- **SIP Top-Up Facility**

Systematic Investment Plan (SIP) Top- Up Facility is a facility wherein an investor who is enrolling for SIP has an option to increase the amount of the SIP instalment by a fixed amount at pre-defined intervals. Thus, investors can progressively start increasing the amount invested, allowing investors to gradually increase the investment corpus in a systematic manner.

Frequency	Period	Minimum Top Up Amount
Monthly SIP	Half Yearly / Yearly	Rs.500/- and multiple of Rs.500/-
Quarterly SIP	Yearly	

- **SIP Pause Facility**

The SIP Pause Facility is available for investors to pause their existing SIP for a temporary period without discontinuing it. The SIP would restart from the immediate next instalment after completion of the pause period specified by the investor. Investors can pause SIPs with a monthly frequency for either 3 months or 6 months, for SIP amounts of ₹500 and above. This facility is available only for ongoing SIPs and is not available for SIPs categorized as Choti SIP. Once the request for opting the pause facility is submitted, investor will not be able to cancel the same.

- **Systematic Transfer Plan (STP)**

A plan enabling investors to transfer a fixed amount at periodic intervals into other schemes of Quantum Mutual Fund.

Frequency	Eligible Dates	Minimum Amount Per Instalment	Minimum Instalments
Daily	All Business days	Rs. 500 and multiple of Rs. 500 thereafter	30 instalments
Weekly	Any day of the week	Rs. 500 and multiple of Rs. 500 thereafter	10 instalments
Fortnightly	Any day of alternative Week	Rs. 500 and multiple of Rs. 500 thereafter	10 instalments
Monthly	Any date (except 29, 30,31 st)	Rs. 500 and multiple of Rs. 500 thereafter	12 instalments
Quarterly	Any date (except 29, 30,31 st)	Rs. 500 and multiple of Rs. 500 thereafter	12 instalments
Minimum balance to start STP: Rs.5000/-			

- **Systematic Withdrawal Plan (SWP)**

A plan enabling investors to withdraw sums from their unit accounts in the Scheme at periodic intervals.

Frequency	Eligible Dates	Minimum Amount Per Instalment	Minimum Instalments
Weekly	Any day of the week	Rs. 500 and in multiple of Re. 1 thereafter	10 instalments

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The asset allocation under the Scheme, under normal circumstances, will be as follows:

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Equity & Equity Related Instruments*	80	100
Equity & Equity Related Instruments other than above including REITs	0	10
Debt & Money Market Instruments	0	20

In accordance with the ELSS Guidelines, investments by the Scheme in equity and equity related Securities will not fall below 80% of the net assets of the Scheme.

*Equity & equity related instruments shall mean all those instruments which are permitted as per ELSS Guidelines from time to time and shall include equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of 12 (twelve) months.

Pursuant to Para No. 13.18.1. of the SEBI Master Circular for Mutual Funds dated March 20, 2026, the cumulative gross exposure through Equity & Equity Related Instruments, Debt & Money Market Instruments, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net asset of the Scheme.

Pursuant to Para No. 13.18.6. of the SEBI Master Circular for Mutual Funds dated March 20, 2026 read with SEBI letter no. SEBI/HO/IMD-II/DOF3/ OW/P/2021/31487/1 dated November 03, 2021, cash and cash equivalents which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 calendar days, shall not be considered for the purpose of calculating gross exposure limit.

The Scheme may enter into repos/reverse repos as may be permitted by RBI/SEBI. From time to time, the Scheme may hold cash. A part of the net assets may be invested in the Tri-party Repos on Government Securities or Treasury Bills (TREPS) or repo as may be provided by RBI to meet the liquidity requirements, subject to regulatory approval, if any.

Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the AMC, the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations in accordance with Para No. 1.9.1. (b) of SEBI Master Circular for Mutual Funds dated March 20, 2026. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 calendar days. However, at all the times the portfolio will adhere to the overall investment objective of the Scheme.

Portfolio Rebalancing in case of Passive Breach

Pursuant to Para No. 3.11. of SEBI Master Circular for Mutual Funds dated March 20, 2026, in the event of deviation from the above asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the rebalancing shall be done within 30 Business Days. In case the rebalancing is not done within 30 Business Days, then justification in writing including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 Business Days from the date of completion of mandated rebalancing period (i.e. 30 Business Days).

In case the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall:

- i. not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- ii. not levy exit load, if any, on the investors exiting from the scheme.

The AMC shall report the deviation to Trustees at each stage. The reporting to Trustees shall be initiated immediately after the expiry of the mandated rebalancing period (i.e. 30 Business Days). Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme, the AMC shall immediately after the expiry of the mandated rebalancing period (i.e. 30 Business Days):

1. disclose the same to the investors through SMS and email / letter including details of portfolio not rebalanced.
2. communicate to investors through SMS and email / letter when the portfolio is rebalanced.

Deviation of the portfolio, beyond the specified limits, from the mandated asset allocation beyond 30 Business Days shall also be disclosed on the website of the AMC.

The AMC shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.

B. WHERE WILL THE SCHEME INVEST?

Subject to the SEBI (MF) Regulations and the disclosures as made under the Section “HOW WILL THE SCHEME ALLOCATE ITS ASSETS?”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities / instruments:

- (a) Equity and Equity Related Instruments as stated above
- (b) Equity and Equity Related Instruments other than above, including REITs
- (c) Debt & Money Market Instruments
- (d) Any other securities / asset class / instruments as permitted under SEBI (MF) Regulations in line with the Investment Objective of the Scheme subject to regulatory approval, if any required.

Pending deployment of funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of Scheduled Commercial Banks, subject to the guidelines issued by SEBI vide Para 13.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026, as may be amended from time to time.

The Inter Scheme Transfer of securities from one scheme to another scheme of the Mutual Fund shall be made in accordance with the provisions of Para No. 13.19. of the SEBI Master Circular for Mutual Funds dated March 20, 2026 pertaining to Inter Scheme Transfer of Securities (IST).

C. WHAT ARE THE INVESTMENT STRATEGIES?

Investment Philosophy/Strategy

The investment strategy of the Mutual Fund will be to invest in companies it believes are attractively priced in the market when compared to the Investment Manager's valuation of the company. The Investment Manager's valuation will be based on a number of factors, including the Investment Manager's assessment of the skill and expertise of the company's management team and the long term potential for both the company and the sectors in which it operates. Such opportunities may arise for a variety of reasons ranging from the belief that the markets have undervalued a company, to an assessment that there is opportunity for significant profit or market share growth given the dynamics of the sector a company operates in, or as a result of the company's competitive or proprietary advantages.

The investment strategy of the Scheme will be to invest in a basket of stocks after using intensive fundamental analysis, both quantitative and qualitative, monitor the portfolio actively but not so as to engage in excessive trading, and control risk by keeping the portfolio adequately diversified (both in terms of the sectors included in the portfolio as well as with respect to the level of concentration of any particular investment).

The primary focus of the Scheme will be on companies that will typically be included in the BSE 200 Index. Valuations will be developed based on the business of the company, the environment in which it operates the skills and resources of its management, the strength of its balance sheet and cash flow relative to its long-term goals, and other fundamental sector criteria. Investments will be made in companies whose shares are undervalued when compared to long-term valuation expectations. Investments will be sold when the Investment Manager believes the market price of the shares has exceeded its assessment of the long-term value

of that company, or if there are adverse changes to that company's management, prospects or the markets in which that company operates. This evaluation against market prices will tend to be based on fundamental criteria (Dividend yields, price to earnings, price to cash flow, price to book value, and other different measures of share price ratios), relative to a company's peer group, its history and the overall equity markets.

Market liquidity will be an important tool to mitigate investment risk. Accordingly, a number of the companies in the portfolio may be included in the BSE 200 Total Return Index that the Investment Manager will use as a benchmark, but this will not be a criterion for including a company in the Scheme's portfolio and the portfolio may not include some of the companies in the BSE 200 TRI. There may, however, be situations where other factors make an investment attractive enough to cause the Investment Manager to purchase a stock despite a relatively low level of liquidity in that stock. In addition, as noted above, the Scheme may invest in companies to be listed where the Investment Manager believes that a listing is likely within 3 years from the date of the investment.

Investment Portfolio

The Scheme's investment portfolio typically will consist of investments made in shares of "Indian companies" (defined as a company that is listed on a stock exchange in India or elsewhere and, if not located in India, has over 50% of its assets, revenues, or profits generated from operations in India). The Scheme will invest primarily in equity securities of Indian issuers listed on an Indian stock exchange, or on an approved over-the-counter exchange, including in the form of Depository Receipts. From time to time the Scheme may also invest in the shares of companies that are to be listed. The Board of the AMC will from time to time review and approve the overall investment policy and strategy of the portfolio held by the Scheme. The Scheme will be subject to the investment restrictions prescribed under the SEBI (Mutual Fund) Regulations 2026 and the ELSS Guidelines.

While the majority of the assets will be invested in the equity securities of Indian companies, the Scheme may also invest in debt and money market instruments for the purpose of having liquidity.

Generally speaking, the portfolio will tend to include shares of 25 to 40 different companies, and the investment in shares of any one company will tend to be in the range of 2% to 6% of the Scheme's net assets. Particular sectors or industries will not be a significant factor in the decision to add a company to the Scheme's portfolio.

The Fund might also have exposure to REITs depending on the opportunities that broad markets provide from time to time.

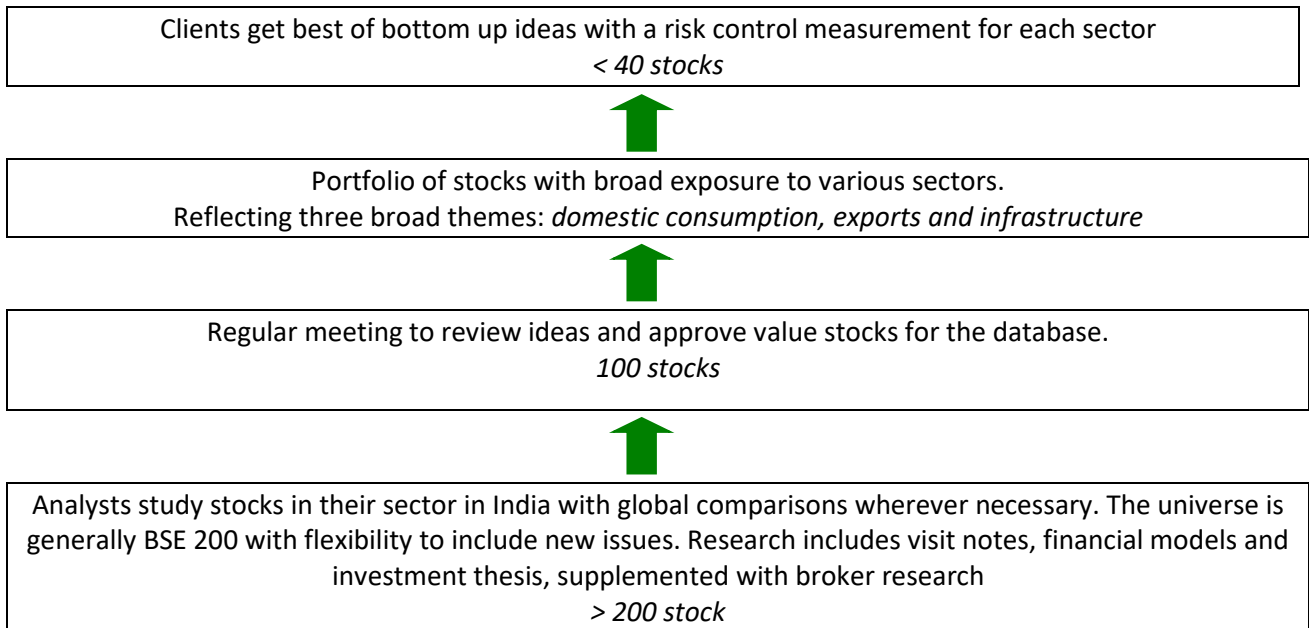

INVESTMENT PROCESS

The investment process consists of:

1. Stock selection
2. Portfolio construction

1. STOCK SELECTION

The AMC's stock selection approach is basically bottom up and is depicted below:

2. PORTFOLIO CONSTRUCTION

1. Stock liquidity shall be over US \$1 Million average daily trading volume over the last 1 year period.
2. Stock has to be under active and current coverage.
3. Every stock in the AMC's database has a pre - assigned Buy / Sell Limit. This is an INR price based on underlying fundamental sector criteria.
4. The AMC generally buys a new stock at the pre-determined Buy price (or below) and generally sells an existing stock at the pre-determined Sell price or above. Generally, it may add to a stock the Scheme already owns if it is between the pre-determined Buy and Sell price.
5. For the sake of a benchmark the AMC uses the BSE 500 Total Return Index and BSE 200 Total Return Index as Tier I & Tier II benchmark respectively. The AMC is indifferent to whether a stock, the Scheme owns, is in the BSE 500 Total Return Index / BSE 200 Total Return Index or not although it recognizes its effect on liquidity.
6. The AMC does not make sector calls. It makes stock calls.
7. With a range of 25 to 40 stocks the Scheme's average holding is likely to be 2.5% to 4.0% per stock and the portfolio turnover is expected to be 40% suggesting a 2.5-year average holding period.

The Scheme will adopt a long-term approach to investing, typically holding stocks for a 2 to 3 year's period, suggesting an average portfolio turnover of between 33% and 50% subject to market conditions. For several of the stocks in the portfolio, the holding period has been longer than 3 years, resulting in lower turnover. The goal of the Scheme is not to achieve an absolute return but, instead, will aim to outperform the benchmark BSE 500 Total Return Index.

PROCEDURE AND RECORDING OF INVESTMENT DECISIONS

The investment decisions are made by the AMC's Portfolio/ Investment Team. The Portfolio / Investment Team comprises of the Fund Managers. The final responsibility for the investment decisions rests with the Portfolio / Investment Team. The Equity Research team meets on a regular basis, with the research analysts presenting research reports on various stocks. The Portfolio / Investment Team reviews the research reports / presentations on the various stocks and keeping in mind the investment objective of the Scheme makes the investment decisions, recording the reasons and justification for each investment decision. The investment decision of the scheme will be carried out by the designated Fund Manager.

The Chief Executive Officer is not involved in the investment decision making process.

It is the responsibility of the AMC to ensure that the investments are made as per the Internal / Regulatory guidelines, Scheme's investment objective and in the best interest of the Unit holders of the Scheme.

All investment decisions shall be recorded in accordance with provisions of Para No. 7.16. of SEBI Master Circular for Mutual Funds dated March 20, 2026, or as may be amended by SEBI from time to time.

PERFORMANCE MEASUREMENT AND REPORTING

The Investment Committee of the AMC at its regular meeting(s) shall review performance of the Scheme, compliance of the various investment restrictions and compliance with the investment objectives stipulated in the Scheme Information Document in accordance with SEBI (MF) Regulations.

The Fund Manager(s) will present the performance of the Scheme to the Board of the AMC and Trustees at their respective periodical Board Meetings.

The Board of AMC and Trustee will review the performance of the Scheme in comparison to the performance of Benchmark and industry peers.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Tier I Benchmark – BSE 500 TRI

Tier II Benchmark - Demonstrating Investment Style / Strategy of the Fund Manager - BSE 200 TRI

The benchmark is representative of Fund's Investment Objective and Asset Allocation and most suited for comparison for performance of the scheme.

The Tier II Benchmark demonstrates Investment Style / Strategy and represents closely resemble the investment objective of the scheme.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the Investment Objective & Asset Allocation of the Scheme and the appropriateness of the benchmark.

*Average NAV (i.e. Market Value/units)

The Investment includes investments made under Alignment of Interest by Designated Employees in terms of SEBI Master Circular for Mutual Funds dated March 20, 2026.

For investments by key personnel and AMC directors including regulatory provisions in this regard, kindly refer the SAI.

vii. INVESTMENTS OF AMC IN THE SCHEME

The AMC may invest in the Scheme at any time during the continuous offer period subject to the SEBI (MF) Regulations & Circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI (MF) Regulations, the AMC will not charge investment management and advisory fees on the investment made by it in the Scheme.

Further, the AMC shall, based on the risk value assigned to the scheme, invest minimum amount as a percentage of assets under management of the scheme, pursuant to Para No. 7.13.1. of SEBI Master Circular for Mutual Funds dated March 20, 2026. For details of such investments please refer the link: <https://www.quantumamc.com/fileCDN/pdf/MUTUAL-FUND-INVESTMENT-SCHEMEWISE-DATA.pdf>

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit will be computed by dividing the net assets of the Scheme/Plan/Option by the number of units outstanding under the Scheme/Plan/Option on the valuation date.

The Net Assets Value (NAV) per unit under the Scheme/Plan/Option shall be calculated as follows:

$$\text{NAV (₹)} = \text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including accrued income} - \text{Current Liabilities and Provisions including accrued expenses}$$

$$\text{No. of Units outstanding under Scheme/Plan/Option}$$

The numerical illustration of the above method is provided below:

Market or Fair Value of Scheme's investments (Rs.) = 10,00,000

Current Assets (Rs.) = 1,00,000

Current Liabilities and Provisions (Rs.) = 50,000

No. of Units outstanding under the Scheme = 1,00,000

$$\text{NAV per unit (Rs.)} = \frac{10,00,000 + 1,00,000 - 50,000}{1,00,000} = \frac{10,50,000}{1,00,000} = 10.50$$

The NAV will be calculated and disclosed on all Business Days by 11.00 p.m. The repurchase price shall not be lower than 97% of the NAV subject to SEBI (MF) Regulations, as amended from time to time. For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to SAI.

Sale (Subscription) and Repurchase (Redemption) Price Illustration:

Assumed NAV Rs.11.00 Per Unit, Entry Load – Nil, Exit Load – 1%

Sale Price = NAV + (Entry Load (%) (if any) * NAV)

Sale Price = 11 + (0% * 11)

Sale Price = 11 + 0

Sale Price = Rs.11/-

Repurchase Price = NAV – (Exit Load (%) * NAV)

Repurchase Price = 11 – (1% * 11)

Repurchase Price = 11 – 0.11

Repurchase Price = Rs.10.89

B. NEW FUND OFFER (NFO) EXPENSES

This section does not apply to the Scheme covered in this SID, as the ongoing offer of the Scheme has commenced after the NFO and the Units are available for continuous subscription and redemption.

C. ANNUAL SCHEME RECURRING EXPENSE

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc.

The AMC may charge up to 2.10% of the daily net assets of the scheme as Base Expense Ratio (BER). For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund (www.QuantumAMC.com).

Expense Head	% of daily Net Assets

Cost towards investor education, awareness and financial inclusion	
Costs of statutory advertisements	
Other expenses (as per Regulation 66 of SEBI MF Regulations)	
Maximum Base Expense Ratio (BER) permissible under Regulation 66	Up to 2.10%
Statutory levies (including GST) on all expenses excluding brokerage and transaction cost	GST of 18% or any other rate as may be levied from time to time on the Taxable Invoice/Contract amount
Statutory levies (including GST) on brokerage and transaction cost	Additionally Levies such as Stamp Duty, STT etc

- **Brokerage Cost** for the purpose of execution of trade, over and above the Base Expense Ratio subject to a maximum of 0.06 per cent of trade value in case of cash market transactions and 0.02 per cent of trade value in case of derivatives transactions. Expense charged towards brokerage, over and above the specified limit, shall be part of the BER limit specified as above.

- **Transaction cost** incurred for the purpose of execution of a trade shall mean regulatory levies and any other expenses charged by the stock exchanges, clearing corporation, and clearing house, as applicable. Such transaction costs shall be over and above the Base Expense Ratio.

- **Statutory levy** means levy imposed by State Government and Central Government.

The total of all expenses charged to the investors of the scheme shall includes: Base Expense Ratio limit specified under Regulation 66(7); brokerage cost permitted under Regulation 66(9); transaction cost incurred for the purpose of execution of trade as referred under Regulation 66(10), and statutory levies charged to the investors.

- No charges other than the base expense ratio, brokerage cost, transaction cost, statutory levy and exit load including levies as may be specified by the Board, shall be charged to the investors.

- Any expenditure in excess of the base limits specified in the SEBI (MF) Regulations shall be borne by the AMC or Trustee or Sponsor. If any expense of the scheme is borne by the AMC or by the Trustees or Sponsor, the same shall be done only after the investment and advisory fees charged to the scheme, if any, is fully reversed.

Pursuant to Para No. 11.9.1. of SEBI Master Circular for Mutual Funds dated March 20, 2026, the AMC shall annually set apart at least 0.02% of daily net assets of the Scheme for investor education, awareness and financial inclusion initiatives within the maximum Base Expense Ratio limits specified for mutual fund schemes under Regulation 66(7) of SEBI (MF) Regulations.

Following AUM slab wise base expense ratio limits shall be applicable to the Scheme:

Assets under management Slab (In Rs. crore)	Base Expense Ratio Limits
on the first Rs.500 crores of the daily net assets	2.10%
on the next Rs.250 crores of the daily net assets	1.90%
on the next Rs.1,250 crores of the daily net assets	1.60%
on the next Rs.3,000 crores of the daily net assets	1.50%
on the next Rs.5,000 crores of the daily net assets	1.40%
On the next Rs.40,000 crores of the daily net assets	Expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof.
On balance of the assets	0.95%

Additional Commission to Distributors:

Pursuant to Para No. 11.6 of SEBI Master Circular for Mutual Funds dated March 20, 2026, as amended from time to time, Mutual Fund distributors who mobilize new investments / inflows from the following categories of investors at the mutual fund industry level shall be eligible for additional commission:

- (a) new individual investors (new PAN) from B-30 cities;
- (b) new women individual investors (new PAN) from both T-30 and B-30 cities.

Investment in the name of minor child is excluded from the applicability of incentive payment.

The structure of such additional commission shall be as under:

Investment Mode	Commission Structure
Lump Sum Investment	1% of the amount of the first application subject to a maximum of ₹2,000, provided the investor remains invested for a minimum period of one year
Systematic Investment Plan (SIP)	1% of the total investment made during the first year, subject to a maximum of ₹2,000

The additional distribution commission shall be paid from the 2 basis points on daily net assets, mandated to be set apart annually by AMCs for investor education, awareness and financial inclusion initiatives, subject to adequate claw back provisions. Such commission shall be in addition to the existing trail commission paid to the distributor from the scheme; and shall be granted only once per PAN, and no dual incentives shall be allowed in respect of the same investor or the same investment. The additional commission shall be paid after the period of completion of 1 year from the date of allotment of units.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of Units will be paid/ charged under Direct Plan.

The Fund will disclose the Total Expense Ratio (TER) of the Scheme on a daily basis on the website of the AMC (www.QuantumAMC.com) and of AMFI (www.amfiindia.com). Any change in the Base Expense Ratio charged to any scheme/plan shall be communicated to investors of the scheme/plan through notice via email or SMS at least three working days prior to effecting such change. Investors can refer the aforesaid notice on the AMC website at the link: <https://www.quantumamc.com/total-expense-ratio>.

ILLUSTRATION OF IMPACT OF EXPENSE RATIO ON SCHEME’S RETURN:

D. LOAD STRUCTURE

Pursuant to Para No. 11.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026, there shall be no entry load charged to the scheme of the Mutual Fund.

Exit Load is an amount which is paid by the investor to redeem the units for the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC www.QuantumAMC.com or may call at toll free no. (1800-22-3863 /1800-209-3863) or your distributor.

Type of Load	Load chargeable (as % of NAV)
Exit Load	NIL

The AMC/ Trustee reserves the right to change / modify the Load structure, if it so deems fit, in the interest of smooth and efficient functioning of the Scheme subject to provisions of SEBI (MF) Regulations. Any imposition or enhancement in the Load shall be applicable on prospective investments only.

For any change in load structure, the AMC will issue an addendum and display it on the website/Investor Service Centers.

The repurchase price shall not be lower than 97% of the NAV subject to SEBI (MF) Regulations, as amended from time to time.

I. Introduction

A. Definitions/interpretation

<https://www.quantumamc.com/FileCDN/Pdf/Combined%20definitions%20&%20interpretations.pdf>

B. Risk Factors

Scheme specific risk factors:

Risk Factors related to Equity and Equity Related Instruments:

By virtue of requirements under the ELSS Guidelines, Units issued under the QETSF will not be redeemed until the expiry of 3 (three) years from the date of their allotment. The ability of an investor to realize returns on investments in QETSF is consequently restricted for the first three years. Redemption will be made prior to the expiry of the aforesaid 3 (three) years period only in the event of the death of a Unit Holder, subject to the Units having been held for a period of 1 (one) year from the date of their allotment.

The Scheme proposes to invest primarily in equity and equity related securities. Equity Securities and equity-related Securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made by the Scheme may be restricted by trading volumes and settlement periods. This may impact the ability of the Unit Holders to redeem their Units. In view of this, the Trustee has the right, in its sole discretion to limit Redemptions (including suspending Redemption) under certain circumstances. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended Securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell Securities held in the Scheme's portfolio could result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of Securities held in the Scheme's portfolio. Investments in equity and equity related Securities involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment. The AMC may choose to invest in Securities which are to be listed that offer attractive yields within the regulatory limit.

Risk Related to Debt & Money Market Instruments:

- **Interest Rate Risk/Market Risk:**

Changes in interest rate may affect the Scheme's net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in the fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk or Default Risk:**

Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

- **Liquidity Risk:**

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.

- **Concentration Risk:**

The Scheme will invest in certain securities of certain companies, industries, sectors, asset type etc. based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

- **Settlement Risk:**

Different segments of the financial markets have different settlement cycle/ periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.

- **Re-investment Risk:**

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows than earlier assumed.

Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

- **NAV Performance Risk:**

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc.

Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme shall be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances. Different types of securities in which the Scheme would invest as stated in the offer document carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern e.g. corporate

bonds carry a higher amount of risk than Government securities. Further even amongst corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

Lower rated or unrated securities are more likely to react to developments affecting the market and carry a higher credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities. The Investment Manager will consider both credit risk and market risk in making investment decisions.

The Scheme will endeavour to invest in highly researched securities offering relative yield for the commensurate risks. However, the erosion in the value of the investments/portfolio in the case of the debt markets passing through a bearish phase is a distinct possibility.

The NAV of the Scheme is largely dependent on the performance of the various debt instruments wherein the investment has been made which may fluctuate from time to time. The Scheme may use techniques and instruments for efficient portfolio management and diversify to reduce the risk of such fluctuations. However, these techniques and instruments if imperfectly used have the risk of the Scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any).

Besides, the fact that skills needed to use these instruments are different from those needed to select the Scheme's securities. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase/redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

Risks associated with Securities Lending:

Securities Lending: It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the Scheme will not be able to sell such lent out securities until they are returned.

Risk associated with REITs:

- **Interest Rate Risk/Market Risk:** Changes in interest rate may affect the Scheme's net asset value. Generally, the REITs are valued on annuity model, and the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. REITs securities markets can be volatile leading to the possibility of price movements up or down and thereby to possible movements in the NAV.
- **Credit Risk or Default Risk:** Credit risk or Default risk refers to the risk that an issuer of a REIT instrument may default (i.e. the issuer will be unable to make timely distributions). Because of this risk, investors may demand higher dividend or payout yield. Normally, the value of a REITs instruments will fluctuate depending upon the changes in the perceived level of such risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

- **Liquidity Risks:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.
- **Concentration Risk:** The Scheme will invest in certain securities of certain companies, industries, sectors, asset type etc. based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.
- **Settlement Risk:** Different segments of the financial markets have different settlement cycle/ periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.
- **Counterparty Risk:** This risk refers to default from counterparty at the time of settlement due to mismatch or inadequate cashflows for distribution. This risk emerges during economic slowdown or upon losing a tenant(s) or default by existing tenant(s) that causes missing or delaying a payout to unitholders.
- **NAV Performance Risk:** The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc.

C. Risk mitigation strategies

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations.

The Fund has identified the following Risks and designed Risk Management Strategies, which is the part of the Investment Process to manage such risks.

Risk Associated with Equity & Equity Related Instruments:

Type of Risks	Risk Management Strategies
Quality risk: Risk of investing in unsustainable/weak companies	Investment universe is selected carefully, based on the quality of business, management capabilities, nature of industry, history of the company, promoter background etc. and also meet regularly companies official to update the information about the companies.
Price risk: Risk for overpaying for a company	A number of valuation tools are applied to judge the fair value of the companies and investment is made only if there is good upside in the stock price. For deciding the valuation of the companies various tools

	are considered such as history of the companies, peers over 5-10 year periods, quantitative analysis.
Concentration risk	The investments are made in stocks across a number of sectors to ensure diversification. Generally, there is stock wise limit that no investment is made more than 6% of portfolio.
Liquidity risk: High impact cost	The investments are made only in such stocks which has high trading volume in the market.
Volatility risk: Price volatility due to company or portfolio specific factors	For hedging the portfolio generally cash is used and when the stocks / markets go up sharply above the comfort level at that time stock has been sold and cash has been retained to invest for further good opportunity.
Event risk: Price risk due to company or sector specific events	Regular meetings with the companies and internal meetings of Investment team help to identify and resolve the Event Risk.

Risk Associated with Debt & Money Market Instruments:

Types of Risk	Risk Management Strategies
Interest Rate Risk	<p>Since the Scheme can invest in short term and long-term instruments; interest rate risk is inherent in the portfolio.</p> <p>The management of interest rate risk is then a function of the quality of the fixed income research inputs and the active investment management strategy.</p> <p>The management of interest rate risk would be achieved by diversification and altering the Scheme maturity profile at appropriate times.</p>
Credit and Default Risk	<p>The Scheme investment strategy limits the investments in debt instruments issued by private (non-government) companies. This reduces the inherent credit / default risk of the portfolio.</p> <p>The internal guidelines of the AMC also limit the investment in lower rated instruments. The Scheme has to necessarily invest a major portion of its investments in Treasury securities, government bonds and/or PSU Bonds thus lowering the overall credit risk in the portfolio.</p>
Liquidity Risk	<p>With the overall improvement in the reporting and transparency of traded market data of all debt and money market instruments, the Investments Team can gauge the liquidity of individual instruments in the portfolio. By this, the Scheme can also determine the time taken to liquidate the position based on historical traded data.</p>

Concentration Risk	<p>Quantum Mutual fund has a well laid out investment policy, applicable to all its debt schemes, which has set pre-defined limits of exposure to each security based on its maturity and credit profile.</p> <p>This ensures that the portfolio is not overly concentrated to one issuer or industry.</p> <p>Adequate portfolio liquidity can also help limit the losses due from large portfolio redemption.</p>
Counterparty Risk	<p>The Fund has single party counter-party limits to limit the damages from a failed settlement or delayed settlement by counterparty.</p> <p>Counterparty risk is also a function of the nature of the instrument and mode of settlement being followed.</p> <p>For instance, in government securities, the settlement of all trades are done through a clearing corporation thus ensuring lower likelihood of failed settlements and counterparty risk.</p>
Settlement Risk	<p>Government securities, T-bills, SDLs, TRI-Party Repo are now settled through a counter party clearing mechanism operated and managed by CCIL (clearing Corporation of India Ltd). This has vastly reduced settlement failures in these securities.</p> <p>Although, corporate bonds are still settled on a DVP basis, but the trades are now routed through a clearing corporation. This limits settlement failures arising out of a bilateral settlement.</p> <p>Our counterparty exposure norms also limit the risks of a failed settlement on the overall portfolio.</p>

Risk associated with REITs:

Types of Risk	Risk Management Strategies
Interest Rate Risk	<p>Change in interest rates can lead to rise/fall in securities prices. Extent of the fall will be determined by duration of the cash flows, higher the duration steeper the rise/fall. Interest rate risk will be mitigated by diversification across securities and duration.</p>
Credit and Default Risk	<p>Higher debt burden or interest outgo can impact cash flows of the REIT. This can lead to higher credit or default risk.</p> <p>The Scheme investment strategy limits the investments in REIT instruments reduces the inherent credit / default risk of the portfolio.</p>
Liquidity Risk	<p>With the overall improvement in the reporting and transparency of traded market data of all debt and money market instruments, the Investments Team can gauge the liquidity of individual instruments in the portfolio. By this, the Scheme can also determine the time taken to liquidate the position based on historical traded data.</p>

Counterparty Risk	<p>The Fund has single party counter-party limits to limit the damages from a failed settlement or delayed settlement by counterparty.</p> <p>Counterparty risk is also a function of the nature of the instrument and mode of settlement being followed.</p>

4. The Mutual Fund shall get the securities purchased/ transferred in the name of the Mutual Fund on account of the Scheme, wherever the investments are intended to be of a long-term nature.
5. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act subject to the below limits at rating level:

The scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of its NAV of the Scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to overall limit of 12% of the NAV of the Scheme for a single issuer.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-party Repos on Government securities or treasury bills (TREPS).

6. The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

Provided that the Scheme may invest in unlisted non-convertible debentures (NCDs) up to a maximum of 10% of the debt portfolio of the Scheme subject to such conditions as may be specified by SEBI from time to time.

7. The Mutual Fund under all its Scheme(s) will not own more than 10% of any Company's paid-up capital carrying voting rights.

Provided that the Sponsor of the Fund, its associate or group company including the asset management company of the Fund (through the Scheme(s) of the Fund or otherwise, individually or collectively), or any shareholder holding 10% or more of the shareholding or voting rights in the asset management company or the trustee company of a mutual fund, directly or indirectly, shall not have 10% or more of the shareholding or voting rights in the asset management company or the trustee company of any other mutual fund.

8. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-

(i) such transfers are made at the prevailing market price for quoted Securities on spot basis.

Explanation: spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.

(ii) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

9. The Scheme may invest in another scheme(s) under the same mutual fund or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes of the Mutual Fund under the same management or in schemes under the management of any other AMC shall not exceed 5% of the net asset value of the Mutual Fund.

10. The Scheme shall abide by the following guidelines for parking of funds in short term deposits pursuant to Para No. 13.7. of SEBI Master Circular for Mutual Funds dated March 20, 2026.

(i) "Short Term" for parking of funds shall be treated as a period not exceeding 91 calendar days.

(ii) Such short-term deposits shall be held in the name of the Scheme.

(iii) The Scheme shall not park more than 15% of the net assets in short-term deposit(s) across all the scheduled commercial banks. However, such limit may be extended to 20% with prior approval of the Trustee.

(iv) Parking of funds in short term deposits of associate and sponsor scheduled commercial banks

together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.

- (v) The Scheme shall not park more than 10% of the net assets in short-term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- (vi) The Scheme shall not park funds in short-term deposit of a bank, which has invested in the Scheme. Trustees/ AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.
- (vii) No investment management and advisory fees will be charged for such investments in the respective Scheme.

11. The Scheme shall not make any investments in:

- a. any unlisted security of an associate or group company of the Sponsors;
- b. any security issued by way of private placement by an associate or group company of the Sponsors;
- c. the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets;
- d. any fund of funds scheme.

12. The Scheme shall not invest more than 10% of its NAV in case of the equity shares or equity related instruments of any company.

13. The Scheme shall only invest in equity shares or equity related instruments which are listed or to be listed.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. All investment restrictions shall be applicable at the time of making investment.

C. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of Para No. 1.9. of SEBI Master Circular for Mutual Funds dated March 20, 2026:

Redemption	Units can be redeemed (sold back to the Mutual Fund) at the Redemption Price during the Ongoing Offer Period.

The redemption or repurchase proceeds shall be transferred to the unitholders within three working days from the date of receipt of valid redemption or repurchase request.

Further, as per Para No. 15.3.3. of SEBI Master Circular for Mutual Funds dated March 20, 2026, in case of exceptional circumstances, additional timelines as prescribed by SEBI/AMFI will be applicable for transfer of redemption or repurchase proceeds to the unitholders. List of exceptional circumstances along with the applicable timeframe for transfer of such proceeds is available on AMFI website.

If the redemption request amount exceeds the balance lying to the credit of the Unit Holder's said account, then the fund shall redeem the entire amount lying to the credit of the Unit Holder's account in that Scheme/Plan/option.

Where Units under a Scheme are held under both Direct and Regular Plans and the Redemption / Switch request pertains to the Regular Plan, the same must clearly be mentioned on the request (along with the folio number), failing which the request would be processed from the Direct Plan. However, when Units under the requested Option are held only under one Plan, the request would be processed under such Plan.

Redemption under dematerialized mode:

1. The investor who holds units in the demat mode is required to place request for redemption directly with the Depository Participants. The Investor should provide request for redemption to their Depository Participants along with Depository Instruction Slip and such other documents as may be specified by the Depository Participants.
2. If the investor wishes to redeem the units held in demat mode with the AMC, in such case the investor is required to convert such units in the physical mode by submitting request for Rematerialization to the Depository Participants and after conversion of such units into the physical mode to the AMC for redemption of such units.
3. The investor can also redeem units held in demat mode through Stock Exchange Infrastructure.
4. The redemption request submitted to the AMC / Registrar directly for units held in demat mode shall be rejected.
