proportion to their respective ESG score ensuring that the sum total of the weights of stocks in that sector will be equal to respective sector weight.
Corporate Actions	In case of corporate actions like merger, demerger or issue of QIP, the rebalancing of stocks shall be done on the next set date to maintain the sectoral weights and stock weight limit.
Volatility risk	External factors like liquidity flow, changes in the business environment, economic policy, corporate governance, etc. contributed largely to the volatility. The scheme will manage volatility risk through diversification.
Risks related to greenwashing	Greenwashing is the process of conveying a false impression or providing misleading information about how a company's business/products/services are more environmentally sound. The Team We are well aware that there are many "greenwashing" incentives for companies from brand building to attracting investment flows. It is our fiduciary duty as custodians of investor capital to navigate any greenwashing attempts and deliver investors true sustainability geared portfolio. The Team We understand that ESG is not a "tick the box" desk research. The Team We do not restrict our the research to self-declared company disclosures. The Team We try to do a 360-degree company check by talking to various stakeholders like suppliers, vendors, customers, channel checks, employees, etc. to get more information to get a granular understanding of the true state of the company's affairs. The Team We also try to get information from unorthodox sources like pollution control boards, NGOs, local communities in our bid to leave no stone unturned. There is also an attempt to verify the information with other available data and map with other companies in the sector and globally to identify any red flags.

II. Information about the scheme

A. Where will the scheme invest?

The Scheme will invest in Equity & Equity Related Instruments of Companies identified based on ESG theme following Best In Class Strategy, Money Market Instruments and Liquid Schemes of Mutual Funds.

Portfolio break-up with minimum and maximum asset allocation is mentioned under the heading “HOW WILL THE SCHEME ALLOCATE ITS ASSETS?”.

B. What are the investment restrictions?

Pursuant to the Regulations and amendments thereto, the following investment restrictions are applicable to the Scheme:

1. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transaction.
2. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.
3. Save as otherwise expressly provided under SEBI (MF) Regulations, the Mutual Fund shall not advance any loans for any purpose.
4. The Mutual Fund shall get the securities purchased/ transferred in the name of the Mutual Fund on account of the Scheme, wherever the investments are intended to be of a long - term nature.
5.
