### A. RISK FACTORS

#### Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price / Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Quantum Equity Fund of Funds (QEFOF) is the name of scheme. The name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns. Investors are therefore urged to study the terms of offer carefully and consult their Investment Advisor before they invest in the Scheme.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 1,00,000/- made by it towards setting up the Fund.
- The present scheme is not a guaranteed or an assured return scheme.

#### Scheme Specific Risk Factors

##### Risk Factors related to Equity Investments

1. The Scheme proposes to invest predominantly in the diversified equity schemes of Mutual Funds, registered with SEBI. Hence the scheme's performance will depend upon the performance of the underlying schemes. Any change in the investment policies or the fundamental attributes of the underlying schemes may affect the performance of the scheme.
2. Investments in underlying equity schemes will have all the risks associated with such schemes including performance of underlying stocks, derivative investments, off shore investments, stock lending, etc.
3. The investors of the Scheme shall bear the recurring expenses and loads if any of the Scheme in addition to the expenses & loads of the underlying schemes. Hence the investor under the Scheme may receive lower pre-tax returns than that they could have received if they had invested directly in the underlying schemes in the same proportions.
4. The Portfolio disclosure of the Scheme will be limited to providing the particulars of the underlying schemes where the Scheme has invested and will not include the investments made by the underlying schemes.
5. The changes in asset allocation may result in higher transaction costs.
6. The Portfolio of the Scheme will normally be comprised of schemes from the recommended list. Though adequate care will be taken to ensure that the methodology adopted by the Designated Agency is proper, there may be any analytical error (like assigning over weightage or under weightage to various risk - return parameters), execution error etc. by the Designated Agency, which may result in the suboptimal performance of the Scheme.

7. Since the Scheme proposes to invest at least in 5 underlying schemes, the significant underperformance in even one of the underlying schemes may adversely affect the performance of the Scheme.

## **B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME**

The Scheme / Plan(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme / Plan(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.
