A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risk such as trading volumes, settlement risk, and liquidity risk, default risk including the possible loss of principal.
- As the price/ value/interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price / Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee.
- Past performance of the Sponsor /AMC /Mutual Fund does not guarantee future performance of the Scheme.
- Quantum Nifty 50 ETF is the name of the Scheme. The name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns. Investors are therefore urged to study the terms of offer carefully and consult their Investment Advisor before they invest in the Scheme. Investors are therefore urged to study the terms of offer carefully and consult their Investment Advisor before they invest in the Scheme.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 1,00,000/- made by it towards setting up the fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, trading price, yield, total return and/or its ability to meet its objectives.

- The Scheme's NAV will react to the stock market movements. The investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices market movements, and over longer periods during market downturns.
- Although Q Nifty Units described in this Scheme Information Document is listed on the Stock Exchange, there can be no assurance that an active secondary market will develop or be maintained.
- Trading in Q Nifty Units on the Exchange may be halted because of market conditions or for reasons that in view of the Exchange Authorities or SEBI. In addition, trading in Q Nifty Units is subject to trading halts caused by extraordinary market volatility and pursuant to NSE and SEBI 'circuit filter' rules. There can be no assurance that the requirements of Exchange necessary to maintain the listing of Q Nifty Units will continue to be met or will remain unchanged.
- The units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of Scheme's holdings. The trading prices of Q Nifty Units will fluctuate in accordance with changes in their NAV as well as market supply and demand for Q Nifty Units. However, given that Q Nifty Units can be created and redeemed in Creation Unit Size directly with the fund, it is expected that large discounts or premiums to the NAV of Q Nifty Units will not sustain due to arbitrage possibility available.

- The market price of ETF units, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the unit (or NAV), and (2) demand and supply of units in the market. Sizeable demand or supply of the units in Exchange may lead to market price of the units to quote at premium or discount to NAV. Hence the price of Q Nifty units is less likely to hold significant variance (large premium or discount) from the latest declared NAV all the time.
- Any changes in trading regulations by the Stock Exchange/s or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV.
- The units will be issued only in dematerialized form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the mutual fund during liquidity window depend upon the confirmations to be received from depository(ies) on which the mutual fund has no control.
- Investors may note that even though this is an open-ended scheme, the scheme would only in case of authorized participants and eligible investors repurchase units and that too only in Creation Unit Size. Thus unit holdings less than the Creation Unit Size can only be sold through the secondary market on the exchange.
- The returns from the types of securities in which the Scheme invests may underperform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under performance in comparison of the general securities markets.
- Buying and selling units on stock exchange requires the investor to engage the services of a broker and are subject to payment of margins as required by the stock exchange/broker, payment of brokerage, securities transactions tax and such other costs.
- The Scheme is not actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

Risks attached with the use of derivatives

As and when the Schemes trade in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of derivatives requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Tracking Error Risk Factors such as the fees and expenses of the Scheme, Corporate Actions, Cash balance, changes to the Underlying Index and regulatory policies may affect AMC's ability to achieve close correlation with the Underlying Index of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the index and the NAV of the Scheme. Tracking Error may arise due to the following reasons: -

- a. Expenditure incurred by the fund.
- b. The fund may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or for corporate actions of securities in the index.
- c. Securities trading may halt temporarily due to circuit filters.
- d. Corporate actions such as debenture or warrant conversion, rights, merger, change in constituents etc.
- e. Rounding off quantity of shares underlying the index.
- f. Payout of Income Distribution cum Capital Withdrawal.
- g. NSEIL undertakes a periodical review of the scrips that comprise the Underlying Index and may either drop or include new scrips. In such an event, the Fund will try to reallocate its portfolio but the available investment / reinvestment opportunity may not permit absolute mirroring immediately.

Given the structure of Q Nifty Units, the AMC expects the tracking error to be lower.

The Securities lending activity by the Scheme will have the inherent probability of collateral value drastically falling in time of strong downward market trends or due to it being comprised of tainted/ forged securities, resulting in inadequate value of collateral until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and / or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Also, the risk could be in the form of non-availability of ready stock for sale during the period stock is lent.

The Scheme may use various Nifty 50 index related derivative products in an attempt to protect the value of portfolio and enhance the unit holder interest. As and when the Scheme trades in derivative market, there are risk factors and issues concerning the use of derivatives that the investors should understand. Derivative products are specialized instruments that require investment technique and risk analysis different from those associated with stocks. The use of derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivative requires the maintenance of adequate controls to monitor the transactions entered into, the ability to access the risk that a derivative adds to the portfolio and the ability to forecast price. There is a possibility that loss may be sustained by the portfolio as a result of the failure of another party (usually referred as the "Counter Party") to comply with the terms of the derivative contract. Other risks in using derivative include the risk of mis-pricing or improper valuation of derivative and the inability of derivative to correlate perfectly with underlying assets, rates and indices. Thus, derivatives are highly leveraged instruments. The risk of loss associated with future contracts is potentially unlimited due to the low margin deposits required and the extremely high degree of leverage involved in future pricing. As a result, a relatively small price movement in a futures contract may result in an immediate and substantial loss or gain. However, the Scheme will not use derivative instruments for speculative purposes or to leverage its net assets. There may be a cost attached to buying index futures or other derivative instrument. Further there could be an element of settlement risk, which could be different from the risk in settling physical shares. The possible lack of liquid secondary market for futures contract or listed option may result in inability to close futures or listed position prior to these maturity date.

The Scheme may also invest in overseas financial assets as currently permitted by the concerned regulatory authorities in India after obtaining necessary regulatory approvals. To the extent that the assets of the scheme are invested in securities denominated in foreign currencies, the Indian rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the value of respective foreign currencies relative to the Indian Rupee. The repatriation of Capital to India may also be hampered by changes in the regulations concerning exchange controls or political circumstances as well as the application to it of other restriction on investment.

Whereas the Indian Market was formerly restrictive a process of deregulation has been taking place over recent years. This process has involved removable trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in tax laws, Changes in SEBI/Stock Exchange/ RBI

regulations another applicable laws/ regulations could have an effect on such investments and valuation thereof, Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.

The Scheme proposes to invest up to 5% of its net assets in money market instruments. Trading volumes, settlement periods and transfer procedure may restrict the liquidity of such investments made by the scheme. Different segments of the Indian financial markets have different settlement periods and transfer procedures and such periods may be extended significantly by unforeseen circumstances leading to delays in receipts of proceeds from sale of securities. The inability of the Scheme to make intended investments due to its inability to liquidate cash equivalents in time could cause the Scheme to miss investment opportunities resulting, at times in potential losses to the Scheme.

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The AMC may choose to invest in securities to be listed.

Repurchase / Redemption by the unit holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise.

Common Risks Associated with Investments in Debt and Money Market Instruments

Given below are some of the common risks associated with investments in fixed income and money market securities. These risks include but are not restricted to:

Liquidity and Settlement Risks

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain debt and money market securities of certain companies, industries, sectors, etc. based on its investment objectives and policies as outlined in this Scheme Information Document. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or during restructuring of the Scheme's investment portfolio.

Investment Risks

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of debt and money market securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc. Different types of securities in which the Scheme would invest as stated in the Scheme Information document carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher amount of risk than Government securities. Further even amongst corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated. The Scheme will endeavour to invest in highly researched securities offering relative yield for the commensurate risks. However, the erosion in the value of the investments/portfolio in the case of the capital and financial markets passing through a bearish phase is a distinct possibility.

Interest Rate Risk

Changes in interest rate may affect the Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

Credit Risk

Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Re-investment Risk

Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

As the Scheme is an Exchange Traded Scheme, the provisions of minimum number of investors and maximum holding of the investors are not applicable as per SEBI Regulations and Circulars.

C. SPECIAL CONSIDERATIONS

Quantum Asset Management Company Private Limited (AMC) has received the No Objections from SEBI to provided Research Services in Equities and Fixed Income, and Research / Advisory Services in Multi Asset Allocation and Emerging Markets in the Alternative Investment field to Quantum Advisors Private Limited (Sponsor) and QIEF Management LLC (QIEF) on commercial basis.

The AMC is providing Research / Advisory Service in Equities to the Sponsor & QIEF and Fixed Income to Sponsor, which is non-binding and non-discretionary in nature and not in conflict of interest with the activities of Quantum Mutual Fund. QIEF use such services for categories of Foreign Portfolio Investors (FPI) as prescribed in the SEBI circular dated December 16, 2019 as amended from time to time. The AMC has process in place to prohibit access to inside information of various activities as envisaged under Regulation 24(b) of SEBI (Mutual Funds) Regulations, 1996 by segregating the Key Personnel, System and Back Office, Bank Account activity wise.

Performance of the Nifty 50 Index will have a direct bearing on the performance of the Scheme. In the event, the Nifty 50 Index is dissolved or is withdrawn by NSEIL, the Trustee reserves a right to modify the Scheme so as to track a different and suitable index and the procedure stipulated in the Regulations shall be complied with.

“The Q Nifty units are not sponsored, endorsed, sold or promoted by NSE Indices Limited (“NSEIL”). NSEIL does not make any representation or warranty, express or implied to the Unit holders of the Q Nifty Units or any member of the public regarding the advisability of investing in securities generally or in the Q Nifty Units particularly or the ability of the Nifty 50 Index to track general stock market performance in India. The relationship of NSEIL to Quantum Asset Management Company Private Limited is only in respect of the licensing of certain trademarks and trade names of their Index, which is determined, composed and calculated by NSEIL without regard to the Quantum Asset Management Company Private Limited or the Q Nifty Units. NSEIL has no obligation to take the needs of the Quantum Asset Management Company Private Limited or the Unit holders of the Q Nifty Units into consideration in determining, composing or calculating the Nifty 50 Index. NSEIL is not responsible for or nor has participated in the determination of the timing of, price at, or quantities of the Q Nifty Units to be issued or in the determination or calculation of the equation by which the Q Nifty Units is to be converted into Cash. NSEIL has no obligation or liability in connection with the administration or marketing or trading of the Q Nifty Units.”

“NSEIL does not guarantee the accuracy and / or the completeness of the Nifty 50 Index or any data included therein and they shall have no liability for any errors, omissions, or interruptions therein. NSEIL makes no express or implied warranties and expressly disclaim all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any data included therein. Without limiting any of the foregoing, in no event shall NSEIL have any liability for any special, punitive, indirect or consequential damages (including lost profits) even if notified of the possibility of such damages.”

Mutual funds being vehicles of securities investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Scheme. The various factors which impact the value of the Schemes' investments include, but are not limited to, fluctuations in the capital markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes, etc.

The past performance of the Sponsors and their affiliates/associates is not indicative of the future performance of the Scheme. Investment decisions made by the AMC may not always be profitable.

From time to time and subject to the Regulations, the Sponsors, the mutual funds and investment companies managed by them, their affiliates, their associate companies, subsidiaries of the Sponsors and the AMC may invest either directly or indirectly in the Scheme. The funds managed by these affiliates, associates, the sponsors, subsidiaries of the Sponsors and/or the AMC may acquire a substantial portion of the Scheme's Units and collectively constitute a major Investor in the Scheme. Accordingly, Repurchase/Redemption of Units held by such funds, affiliates/associates and Sponsors may have an adverse impact on the Units of the Scheme because the timing of such Repurchase/Redemption may impact the ability of the other Unitholders to redeem their Units.

Certain focus areas are already enjoying favourable tax treatment by government of India and the Scheme may also receive favourable tax treatment in other focus areas. If these tax benefits are removed or amended, it is possible that the changes may have a material adverse impact on the entire revenue and earnings of Companies engaged in business in such focus areas.

Unit holders in the Scheme are not being offered any guaranteed / assured returns and investors are advised to consult their Legal/ Tax and other Professional Advisors in regard to tax/ legal implications relating to their investments in the Scheme and before making decision to invest in or Repurchase the Units.

Neither this Scheme Information Document nor the Units have been registered in any jurisdiction.

This Scheme Information Document is meant for circulation only in India and therefore has not been registered in any other jurisdiction. The distribution of this Scheme Information Document in certain jurisdiction may be restricted to totally prohibited due to registration requirements and accordingly, persons who come into possession of this Scheme

Information Document are required to inform themselves about such regulations/ restrictions and to observe any such restrictions and /or compliance requirements.

Investors should study this Scheme Information Document carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, investment or any other matters. Investors are advised to consult their legal, tax investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or repurchasing units, before making a decision to invest/ Repurchase Units.

The Mutual Fund may disclose details of the Unitholder's account and transactions thereunder to the Bankers / third party as may be necessary for the purpose of effecting payments to the Unitholder / verifying unitholder's account.

In terms of the Prevention of Money Laundering Act 2002, the Rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML Laws), all intermediaries, including Mutual Funds, have to formulate and implement a client identification programme, verify and maintain the record of identity and address(es) of investors.

If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, failure to provide required documentation, information, etc., the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND and / or to freeze the folios of the investor(s), reject any application(s) / allotment of units and effect mandatory redemption of unit holdings of the investor(s) at the applicable NAV subject to payment of exit load, if any.

In terms of Foreign Account Tax Compliance Act (FATCA), the AMC / Mutual Fund will be required to undertake due diligence process and identify US reportable accounts and collect such information / documentary evidences of the US and / or non-US status of its investors / Unit holders and disclose such information (through its agents or service providers) as far as may be legally permitted about the holdings, investment returns and / or to US Internal Revenue Service (IRS) or the Indian Tax Authorities, as the case may be for the purpose of onward transmission to the IRS under FATCA. The Government of India has signed IGA under FATCA and also Multilateral Competent Authority Agreement (MCAA) for Common Reporting Standard (CRS) implementation. Under the agreement, India would be obligated to get its financial institutions to share financial account information of accountholders who are tax residents in any of the signatory countries. Likewise, India would also get similar information through financial institutions of such treaty countries. A. TYPE AND CATEGORY OF THE SCHEME

- a. Type of Scheme: An Open Ended Scheme Replicating/Tracking Nifty 50 Index
- b. Category of Scheme: Exchange Traded Fund

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective of the scheme is to invest in stocks of companies comprising Nifty 50 Index and endeavour to achieve return equivalent to Nifty by “Passive” investment. The Scheme will be managed by replicating the index in the same weightage as in the Nifty 50 index with the intention of minimizing the performance differences between the scheme and the Nifty 50 Index in capital terms, subject to market liquidity, costs of trading, managing expenses and other factors which may cause tracking error.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The net assets of the scheme will be invested predominantly in stocks constituting the Nifty 50 and / or in Nifty 50 exchange traded derivatives. This would be done by investing in almost all the stocks comprising the Nifty 50 Index in approximately the same weightage that they represent in the Nifty 50 Index and / or investing in Nifty 50 exchange traded derivatives. A small portion of the net assets may be invested in Money Market Instruments and Tri-Party Repo to meet the liquidity requirements of the schemes.

The investment policies of the Scheme shall be as per SEBI (Mutual Funds) Regulations, 1996, and within the following guideline. The asset allocation under the Scheme, under normal circumstances, will be as follows: -

Securities Covered	Indicative Allocations (% of total assets)		Risk Profile
	Minimum	Maximum	
Securities covered by the Nifty 50 Index	95%	100%	High
Money Market Instruments	0%	5%	Low

Pending deployment of funds of the Scheme in securities in terms of the investment objectives of the Scheme, the AMC can invest the funds of the Scheme in short-term deposits of scheduled commercial banks. The investments in short term deposits of scheduled commercial banks will be reported to the trustees along with the reasons for the investment which, inter alia, would include comparison with the interest rates offered by other scheduled commercial banks. Further, Quantum AMC will ensure that the reasons for such investments are recorded in the manner prescribed in SEBI Circular MFD/CIR/6/73/2000 dated July 27, 2000 and such investments in short term deposits are made in line with SEBI Circular SEBI/IMD/CIR No 1/91171/07 dated April 16, 2007 June 23, 2008, August 16, 2019, and September 20, 2019.

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations.

CHANGE IN INVESTMENT PATTERN

As an index linked scheme, the investment policy is primarily passive management. However, the above mentioned investment pattern is indicative and may change for short duration. In the event the Nifty 50 Index is dissolved or is withdrawn by NSE Indices Limited (NSEIL) or is not published due to any reason whatsoever, the Trustee reserves the right to modify the schemes so as to track a different suitable index and/or to suspend tracking the Nifty 50 Index and appropriate intimation of the same will be sent to the unitholders of the schemes. In such a case, the Investment pattern will be suitably modified to bring it in line with the composition of the securities that are included in the new index to be tracked and the performance of the schemes will be subject to tracking errors during the intervening period.

Subject to the Regulations, the asset allocation pattern indicated above may also change from time to time, keeping in view market conditions, market opportunities and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the unitholders. Such changes in the investment pattern will be for short term and defensive considerations.

D. WHERE WILL THE SCHEME INVEST?

The Scheme may invest in the following asset class

- (a) Securities covered by the Nifty 50 Index as stated above.
- (b) Money market instruments.

Investments other than in equity will be made for managing liquidity. The preferred instruments will be money market instruments. Money market instruments include commercial papers, commercial bills, treasury bills, Government Securities having an unexpired maturity up to one year, call or notice money, certificates of deposit, usance bills and any other like instruments as specified by the RBI from time to time.

- (c) Any other Securities / asset class / instruments as permitted under SEBI Regulations.

Investment in Nifty 50 Index related Derivatives

The Fund may use derivative instruments related to the Nifty 50 Index up to a maximum of 10% of the net assets of the scheme.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The AMC uses a “passive” or indexing approach to try and achieve Schemes Investment objective. Unlike other funds, the Scheme does not try to “beat” the markets they track and do not seek temporary defensive positions when markets decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark. The scheme would alter the scrips/weights as and when the same are altered in the Nifty 50 Index. As long as a Scheme invests at least 95% of its total assets in the stocks of its Underlying Index, it may also invest in Money Market Instruments.

INVESTMENT PROCESS AND RECORDING OF DECISIONS

INVESTMENT PROCESS

The Scheme will track Nifty 50 Index and is a passively managed scheme. The investment decisions will be determined as per the Nifty 50 Index. Unlike other Fund, the Scheme does not try to “beat” the markets they track and do not seek temporary defensive positions when markets decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks in regard to over / underperformance vis-à-vis a benchmark. In case of any change in the index due to corporate actions or change in the constituents of Nifty 50 Index (as communicated by NSEIL), relevant investment decisions will be determined considering such changes.

RECORDING OF INVESTMENT DECISIONS

The investment decisions will be taken for the Scheme keeping in view the market conditions, investment objective of the Scheme and all the relevant aspects. The AMC will review all the investments made by the Scheme. The investment decisions of the Scheme will be made by the AMC’s Portfolio Team and carried out by the designated Fund Manager. The final responsibility for the investment decisions rests with the portfolio team. All investment decisions of the scheme will be recorded in accordance with SEBI Regulations. It is the responsibility of the AMC to ensure that the investments are made as per the internal/Regulatory guidelines, Scheme investment objectives and in the best interest of the Unitholders of the Scheme.

The Managing Director & Chief Executive Officer is not involved in the investment decision making process.

All investment decisions shall be recorded in terms of SEBI Circular no MFD/CIR/6/73/2000 dated July 27, 2000 or as may be revised by SEBI from time to time.

RISK CONTROL / RISK MANAGEMENT STRATEGY

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (MF) Regulations.

The Fund has identified the following Risks and designed Risk Management Strategies which is the part of the Investment Process to manage such risks.

Type of Risks	Risk Management Strategies
Tracking Error Risk - Risk of deviating away from the investment objective of tracking Nifty 50 Index	The Fund follows a passive investment approach and invests as per the Nifty Index. The Fund does not try to beat the markets and do not seek temporary defensive positions when markets decline or appear overvalued.
Liquidity risk - High impact cost	At the time of rebalancing of the portfolio of the scheme in case required quantity of stocks are not available due to low volume in some stocks in such cases the quantity of stocks will be broken down across proportionally in all stocks comprises in Nifty 50 Index so that no stock will have more weightage than the required at such time.
Changes in composition: Addition / deletion of stocks in Nifty 50 Index	The rebalancing of stocks shall be done at the appropriate time so that tracking error can be minimized.

Changes in weightage of stock due to corporate action like merger, demerger or issue of QIP

The rebalancing of stocks shall be done at the appropriate time so that tracking error can be minimized.

PERFORMANCE MEASUREMENT & REPORTING

The Investment Committee of the AMC at its regular meeting shall review performance of the Scheme, compliance of the various investment restrictions and compliance with the investment objectives stipulated in the SID and all other applicable SEBI Regulations. The AMC and the Trustees shall also review the performance of the scheme at their periodical Board Meetings. The performance would be compared with the performance of the Benchmark and with peer group in the industry.

The MD & CEO/Fund Manager will make presentations to the Board of the AMC and the Trustees periodically, indicating the performance of the Scheme. The Board of AMC and Trustee will review the performance of the Scheme in comparison to the benchmark.

The MD & CEO / the Fund Manager will bring to the notice of the AMC Board, specific factors if any, which are impacting the performance of the Scheme. The Board may after consideration of all relevant factors, if necessary, give appropriate directions to the AMC. Similarly, the performance of the Scheme will be submitted to the Trustees. The MD & CEO / the Fund Manager will explain to the Trustees, the details on the Scheme's performance vis-à-vis the benchmark returns. The Trustees and the AMC Board may also review the performance of the scheme vis-à-vis the benchmark and may take corrective action in case of unsatisfactory performance.

PORTFOLIO TURNOVER

As the Scheme will follow a passive investment strategy the endeavor will be to minimize portfolio turnover subject to the exigencies and needs of the schemes. Generally, as the scheme is open – ended, turnover will be confined to rebalancing of portfolio on account of new subscriptions, redemptions and change in the composition of the Nifty 50 Index. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

The Portfolio Turnover Ratio for last one year is **1.93%**

INVESTMENT BY AMC IN THE SCHEME

The AMC may invest in the Scheme at any time during the continuous offer period subject to the SEBI Regulations & circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the Scheme.

11. Pending deployment of funds of a Scheme in securities in terms of investment objectives of the Scheme, the AMC can invest the funds of the Scheme in short-term deposits of scheduled commercial banks. The investments in short term deposits of scheduled commercial banks will be reported to the trustees along with the reasons for

the investment which, inter alia, would include comparison with the interest rates offered by other scheduled commercial banks. Further, Quantum AMC will ensure that the reasons for such investments are recorded in the manner prescribed in SEBI Circular MFD/CIR/6/73/2000 dated July 27, 2000 and such investments in short term deposits are made in compliance of SEBI Circular SEBI/IMD/CIR No. 1/91171/07 dated April 16, 2007, June 23, 2008, August 16, 2019 and September 20, 2019 or such other guidelines that SEBI may issue from time to time.

12. The Scheme shall not make any investment in a Fund of Fund's Scheme.
13. The Scheme shall not invest more than 10% of its NAV in debt instruments issued by a single issuer rated not below investment grade by a credit rating agency authorised to carry out such activity under the Securities and Exchange Board of India Act, 1992 and this limit may be extended to 12% of the NAV of the Scheme subject to prior approval of the Board of the AMC and the Trustee. Provided that such limit shall not be applicable for investment in Government Securities, Treasury Bill and triparty repo on Government securities or treasury bills.
14. The Scheme shall not invest in unlisted debt instruments including commercial papers, except government securities and other money market instruments. Provided that the Scheme may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such condition as may be specified by the SEBI from time to time.
15. The Fund may lend securities in accordance with "Guidelines for Participation by Mutual Funds in Stock Lending" issued by SEBI or any amendments thereto up to a maximum limit of 5% of its Net Assets.
16. The Scheme may also use various Nifty 50 related derivative products from time to time, as are available and permitted by SEBI and this Scheme Information Document, in an attempt to protect and enhance the interests of the Unitholders at all times.

All the above investment restrictions shall be applicable at the time of making the investment.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI Regulations.

M. INTRODUCTION TO EXCHANGE TRADED FUND

Background of Exchange Traded Funds

Exchange Traded Funds or ETFs are investment schemes that are listed on stock exchanges and can be traded like equity shares. An ETF would have some underlying security or group of securities like an index, sector stocks or commodities. These underlying securities determine the ETF's value. Investors can buy or sell these ETF units. Globally, ETFs are increasingly finding favour with retail as well as institutional investors. They aid investors to diversify their risks by taking a broad exposure to entire markets or specific sectors in different countries with relative ease, on a real-

time basis and at a lower cost than many other forms of investing. ETFs are attractive to investors as they offer the diversification of mutual funds combined with the flexibilities of stock trading.

ETFs are not to be confused with futures. Even though both ETFs and Futures allow investors exposure to an underlying asset, they are different in many ways. Futures contracts are derivative products and trades are settled at a pre-determined time in the future. ETFs are a cash market product and can be held for as long as the investor wants.

History

The first exchange-traded fund began trading on the Toronto Stock Exchange in 1989. Some of the most popular ETFs are QQQs (Cubes) based on the Nasdaq-100 Index, SPDRs (Spiders) based on the 500 Index, iShares based on MSCI Indices and TRAHK (Tracks) based on the Hang Seng Index. In the commodities segment, Street TRACKS and iShares are extremely popular.

Salient Features - ETFs can be bought and sold throughout the trading day at real time prices. An investor can take advantage of price rises and declines that take place during the day.

ETFs are also more economical for the investor. Most ETFs charge lower annual expenses. Over the long term, these cost advantages can compound into a significant difference for the investor.

Advantages of ETFs

Diversification: As each ETF is comprised of a basket of securities, it inherently provides diversification across an entire index. The range and breadth of ETFs is ever expanding. ETFs today are not just about stock indices. In addition to stock indices in emerging (E.g.:- China, Malaysia, Brazil) as well as developed markets (E.g.:- U.S., U.K.), an investor can take positions in specific sectors like healthcare, telecom, biotech etc. Commodity, Bond, Currency and Real Estate ETFs are also available. Even for institutional investors, ETFs facilitate easy asset allocation, hedging facilities and options to equitize cash.

Affordability: The unit cost of an ETF can be very low when compared to the prices of its constituents. These lower prices are attractive for retail investors, who otherwise might not have been able to afford the basket.

Transparency: The investor has a better idea beforehand about where his money will be invested. The performance of ETFs generally corresponds to the performance and yield of their underlying security.

About the Index

The Nifty 50 Index comprises of 50 companies and is a free float market capitalization weighted index. Stocks are selected based on their market capitalization and liquidity. An important aspect of Nifty 50 index is that the impact cost (cost of executing the entire set of Nifty 50 securities) is low. Nifty 50 stocks represent about 62.9% of the Total Free Float Market Capitalization of universe of stock traded on NSE as on March 31, 2017. The Nifty 50 index has a base date of November 03, 1995 with a base index value of 1000. The index is reviewed quarterly.

Attributes of the Index

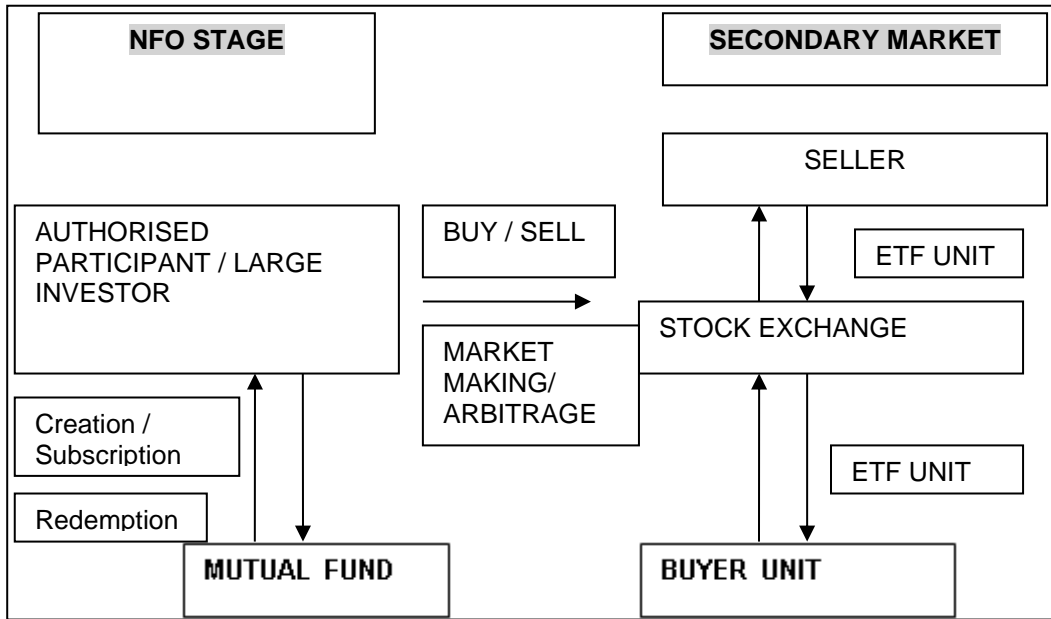

The Nifty 50 Index is a broad based diversified index.

Index Service Provider

NSE Indices Limited (NSEIL) is a 100% subsidiary of the National Stock Exchange of India Ltd. (NSE). NSEIL has been formed with the objective of providing a variety of indices and index related services and products for the capital

market.

This difference will represent accrued Income distribution, accrued annual charges including management fees and residual cash in the Scheme. In addition the Cash Component will also include transaction cost as charged by the Custodian/ DP, equalization of Income Distribution and other incidental expenses for Creating Units. The Cash Component will vary from time to time and will be decided and announced by the AMC. <p>Procedure for Creating Q Nifty Units in Creation Unit Size</p> <p>The requisite securities constituting the Portfolio Deposit have to be transferred to the Fund’s DP account while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC,</p>

the AMC will transfer the respective number of Q Nifty Units into the investor's DP account. The AMC may create "Creation Unit" prior to receipt of all or a portion of the relevant Portfolio Deposit and Cash Component in certain circumstances as determined by the AMC including where the purchaser, among other things, posts collateral to secure its obligation to deliver such outstanding Portfolio Deposit Securities and Cash Component.

The Portfolio Deposit and Cash Component for Q Nifty Units may change from time to time due to changes in the underlying Index on account of corporate actions and changes to the index constituents.

Disclosure of Portfolio Deposit and Cash Component

The AMC discloses the Portfolio Deposit and Cash Component on daily basis for creating and redeeming units in Creation Unit size for Q Nifty. The same will be disclosed on our website i.e. www.QuantumAMC.com / www.QuantumMF.com daily in the morning and would be applicable for creating and redeeming units in Creation Unit size for that working day only.

Procedure for Creating Q Nifty Units in Creation Unit Size – Cash Subscription

The payment of requisite cash for creation of units in Creation Unit Size at Intra Day NAV based prices shall be made as determined by the AMC only by means of Payment Instruction of Real Time Gross Settlement (RTGS) / National Electronic Fund Transfer (NEFT) / Funds Transfer Letter / Transfer Cheque of a bank where Q Nifty has a collection account. The AMC will arrange to buy the underlying portfolio of securities on behalf of the Eligible Investors / Authorised Participants / Large Investors on receipt of the subscription application along with the subscription amount. The underlying portfolio of securities shall be purchased within 3 Business Days on the receipt of the subscription amount. The Eligible Investors / Authorised Participants / Large Investors need to incur all the actual costs of purchase of the underlying portfolio of securities and funding of market movement from the time of application to actual buying of underlying portfolio of securities by the AMC in addition to the cash component (if any) as determined by the AMC from time to time. Any excess / shortfall in the amount paid on account of the subscription will be refunded / collected to / from the Eligible Investors / Authorised Participants / Large Investors on allotment of units.

The AMC may at its own discretion reserves the right not to accept application in Creation of Unit Size through Cash Subscription without any reason in the interest of the Scheme.

(b) On the Exchange

As the Units of the Scheme are listed on NSE, an investor can buy units on continuous basis on the capital market segment of NSE during trading hours like any other publicly traded stock at prices which may be close to the actual NAV of the Scheme.

Ongoing price for redemption (sale) / switch outs (to other schemes/plans of the Mutual Fund) by investors.

This is the price you will receive for redemptions / switch outs.

Example : If the applicable NAV is Rs. 10, exit load is 2% then redemption price will be: Rs. 10* (1-0.02) = Rs. 9.80

(a) Directly with the Fund

Q Nifty units in less than Creation Unit cannot be redeemed directly with the Fund except as may be allowed by the AMC in its own discretion from time to time.

“Creation Unit” is a fixed number of Q Nifty Units, which is exchanged for a basket of shares underlying the benchmark index, called the “Portfolio Deposit” and a “Cash Component” . The facility of redeeming units in Creation Unit size is available to the Authorized Participants (whose names will be available on the website of the Fund www.QuantumAMC.com / www.QuantumMF.com) and Eligible investors.

The number of Q Nifty Units that investors can redeem in exchange of the Portfolio Deposit and Cash Component is 2,000 units and in multiples thereof. The portfolio Deposit and Cash Component are defined as follows:-

- a. Portfolio Deposit:** This is a pre- defined basket of securities that represent the underlying index and will be defined and announced by the fund on allotment date and can change from time to time.
- b. Cash Component for Redemption in Creation Unit Size:** The Cash Component represents the difference between the applicable net asset value of a Creation Unit and the market value of the Portfolio deposit. This difference will represent accrued Income Distribution, accrued annual charges including management fees and residual cash in the scheme. Any transaction cost charged by the Custodian / DP, equalization of Income Distribution and other incidental expenses for redeeming units will vary from time to time and will be decided and announced by the AMC on its website. The Cash component for redemption will also be adjusted for exit load if applicable. The exit load will be decided by the AMC from time to time and will be within the limits specified under the regulations.

Procedure for Redeeming Q Nifty Units in Creation Unit Size

The requisite securities constituting the Portfolio Deposit have to be transferred to the funds DP account while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC, the AMC will transfer the respective number of Q Nifty Units into the investor’s DP account. The AMC may redeem “Creation Unit” prior to receipt of all or a portion of the relevant Portfolio Deposit and Cash Component in certain circumstances as determined by the AMC including where the purchaser, among other things, posts collateral to secure its obligation to deliver such outstanding Portfolio Deposit Securities and Cash Component.

The Portfolio Deposit and Cash Component for Q Nifty Units may change from time to time due to changes in the underlying Index on account of corporate actions and changes to the index constituents.

	<p>Procedure for Redeeming Q Nifty Units in Creation Unit Size – Cash Redemption</p> <p>The requisite Q Nifty units in demat mode have to be transferred to the Fund DP’s account along with the application for redemption of units in Creation Unit Size at Intra Day NAV based prices. The AMC will arrange to sell the basket of securities on behalf of the Eligible Investors / Authorised Participants / Large Investors within 3 Business Days of the receipt of request for redemption. The Eligible Investors / Authorised Participants / Large Investors need to incur all the actual costs in connection with the sale of basket of securities, market movement from the time of application to actual selling of underlying portfolio of securities by the AMC in addition to the cash component (if any) as determined by the AMC from time to time. The sale proceeds of the basket of securities, after adjusting necessary charges / cost will be remitted to the Eligible Investors / Authorised Participants / Large Investors.</p> <p>The AMC may at its own discretion reserves the right not to accept application in Creation of Unit Size through Cash Redemption without any reason in the interest of the Scheme.</p> <p>(b) On the Exchange</p> <p>As the Units of the Scheme are listed on NSE, an investor can sell units on continuous basis on the capital market segment of NSE during trading hours like any other publicly traded stock at prices which may be close to the actual NAV of the Scheme.</p>

<p>Redemption</p>	<p>The redemption or repurchase proceeds shall be dispatched to the Unitholders within 10 working days from the date of redemption or repurchase.</p> <p><u>Email ID and Mobile Number for communication</u></p> <p>Primary holders should provide their own email address and mobile number for speed and ease of communication in a convenient and cost effective manner, and to help prevent fraudulent transactions.</p>
<p>Settlement of Purchase / Sale of Units of Scheme on the NSE</p>	<p>Buying / Selling of unit of the Scheme on NSE is just like buying /selling any other normal listed security. If an investor has bought units, and investor has to pay the purchase amount to the broker/ sub - broker such that the amount paid is realized before the funds pay in day of the settlement cycle on the NSE. The NSE regulations stipulate that the trading member should pay the money or units to the investor within one working day of the pay- out by Exchange.</p> <p>If an Investor has bought units he should give standing instructions for "Delivery – In" to his /her DP for accepting units in his/her beneficiary account. An investor should give the details of his / her beneficiary account and the DP-ID to his / her trading member. The trading member will transfer the units directly to his / her beneficiary account on receipt of the same from NSE's Clearing Corporation.</p> <p>An Investor who has sold units should instruct his / her Depository Participant (DP) to give "Delivery Out" instructions to transfer the units from his/her beneficiary account to the Pool Account of his / her trading member through whom he / she have sold the units. The details of the Post A/c (CM-BP-ID) of his / her trading member to which the units are to be transferred, unit quantity etc. should be mentioned in the Delivery out instructions given by him/her to the DP.</p> <p>The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut – off time for the prescribed securities pay-in to avoid any rejection of instructions due to date entry errors, network problems, etc.</p>

Rolling Settlement

As per SEBI's Circular dated March 04, 2003, the rolling settlement on T+ 2 basis for all trades has commenced from April 01, 2003 onwards. The Pay-in and Pay-out of funds and the units will take place 2 working days after the trading date.

The Pay-in and Pay-out days for funds and securities are prescribed as per the Settlement Cycle. A typical Settlement Cycle of Rolling Settlement is given below:

Day	Activity
T	The day on which the transaction is executed by a trading member.
T + 1	Confirmation of all trades including custodial trades by 12.30p.m.
T + 1	Processing and downloading of obligation files to brokers/ custodians between 2 and 2.15 p.m.
T + 2	Pay-in of funds and securities by 11. 50 a.m.
T + 2	Pay out of securities by 12.30 p.m. and funds by 1.30 p.m.

While calculating the days from the Trading day (Day-T), weekend days (i.e. Saturday and Sundays) and bank holidays are not taken into consideration.

Right to Restrict Redemption of the Units

The Fund at its sole discretion reserves the right to restrict Redemption (including switch-out) of the Units of the Scheme of the Fund on circumstance leading to a systemic crisis or event that severely constricts market liquidity or the efficient markets such as:

- (a)** Liquidity Issue - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security.
- (b)** Market failures / Exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.
- (c)** Operation Issue - when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out).

The restriction may be imposed on redemption for a period not exceeding 10 working days in any 90 day period and subject to approval of the Board of AMC and Trustee on occurrence of the above event. The Restriction shall be informed to SEBI immediately.

Redemption request up to Rs.2 Lakhs shall not be subject to such restriction and where redemption requests are above Rs.2 lakhs, the AMC shall redeem the first Rs.2 lakhs without such restriction and remaining part over and above Rs.2 lakhs shall be subject to such restriction.

The AMC / Trustee reserves the right to change / modify the provisions pertaining to the right to restrict Redemption of the Units in the Scheme(s) of the Fund in accordance with SEBI (Mutual Funds) Regulations.

<p>Dematerialization</p>	<p>a. Units of the Scheme will be available in Dematerialized (electronic) form only. However, AMC, at the discretion may send account statements to unit holders periodically</p> <p>b. The applicant under the Scheme required to have a beneficiary account with a Depository Participant of NSDL and/or CDSL and will be required to indicate in the application the Depository Participants (DPs) name, DP ID Number and the beneficiary account number of the applicant.</p> <p>c. Units of the Scheme will be issued, traded and settled compulsorily in dematerialized form.</p> <p>Applications without relevant details of his/her/its depository account are liable to be rejected.</p>
<p>Delay in payment of redemption/ repurchase proceeds</p>	<p>The Fund shall dispatch the Redemption/ Repurchase proceeds to the Unitholders within 10 working days from the date of redemption or repurchase. The AMC shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @15% per annum). However, the AMC will not be liable to pay any interest or compensation or any amount otherwise, in case the AMC / Trustee is required to obtain details from the investor / unitholders for verification of identity or such other details relating to subscription of units under any applicable law or as may be requested by a regulatory body or any government authority which may result in delay in processing the application.</p>
<p>Lien on Units for Loans</p>	<p>The Units issued under the Scheme can be transferred, assigned or pledged in conformity with the guidelines and notifications issued by SEBI / government of India / any other regulatory body from time to time, Units under the Scheme may be offered as security by way of a lien / charge in favour of scheduled banks, financial institutions, non-banking finance companies (NBFCs) or any other body. The Registrar and Transfer Agent will note and record the lien against such Units. A standard request letter for this purpose is available on request with the Registrar and Transfer Agent or the AMC. The Unit Holder will not be able to redeem / switch Units under lien until the lien holder provides written authorization to the Mutual Fund that the lien / charge may be vacated.</p> <p>As long as Units are under lien, the lien holder will have complete authority to exercise the lien, thereby redeeming such Units and receiving payment proceeds. In such instance, the Unit Holder will be informed by the Registrar and Transfer Agent through an account statement. In no case will the Units transferred from the Unit Holder to the lien holder. Income Distributed on Units under lien will be paid / re-invested to the credit of the Unit Holder and not the lien holder unless specified otherwise in the lien letter.</p>

Example of Creation and Redemption of Units

As explained earlier, the Creation Unit is made up of 2 components i.e. the Portfolio Deposit and the Cash Component. The Portfolio Deposit will be determined by the Fund as per the weightages of each security in the Underlying Index. The value of this Portfolio Deposit will change due to change in prices during the day. The number of shares of each security that constitute the portfolio deposit will remain constant unless there is any corporate action in the Underlying Index.
