Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or repurchase / redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the AMC, the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations in accordance with Para No. 1.9.1. (b) of SEBI Master Circular for Mutual Funds dated March 20, 2026. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days. However, at all the times the portfolio will adhere to the overall investment objective of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to Para No. 3.11. of SEBI Master for Mutual Funds dated March 20, 2026, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of mandated rebalancing period (i.e. 30 Business Days).

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not levy exit load, if any, on the investors exiting from the scheme.

AMC shall report the deviation to Trustees at each stage. The reporting to Trustees shall be initiated immediately after the expiry of the mandated rebalancing period (i.e. 30 Business Days). Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme, the AMC shall immediately after the expiry of the mandated rebalancing period (i.e. 30 Business Days):

1. disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. communicate to investors through SMS and email / letter when the portfolio is rebalanced.

Deviation of the portfolio, beyond the specified limits, from the mandated asset allocation beyond 30 Business Days shall also be disclosed on the website of the AMC.

The AMC shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

B. WHERE WILL THE SCHEME INVEST?

Subject to the SEBI (MF) Regulations and the disclosures as made under the Section “HOW WILL THE SCHEME ALLOCATE ITS ASSETS?”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities / instruments:

- (a) Equity and Equity related Instruments
- (b) Equity and Equity related Instruments other than above, including REITs
- (c) Debt & Money Market Instruments
- (d) Units of InvITs
- (e) Units of Gold ETF
- (f) Any other securities / asset class / instruments as permitted under SEBI (MF) Regulations in line with the Investment Objective of the Scheme subject to regulatory approval, if any required.

Pending deployment of funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of Scheduled Commercial Banks, subject to the guidelines issued by SEBI vide Para 13.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026, as may be amended from time to time.

The Inter Scheme Transfer of securities from one scheme to another scheme of the Mutual Fund shall be made in accordance with the provisions of Para No. 13.19. of the SEBI Master Circular for Mutual Funds dated March 20, 2026 pertaining to Inter Scheme Transfer of Securities (IST).

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme will follow an active investment strategy. The corpus of the scheme will invest in share of companies meeting an Ethical set of Principles including of Shariah, Jainism and other ethical principles encompassing a broad Ethical Framework. Such companies meeting the ethical criteria will be further screened through Quantum’s proprietary integrity framework. These companies will also undergo a financial evaluation based on a set of metrics to ensure they are financially sound before being included in the portfolio.

Shariah Principles:

Shariah has unique approach is that financial transactions are fair & equitable, financial rewards are correlated with the level of risk, efforts and responsibility and prohibits interest, excessive uncertainty / speculation, gambling and harmful businesses. To follow such principles while investing the sector and industry will be excluded are Alcohol, gambling, tobacco, vulgar entertainment, animation content provider, exhibition of films,

media-broadcasting, media-content, production & distribution of films, mainstream/conventional financial services, non-halal food and beverages, narcotics substance or anything largely harmful to society.

Jainism Principles:

Jainism has a unique approach to economic development which is strongly centered on sincerity and integrity' around Ahimsa and Karma, which 'encourages a light footprint in life, where consumption is to be simplified and minimized. To follow such principle while investing the sector & industry will be excluded are Meat & Animal Products, Alcohol & Tobacco, Pharmaceutical involving Animal Testing, Weapon & Defense, Gambling & Betting.

These Ethical Principles guide the overall investment framework and decision-making process.

Ethical Investment Framework

I. Ethical Exclusions

The scheme will avoid investing in companies that generate revenues from:

- Alcohol
- Gambling
- Tobacco
- Vulgar entertainment
- Film exhibition
- Media broadcasting and content
- Film production and distribution

II. Additional Exclusions

The scheme will also exclude companies involved in:

- Mainstream/conventional financial services
- Narcotic substances or anything largely harmful to society
- Leather industries
- Meat and poultry industries or any form of animal cruelty
- Animal testing (including pharmaceutical companies involved in such practices)

III. Financial Screening

In line with certain ethical considerations, financial screening will ensure that portfolio companies have:

- Interest-based debt is less than 25% of total assets
- Interest income is less than 4% of total income

This financial screening is separate from evaluating financial metrics to ascertain a company's financial soundness.

IV. Integrity Screening

Companies that meet the above criteria will undergo further screening by Quantum's investment process. The strategy aims to match sector weightages with broad, well-diversified indices for the Indian equity markets, subject to ethical screening. The objective is to invest in companies within each sector that score highly on integrity parameters.

Companies meeting the above criteria will further be screened by Quantum's proprietary integrity framework. The strategy determines sector weightages to reflect that of broad well diversified indices for the Indian equity markets subject to Ethical screening. Further, the strategy aims to invest in companies within each sector that stand high on the integrity parameters. The integrity check assesses non-financial aspects of a company's behavior with its various stakeholders, including governance, regulatory risks, and future preparedness. The Governance aspects, how well governed is the company under consideration. Further, the Investment Team will also look at various measures like its preparedness for risks from regulatory as well as disruption like emerging environmental and other regulations or to company specific factors like the conduct with the labour forces which could indicate issues like possibilities of strikes, supply chain disruptions etc. The forward-looking assessment of how well is the company prepared for the future with its pro stakeholder behavior whether its if for shareholders, employees, community in which it operates or be it the environmental aspects amongst various stakeholders around the company.

The investment strategy of the Scheme will be to invest in a basket of stocks after intensive analysis on the integrity aspects of the company. The aim is to follow a comprehensive stakeholder approach in order to develop deeper understanding into a company's management practices, sustainable businesses and risk profile, which would thereby help us in understanding the impact on long-term sustainability and stability that drives performance. The companies will also be evaluated on various financial aspects to ensure its on a sound footing further reducing financial risk with such investments.

The primary focus of the Scheme will be on companies based on the following criteria:

1. Exclusion criteria
2. Companies trading \$ 1 million on an average per day for last 12 months
3. Companies qualifying Ethical set of principles including principles like Shariah, Jainism etc. amongst broad set of Ethical principles
4. Companies scoring positively on Integrity assessment
5. Companies meeting the criteria for financial soundness that includes leverage, Return on Invested Capital, growth in free cash flow etc.

The Fund might also have exposure to REITs and InvITs depending on the opportunities that broad markets provide from time to time. On defensive or liquidity considerations, the Fund may also invest in debt and money market instruments.

• **PORTFOLIO CONSTRUCTION**

1. Every Stock with integrity composite score equal to or above the threshold integrity score will be part of the portfolio.
2. The AMC would generally not try to time the market and will add stocks that meet the Ethical and integrity criteria actively to capitalize on opportunities post through assessment of potential companies. Every stock in portfolio will be bought and sold on the basis of weights allotted to it and will not consider the prevailing valuation of the stock.

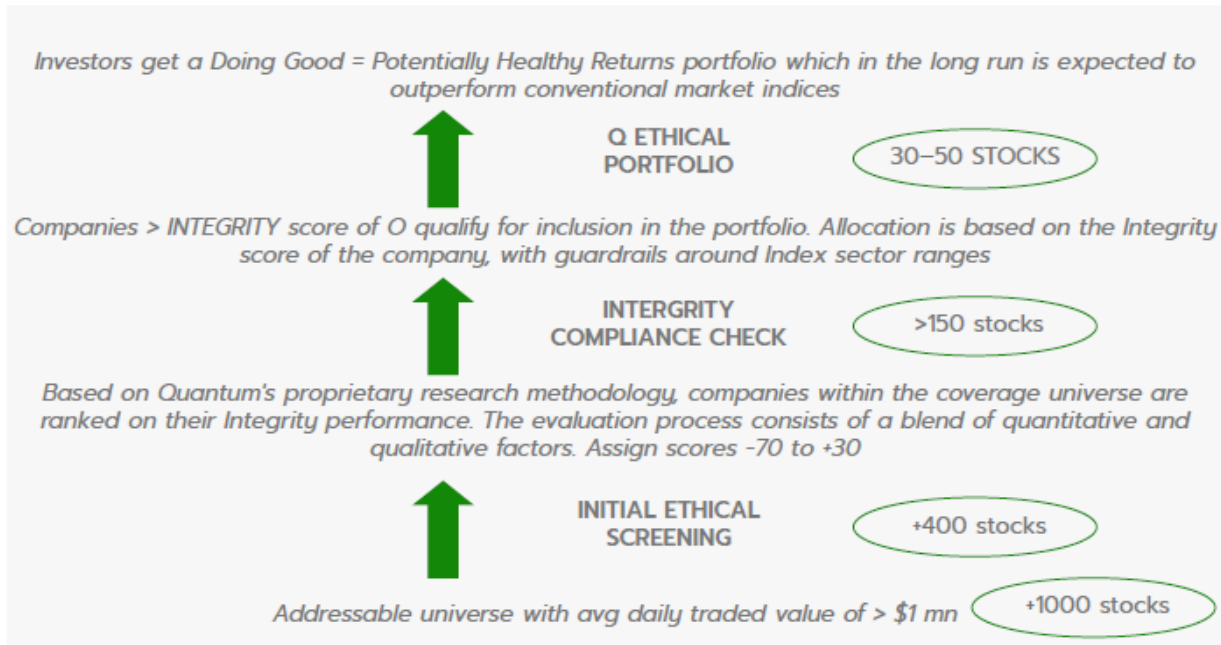

The AMC will set sector weights for the portfolio in accordance with sector weights of a broad well diversified India equity Index.

3. In case, there are no stocks meeting the Ethical criteria and the integrity score greater than or equal to the set threshold composite score in a particular sector, the weightage of that sector is redistributed on

a relative basis among other sectors, where the stocks meet the criteria. Consequently, the weightages of individual stocks qualifying the criteria within those sectors will also change accordingly.

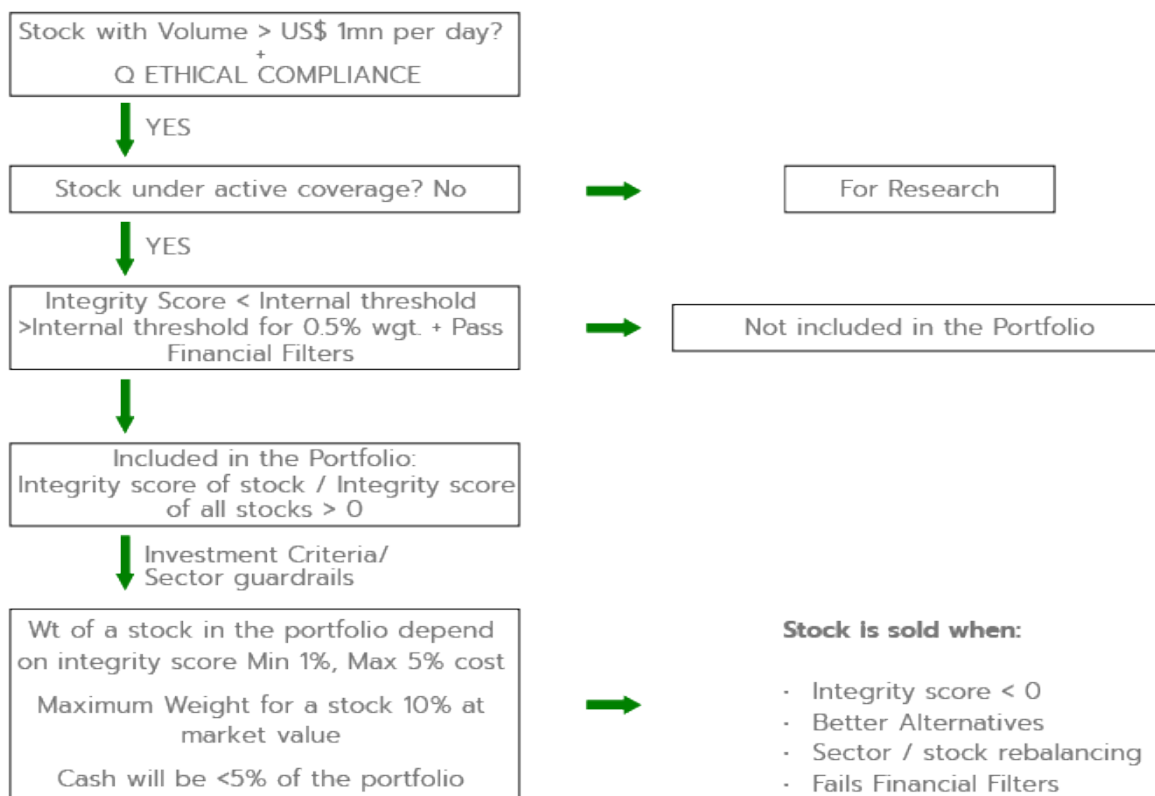

- The AMC will seek to periodically rebalance the portfolio on account of a new addition of stock, company specific events and in case of change in the view of the sector or the company.

The scheme will invest only in securities which are part of the Ethical Compliant Universe. In case of change in Ethical screening of any company post investment by the scheme, the Investment Team will exit from the scrip in a reasonable time.

**Ethical = Form part of the ethical frameworks Shariah Compliant Universe, Jainism and such other Ethical principles*

Note: Number of Stocks in the Addressable Universe is as on May 31, 2026.

The investments in Debt & Money Market Instruments will be done for managing liquidity and instruments which will qualify under the relevant Ethical Principles.

Portfolio Turnover Policy

The AMC's portfolio management style is conducive to a low portfolio turnover rate. The scheme being an open-ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. If trading is done frequently, there may be an increase in transaction/brokerage costs etc. The Fund Manager(s) will endeavor to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

PROCEDURE AND RECORDING OF INVESTMENT DECISIONS:

The investment decisions for the scheme will be carried out by the designated fund manager(s).

The Chief Executive Officer is not involved in the investment decision making process.

It is the responsibility of the AMC to ensure that the investments are made as per the Internal / Regulatory guidelines, Scheme's investment objective and in the best interest of the Unit holders of the Scheme.

All investment decisions shall be recorded in accordance with provisions of Para No. 7.16. of SEBI Master Circular for Mutual Funds dated March 20, 2026, or as may be amended by SEBI from time to time.

PERFORMANCE MEASUREMENT AND REPORTING

The Investment Committee of the AMC, at its regular meeting(s) shall review performance of the Scheme, compliance of the various investment restrictions and compliance with the investment objective stipulated in the Scheme Information Document and in accordance with SEBI (MF) Regulations.

The Fund Manager(s) will present the performance of the Scheme to the Board of the AMC and Trustees at their respective periodical Board Meetings.

The Board of AMC and Trustee will review the performance of the Scheme in comparison to the performance of Benchmark and industry peers.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Tier I Benchmark - NIFTY 500 Shariah TRI

The benchmark is representative of Fund's Investment Objective and Asset Allocation and most suited for comparison for performance of the scheme.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the Investment Objective & Asset Allocation of the Scheme and the appropriateness of the benchmark.

The Investment includes investments made under Alignment of Interest by Designated Employees in terms of SEBI Master Circular for Mutual Funds dated March 20, 2026.

For investments by key personnel and AMC directors including regulatory provisions in this regard, kindly refer the SAI.

i. INVESTMENTS OF AMC IN THE SCHEME

The AMC may invest in the Scheme at any time during the continuous offer period subject to the SEBI (MF) Regulations and Circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI Regulations, the AMC will not charge investment management and advisory fees on the investment made by it in the Scheme.

Further, the AMC shall, based on the risk value assigned to the scheme, invest minimum amount as a percentage of assets under management of the scheme, pursuant to Para No. 7.13.1. of SEBI Master Circular for Mutual Funds dated March 20, 2026. For details of such investments, please refer the link: <https://www.quantumamc.com/fileCDN/pdf/MUTUAL-FUND-INVESTMENT-SCHEMWISE-DATA.pdf>

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit will be computed by dividing the net assets of the Scheme/Plan/Option by the number of units outstanding under the Scheme/Plan/Option on the valuation date.

The Net Assets Value (NAV) per unit under the Scheme/Plan/Option shall be calculated as follows:

$$\text{NAV (')} = \text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including accrued income} - \text{Current Liabilities and Provisions including accrued expenses}$$

$$\text{No. of Units outstanding under Scheme/Plan/Option}$$

The numerical illustration of the above method is provided below:

Market or Fair Value of Scheme's investments (Rs.) = 10,00,000

Current Assets (Rs.) = 1,00,000

Current Liabilities and Provisions (Rs.) = 50,000

No. of Units outstanding under the Scheme = 1,00,000

$$\text{NAV per unit (Rs.)} = \frac{10,00,000 + 1,00,000 - 50,000}{1,00,000} = \frac{10,50,000}{1,00,000} = 10.50$$

The NAV will be calculated and disclosed on all Business Days by 11.00 p.m. The repurchase price shall not be lower than 97% of the NAV subject to SEBI (MF) Regulations, as amended from time to time. For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to SAI.

Sale (Subscription) and Repurchase (Redemption) Price Illustration:

Assumed NAV Rs.11.00 Per Unit, Entry Load – Nil, Exit Load – 1%

Sale Price = NAV + (Entry Load (%) (if any) * NAV)

Sale Price = 11 + (0% * 11)

Sale Price = 11 + 0

Sale Price = Rs.11/-

Repurchase Price = NAV – (Exit Load (%) * NAV)

Repurchase Price = 11 – (1% * 11)

Repurchase Price = 11 – 0.11

Repurchase Price = Rs.10.89

B. NEW FUND OFFER (NFO) EXPENSES

This section does not apply to the Scheme covered in this SID, as the ongoing offer of the Scheme has commenced after the NFO and the Units are available for continuous subscription and redemption.

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc.

The AMC may charge up to 2.10% of the daily net assets of the scheme as Base Expense Ratio (BER). For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund (www.QuantumAMC.com).

Expense Head	% of daily Net Assets
Investment Management & Advisory Fees	Up to 2.10%
Audit fees/fees and expenses of trustees	
Custodial fees	
Registrar & Transfer Agent Fees including cost of providing account statements / IDCW / redemption cheques/ warrants	
Marketing & Selling expenses including fees, commission and charges towards distribution of mutual fund scheme	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost towards investor education, awareness and financial inclusion	
Costs of statutory advertisements	
Other expenses (as per Regulation 66 of SEBI MF Regulations)	
Maximum Base Expense Ratio (BER) permissible under Regulation 66	Up to 2.10%
Statutory levies (including GST) on all expenses excluding brokerage and transaction cost	GST of 18% or any other rate as may be levied from time to time on the Taxable Invoice/Contract amount
Statutory levies (including GST) on brokerage and transaction cost	Additionally Levies such as Stamp Duty, STT etc

- **Brokerage Cost** for the purpose of execution of trade, over and above the Base Expense Ratio subject to a maximum of 0.06 per cent of trade value in case of cash market transactions and 0.02 per cent of trade value in case of derivatives transactions. Expense charged towards brokerage, over and above the specified limit, shall be part of the BER limit specified as above.

- **Transaction cost** incurred for the purpose of execution of a trade shall mean regulatory levies and any other expenses charged by the stock exchanges, clearing corporation, and clearing house, as applicable. Such transaction costs shall be over and above the Base Expense Ratio.

- **Statutory levy** means levy imposed by State Government and Central Government.

The total of all expenses charged to the investors of the scheme shall include: Base Expense Ratio limit specified under Regulation 66(7); brokerage cost permitted under Regulation 66(9); transaction cost incurred for the purpose of execution of trade as referred under Regulation 66(10), and statutory levies charged to the investors.

- No charges other than the base expense ratio, brokerage cost, transaction cost, statutory levy and exit load including levies as may be specified by the Board, shall be charged to the investors.
- Any expenditure in excess of the base limits specified in the SEBI (MF) Regulations shall be borne by the AMC or Trustee or Sponsor. If any expense of the scheme is borne by the AMC or by the Trustees or Sponsor, the same shall be done only after the investment and advisory fees charged to the scheme, if any, is fully reversed.

Pursuant to Para No. 11.9.1. of SEBI Master Circular for Mutual Funds dated March 20, 2026, the AMC shall annually set apart at least 0.02% of daily net assets of the Scheme for investor education, awareness and financial inclusion initiatives within the maximum Base Expense Ratio limits specified for mutual fund schemes under Regulation 66(7) of SEBI (MF) Regulations.

Following AUM slab wise base expense ratio limits shall be applicable to the Scheme:

Assets under management Slab (In Rs. crore)	Base Expense Ratio Limits
on the first Rs.500 crores of the daily net assets	2.10%
on the next Rs.250 crores of the daily net assets	1.90%
on the next Rs.1,250 crores of the daily net assets	1.60%
on the next Rs.3,000 crores of the daily net assets	1.50%
on the next Rs.5,000 crores of the daily net assets	1.40%
On the next Rs.40,000 crores of the daily net assets	Expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof.
On balance of the assets	0.95%

Additional Commission to Distributors:

Pursuant to Para No. 11.6 of SEBI Master Circular for Mutual Funds dated March 20, 2026, as amended from time to time, Mutual Fund distributors who mobilize new investments / inflows from the following categories of investors at the mutual fund industry level shall be eligible for additional commission:

- (a) new individual investors (new PAN) from B-30 cities;
- (b) new women individual investors (new PAN) from both T-30 and B-30 cities.

Investment in the name of minor child is excluded from the applicability of incentive payment.

The structure of such additional commission shall be as under:

Investment Mode	Commission Structure
Lump Sum Investment	1% of the amount of the first application subject to a maximum of ₹2,000, provided the investor remains invested for a minimum period of one year
Systematic Investment Plan (SIP)	1% of the total investment made during the first year, subject to a maximum of ₹2,000

The additional distribution commission shall be paid from the 2 basis points on daily net assets, mandated to be set apart annually by AMCs for investor education, awareness and financial inclusion initiatives, subject to adequate claw back provisions. Such commission shall be in addition to the existing trail commission paid to the distributor from the scheme; and shall be granted only once per PAN, and no dual incentives shall be allowed in respect of the same investor or the same investment. The additional commission shall be paid after the period of completion of 1 year from the date of allotment of units.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid/ charged under Direct Plan.

The Fund will disclose the Total Expense Ratio (TER) of the Scheme on a daily basis on the website of the AMC (www.QuantumAMC.com) and of AMFI (www.amfiindia.com). Any change in the Base Expense Ratio charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change. Investors can refer the aforesaid notice on the AMC website at the link: <https://www.quantumamc.com/total-expense-ratio>.

ILLUSTRATION OF IMPACT OF EXPENSE RATIO ON SCHEME'S RETURN:

Particular	Regular Plan	Direct Plan
Opening NAV at the beginning of the year (Rs.) (a)	100	100
Closing NAV before charging expense at the end of the year (b)	112	112
Scheme's gross returns for the year	12%	12%
Expense Charged during the year (other than Distribution Expenses/ Commission) (Rs.) (c)	1	1
Distribution Expenses/ Commission charged during the year (Rs.) (d)	0.15	0
NAV after charging expense (b-c-d)	110.85	111
Net Return to the Investor	10.85%	11%

The purpose of the above illustration is to explain the impact of expense ratio of the scheme. Above calculations are based on assumed NAV and Expenses. The actual NAV, expenses and return on your investment may be more or less.

D. LOAD STRUCTURE

Pursuant to Para No. 11.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026, there shall be no entry load charged to the scheme of the Mutual Fund.

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.QuantumAMC.com) or may call at toll free no. (1800-22-3863 /1800-209-3863) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load/ Switch Out Load:	
10% of units If redeemed or switched out on or before 365 days from the date of allotment.	NIL
Remaining 90% of units if redeemed or switched out on or before 365 days from the date of allotment.	1
If redeemed or switched out after 365 days from the date of allotment	NIL

Redemptions / Switch outs of units will be done on First In First Out (FIFO) basis. The above-mentioned load structure shall be equally applicable to the special facilities such as Systematic Withdrawal Plan (SWP) / Systematic Transfer Plan (STP) and Switches etc. However, no load shall be charged for switching between option / plan within the Scheme.

The AMC/ Trustee reserves the right to change / modify the Load structure, if it so deems fit, in the interest of smooth and efficient functioning of the Scheme subject to provisions of SEBI (MF) Regulations. Any imposition or enhancement in the Load shall be applicable on prospective investments only.

For any change in load structure, the AMC will issue an addendum and display it on the website/Investor Service Centers.

The repurchase price shall not be lower than 97% of the NAV subject to SEBI (MF) Regulations, as amended from time to time.

I. Introduction

A. Definitions/interpretation

Please refer the link: [https://www.quantumamc.com/FileCDN/Pdf/Combined definitions & interpretations.pdf](https://www.quantumamc.com/FileCDN/Pdf/Combined_definitions_&_interpretations.pdf)

B. Risk Factors

Scheme specific risk factors:

- **Ethical Investing Risk:**

Ethical principles and their interpretations have evolved over a period of time and will continue to evolve going forward. In the pursuit to encompass most ethical principles in spirit, the AMC shall seek to gain guidance from an ethical advisor on the principles (as may be practically possible) and for interpretation of the principles. There may be more than one interpretation of the Ethical principles, the scheme shall always be guided by the advice and interpretation provided by the Advisor and or the best of its interpretation. Ethical principles and their interpretations have evolved over a period of time and will continue to evolve going forward. The AMC shall incorporate the same to the best of its knowledge and guidance.

The Scheme will invest only in Securities which will meet the Ethical Set of Principles as defined in the SID. The Fund Manager will review the various disclosures made by the companies and will do due diligence of the companies as part of the research process. The Fund Manager will exit from the securities on identification of variation / deviations in compliance of the Ethical Set of Principles as per the investment process. This may restrict the scheme to sell such securities as desired price.

- **Liquidity risk:**

- Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to its inability to liquidate the cash equivalents in time could cause the Scheme to miss certain investment opportunities resulting, at times, in potential losses to the Scheme.

- **Equity and equity-related risk**

- The Mutual Fund is not guaranteeing or assuring any returns. The trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. In the event investments are made in unlisted securities, the ability to liquidate such investments would be further limited. Along with liquidity risk, the NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.

The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems.

- **Price risk**

- The inclusion or exclusion of security depends entirely on the integration of Ethical principles and a comprehensive analysis of the company based on the integrity criteria. Hence, the buying or selling of a security is independent of valuations. Therefore, the price risk is comparatively higher.

- **Allocation risk**

- In the scheme, the portfolio allocations (or weights) are done on two levels: one on sector level and second at security level. The sectoral allocations in the Scheme will track the sectoral allocations of a broad well-diversified index subject to ethical screening and integrity performance to ensure portfolio diversification. Therefore, the underlying security allocation may be under or overweight as compared to that in the broad well-diversified Index. There is a risk that the returns from the Scheme may not be exactly equivalent to the returns from the broad well-diversified Index.

- **Concentration Risk:**

The Scheme will invest in certain securities of certain companies, industries, sectors, based on its investment objective and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

Risk Factors Associated with Fixed Income and Money Market Instruments:

- **Interest Rate Risk/Market Risk:**

Changes in interest rate may affect the Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in the fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk or Default Risk:**

Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

- **Liquidity Risks:**

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.

- **Concentration Risk:**

The Scheme will invest in certain securities of certain companies, industries, sectors, asset type etc. based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion

of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

- **Settlement Risk:**

Different segments of the financial markets have different settlement cycle/periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.

- **Re-investment Risk:**

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows than earlier assumed.

Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

- **NAV Performance Risk:**

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc

Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme shall be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances. Different types of securities in which the Scheme would invest as stated in the offer document carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern.

E.g. corporate bonds carry a higher amount of risk than Government securities. Further even amongst corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

Lower rated or unrated securities are more likely to react to developments affecting the market and carry a higher credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities. The Investment Manager will consider both credit risk and market risk in making investment decisions.

The Scheme will endeavour to invest in highly researched securities offering relative yield for the commensurate risks. However, the erosion in the value of the investments/portfolio in the case of the debt markets passing through a bearish phase is a distinct possibility.

The NAV of the Scheme is largely dependent on the performance of the various debt instruments wherein the investment has been made which may fluctuate from time to time. The Scheme may use techniques and instruments for efficient portfolio management and attempt to hedge or reduce the risk of such fluctuations. However, these techniques and instruments if imperfectly used have the risk of the Scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any).

Besides, fact that skills needed to use these instruments are different from those needed to select the Scheme's securities. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase/redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

Risk associated with REITs/InvITs:

- **Interest Rate Risk/Market Risk:** Changes in interest rate may affect the Scheme's net asset value. Generally, the REITs/InvITs are valued on annuity model, and the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. REITs /INVITs securities markets can be volatile leading to the possibility of price movements up or down and thereby to possible movements in the NAV.
- **Credit Risk or Default Risk:** Credit risk or Default risk refers to the risk that an issuer of a REIT or INVIT instrument may default (i.e. the issuer will be unable to make timely distributions). Because of this risk, investors may demand higher dividend or payout yield. Normally, the value of a REITs/INVITs instruments will fluctuate depending upon the changes in the perceived level of such risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.
- **Liquidity Risks:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.
- **Concentration Risk:** The Scheme will invest in certain securities of certain companies, industries, sectors, asset type etc. based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.
- **Settlement Risk:** Different segments of the financial markets have different settlement cycle/ periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.

- **Counterparty Risk:** This risk refers to default from counterparty at the time of settlement due to mismatch or inadequate cashflows for distribution. This risk emerges during economic slowdown or upon losing a tenant(s) or default by existing tenant(s) that causes missing or delaying a payout to unitholders.
- **NAV Performance Risk:** The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc.

Risk Associated with Investments in Gold ETF:

Although, the units of Gold ETF chosen for investing, will be listed on the Stock Exchange, there can be no assurance that an active secondary market will be maintained. The market price of ETF units, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the unit (or NAV) and (2) demand and supply of units in the market. Sizeable demand or supply of the units in Exchange may lead to market price of the units to quote at premium or discount to NAV.

Trading in the ETF units on the Exchange may be halted because of market conditions or market volatility and subject to exchange regulations. There can be no assurance that the requirements of Exchange necessary to maintain the listing of ETF units will continue to be met or will remain unchanged.

Any changes in trading regulations by the Stock Exchange(s) or SEBI may affect the ability of Authorized Participant to arbitrage resulting into wider premium / discount to NAV. Any changes in the regulations relating to import and export of gold or gold jewellery (including customs duty, GST and any other statutory levies) may affect the ability of the scheme to buy/sell gold against the purchase and redemption requests received.

The formula for determining NAV of the units of Gold ETF is based on the imported (landed) value of gold. The landed value of gold is computed by multiplying international market price by US dollar value. The value of Gold or NAV therefore will depend upon the conversion value of US dollar into Indian Rupees and attracts all the risks attached to such conversion. Tracking error may have an impact on the performance of ETF.

The NAV of the units in Gold ETF is determined based on the formula for valuation of gold prescribed by SEBI whereas the actual price of gold in the domestic market may be different from the value of gold arrived based on the prescribed formula.

Gold ETFs would ordinarily repurchase Units in Creation Unit Size. Thus, Unit holding less than Creation Unit Size can only be sold through the secondary market on the Exchange. Further, the price received upon the redemption of Units of Gold/Silver ETFs may be less than the value of the gold/silver represented by them.

C. Risk mitigation strategies

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations.

The Fund has identified the following Risks as laid above and designed Risk Management Strategies which is the part of the Investment Process to manage such risks.

Risk Associated with Equity & Equity Related Instruments:

Types of Risk	Risk Management Strategies
Quality risk: Risk of investing in unsustainable /weak companies	Investment universe is selected through Quantum’s Ethical Set of Principles including of Shairah, Jainism & Integrity framework after due diligence based on the quality of business, management capabilities, nature of industry, history of the company, promoter background etc. and the Investment Team will also endeavor to meet company officials to get an update on the information about the companies.
Price risk: Risk for overpaying for a company	The investment process is not driven by valuation considerations, but emphasis is on diversification in varied sectors and investing in sustainable business that are financially sound to drive long term performance.
Concentration risk:	The concentration risk and volatility risk both are managed through diversification. The investments are made across various sectors to diversify and within the sector; there is a limit on the allocation to each stock at maximum 5% at cost and 10% at market value.
Liquidity risk: High impact cost	The Investments are made only in such stocks which has high trading volume in the market.
Volatility risk: price volatility due to company or portfolio specific factors	External factors like liquidity flows, changes in the business environment, economic policy, corporate governance etc. contributed largely to the volatility. The scheme will manage volatility risk through diversification.

Risk Associated with Debt & Money Market Instruments:

Types of Risk	Risk Management Strategies
Interest Rate Risk	<p><i>Measured through Average Maturity/ Duration / Portfolio Sensitivity to interest rate changes.</i></p> <p>Since the Scheme can invest in short term and long-term instruments; interest rate risk is inherent in the portfolio.</p> <p>The management of interest rate risk is then a function of the quality of the fixed income research inputs and the active investment management strategy.</p> <p>Since the Scheme will not invest in derivatives, the management of interest rate risk would be achieved by altering the Scheme maturity profile at appropriate times.</p>

<p>Credit and Default Risk</p>	<p><i>Measured through Portfolio credit quality. % allocation to instruments rated AAA / AA and so forth</i></p> <p>The Scheme broad asset allocation limits the investments in debt instruments issued by private (non-government) companies. This reduces the inherent credit / default risk of the portfolio.</p> <p>The internal guidelines of the AMC also limit the investment in lower rated instruments. The Scheme has to necessarily invest a major portion of its investments in government bonds and/or PSU Bonds thus lowering the overall credit risk in the portfolio.</p>
<p>Liquidity Risk</p>	<p><i>Measured through Trading Data / Portfolio Liquidity Report.</i></p> <p>With the overall improvement in the reporting and transparency of traded market data of all debt and money market instruments, the Investments Team can gauge the liquidity of individual instruments in the portfolio. By this, the Scheme can also determine the time taken to liquidate the position based on historical traded data.</p> <p>A portfolio liquidity report can help address any illiquid securities in the portfolio.</p>
<p>Concentration Risk</p>	<p><i>Measured through Portfolio holdings report and unit holder report</i></p> <p>Quantum Mutual Fund has a well laid out investment policy, applicable to all its debt schemes, which has set pre-defined limits of exposure to each security based on its maturity and credit profile.</p> <p>This ensures that the portfolio is not overly concentrated to one issuer or industry.</p> <p>The other concentration risk of few investors holding a large share of the schemes corpus is addressed in some measure by SEBI's rule of 20/25.</p> <p>Adequate portfolio liquidity can also help limit the losses due from large portfolio redemption.</p>
<p>Counterparty risk</p>	<p><i>Measured through single counterparty exposure</i></p> <p>The Fund has single party counter-party limits to limit the damages from a failed settlement or delayed settlement by counterparty.</p> <p>Counterparty risk is also a function of the nature of the instrument and mode of settlement being followed.</p> <p>For instance, in government securities, the settlement of all trades are done through a clearing corporation thus ensuring lower likelihood of failed settlements and counterparty risk.</p>
<p>Settlement Risk</p>	<p><i>Measured through post trade failure in settlements</i></p>

	<p>Government securities, T-bills, SDLs, TRI-Party Repo are now settled through a counter party clearing mechanism operated and managed by CCIL (clearing Corporation of India Ltd). This has vastly reduced settlement failures in these securities.</p> <p>Although, corporate bonds are still settled on a DVP basis, but the trades are now routed through a clearing corporation. This limits settlement failures arising out of a bilateral settlement.</p> <p>Our counterparty exposure norms also limit the risks of a failed settlement on the overall portfolio.</p>

Risk associated with REITs/InvITs:

Types of Risk	Risk Management Strategies
Interest Rate Risk	Change in interest rates can lead to rise/fall in securities prices. Extent of the fall will be determined by duration of the cash flows, higher the duration steeper the rise/fall. Interest rate risk will be mitigated by diversification across securities and duration.
Credit and Default Risk	Higher debt burden or interest outgo can impact cash flows of the REIT/INVIT. This can lead to higher credit or default risk. The Scheme investment strategy limits the investments in REIT/InvIT instruments reduces the inherent credit / default risk of the portfolio.
Liquidity Risk	With the overall improvement in the reporting and transparency of traded market data of all debt and money market instruments, the Investments Team can gauge the liquidity of individual instruments in the portfolio. By this, the Scheme can also determine the time taken to liquidate the position based on historical traded data.
Counterparty Risk	The Fund has single party counter-party limits to limit the damages from a failed settlement or delayed settlement by counterparty. Counterparty risk is also a function of the nature of the instrument and mode of settlement being followed.

Risk Associated with Investments in Gold ETF

Type of Risks	Risk Management strategies
Tracking Error Risk – Risk of deviating away from the investment objective of tracking gold prices	The underlying invested ETF scheme will follow a passive investment approach. The underlying Fund may not attempt to time the market.
Price Risk - The risk that the value of an investment may decline due to adverse movements in market prices.	Gold ETF returns are directly linked to gold prices; therefore, a decline in gold prices can lead to a corresponding decline in the ETF's value and investor returns.

Custody Risk – There is a risk that part or the entire scheme’s gold could be lost, damaged or stolen.

To ensure the highest safety Gold is stored with renowned vaulting agencies in their professional vaults. Gold held by Quantum Gold ETF - the underlying Fund is fully insured.

8. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-

- (i) such transfers are done at the prevailing market price for quoted instruments on spot basis

Explanation: spot basis shall have the same meaning as specified by Stock Exchange for spot transactions

- (ii) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

9. The Scheme may invest in another scheme(s) under the same mutual fund or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes of the mutual fund under the same management or in schemes under the management of any other AMC shall not exceed 5% of the net asset value of the Mutual Fund.

10. The Scheme shall abide by the following guidelines for parking of funds in short term deposits pursuant to Para No. 13.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026.

- (i) "Short Term" for parking of funds shall be treated as a period not exceeding 91 calendar days.

- (ii) Such short-term deposits shall be held in the name of the Scheme.

- (iii) The Scheme shall not park more than 15% of the net assets in short-term deposit(s) across all the scheduled commercial banks. However, such limit may be extended to 20% with prior approval of the Trustees.

- (iv) Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.

- (v) The Scheme shall not park more than 10% of the net assets in short-term deposit(s), with any one scheduled commercial bank including subsidiaries.
 - (vi) The Scheme shall not park funds in short-term deposit of a bank, which has invested in the Scheme. Trustees/ AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.
 - (vii) No investment management and advisory fees will be charged for such investments in the respective Scheme.
10. The Scheme shall not make any investments in:
- a. any unlisted security of an associate or group company of the Sponsors;
 - b. any security issued by way of private placement by an associate or group company of the Sponsors;
 - c. the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets;
 - d. any fund of funds scheme.
11. The Scheme shall not invest more than 10% of its NAV in case of the equity shares or equity related instruments of any company.
12. The Scheme shall only invest in equity shares or equity related instruments which are listed or to be listed.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. All investment restrictions shall be applicable at the time of making investment.
