A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme investment fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee.
- Past performance of the Sponsor / AMC / Mutual Fund does not guarantee future performance of the scheme.
- Quantum India ESG Equity Fund is the name of scheme. The name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 1,00,000/- made by it towards setting up the Fund.
- The present scheme is not a guaranteed or an assured return scheme

Scheme Specific Risk Factors

- The Scheme proposes to invest primarily in equity and equity related securities following Quantum's Environment, Social and Governance (ESG) criteria. The Scheme will, to the extent required to meet Repurchase / Redemption obligations or for want of immediate appropriate investment opportunities in equity or equity related instruments, also hold the funds in money market instruments or, subject to the limits as prescribed under the SEBI (Mutual Fund) Regulations, 1996, invest in units of liquid schemes under the Quantum AMC or any other Mutual Funds.
- Investments under the scheme may also be subject to the following risks:
 - **Liquidity risk**
 - Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to its inability to liquidate the cash equivalents in time could cause the Scheme to miss certain investment opportunities resulting, at times, in potential losses to the Scheme.
 - **Equity and equity-related risk**
 - The Mutual Fund is not guaranteeing or assuring any returns. The trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. In the event investments are made in unlisted securities, the ability to liquidate such investments would be further limited. Along with liquidity risk, the NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.
 - **Price risk**
 - The inclusion or exclusion of security depends entirely on the comprehensive analysis of the company based on the Environmental, Social and Governance criteria. Hence, the buying or selling of a security is independent of valuations. Therefore, the price risk is comparatively higher.

- **Allocation risk**

- In the scheme, the portfolio allocations (or weights) are done on two levels: one on sector level and second at security level. The sectoral allocations in the Scheme will track the sectoral allocations of a broad well-diversified index to ensure portfolio diversification. The proportion of the scheme portfolio invested in each type of security within the sector will vary depending upon a comprehensive analysis of the company based on the Environmental, Social and Governance factors impacting the company and their peer group within its sector of operations. Therefore, the underlying security allocation may be under or overweight as compared to that in the broad well-diversified Index. There is a risk that the returns from the Scheme may not be exactly equivalent to the returns from the broad well-diversified Index.

Risks associated with stock lending

- The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the Approved Intermediary, to comply with the terms of agreement entered into between the lender of securities i.e., the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the Approved Intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the Approved Intermediary.
- It may be noted that stock lending activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honor its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can also be temporary illiquidity of the securities that are lent out and the Scheme will not be able to sell such lent-out securities until they are returned.

Risk Factors Associated with Fixed Income and Money Market Instruments

- **Credit risk**

- The Scheme will hold funds in Money Market Instruments. These instruments are subject to credit risk, which is risk resulting from uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuer's ability to meet the obligations.

- **Interest Rate risk**

- Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. The price of long-term securities fluctuate more in response to such interest rate changes than short-term securities. The volatility in the prices may lead to possible movements in the NAV.

- **Reinvestment risk**

- The reinvestment risk arises from uncertainty in the rate at which cash flows from an investment may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received. These rates are subject to interest rate risk.

- **Liquidity risk**

- In case of debt instruments, the ability of resell the instrument depends on the depth of the secondary market. The secondary market in India is still developing. This could be a factor limiting the liquidity of disposing off the instrument.

- **Performance risk**

- Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme shall be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances. The Scheme will endeavor to invest in highly researched securities offering relative yield for the commensurate risks. However, the erosion in the value of the investments / portfolio in the case of the debt markets passing through a bearish phase is a distinct possibility.

Risk Associated with Investing in Liquid Schemes:

The Scheme may invest in Liquid Schemes of Mutual Funds for liquidity purpose, hence all the risk associated with the underlying liquid schemes, including performance of the underlying liquid schemes, Interest Rate Risk/Market Risk, Credit Risk or Default Risk, Liquidity and Settlement Risks, Re-investment Risk, Performance Risk etc., will therefore be applicable to the scheme. Any changes in the investment policy or the fundamental attributes of the underlying liquid schemes could affect the performance of the Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying liquid schemes.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme / Plan(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

Quantum Asset Management Company Private Limited (AMC) has received the No Objections from SEBI to provided Research Services in Equities and Fixed Income, and Research / Advisory Services in Multi Asset Allocation and Emerging Markets in the Alternative Investment field to Quantum Advisors Private Limited (Sponsor) and QIEF Management LLC (QIEF) on commercial basis.

The AMC is providing Research / Advisory Service in Equities to the Sponsor & QIEF and in Fixed Income to the Sponsor, which is non-binding and non-discretionary in nature and not in conflict of interest with the activities of Quantum Mutual Fund. QIEF use such services for categories of Foreign Portfolio Investors (FPI) as prescribed in the SEBI circular dated December 16, 2019, as amended from time to time. The AMC has process in place to prohibit access to inside information of various activities as envisaged under Regulation 24(b) of SEBI (Mutual Funds) Regulations, 1996 by segregating the Key Personnel, System and Back Office, Bank Account activity wise.

Mutual funds being vehicles of securities investments are subject to market and other risks and there can be no guarantee against loss resulting from investing in the Scheme. The various factors which impact the value of the

Schemes' investments include, but are not limited to, fluctuations in the capital markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes, etc.

The past performance of the Sponsors and their affiliates / associates is not indicative of the future performance of the Scheme. Investment decisions made by the AMC may not always be profitable.

From time to time and subject to the Regulations, the Sponsors, the mutual funds and investment companies managed by them, their affiliates, their associate companies, subsidiaries of the Sponsors and the AMC may invest either directly or indirectly in the Scheme. The funds managed by these affiliates, associates, the sponsors, subsidiaries of the Sponsors and/or the AMC may acquire a substantial portion of the Scheme's Units and collectively constitute a major Investor in the Scheme. Accordingly, Repurchase / Redemption of Units held by such funds, affiliates / associates and Sponsors may have an adverse impact on the Units of the Scheme because the timing of such Repurchase/Redemption may impact the ability of the other Unitholders to redeem their Units.

The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided for in the SAI.

Repurchase / Redemption by the Unitholder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise.

The tax benefits described in this Scheme Information Document (SID) are as available as on the date of issue of this SID under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Unitholders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unitholder is advised to consult his/her/their own professional tax advisor.

Unitholders in the Scheme are not being offered any guaranteed / assured returns and Investors are advised to consult their Legal/Tax and other Professional Advisors in regard to tax/legal implications relating to their investments in the Scheme and before making decision to invest in or Repurchase the Units.

Neither this SID nor the Units have been registered in any jurisdiction.

This SID is meant for circulation only in India and therefore has not been registered in any other jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or totally prohibited due to registration requirements and accordingly, persons who come into possession of this SID are required to inform themselves about such regulations / restrictions and to observe any such restrictions and/or compliance requirements.

The information herein is not for distribution and does not constitute an offer to buy or sell or the solicitation of any offer to buy or sell any securities or financial instruments in the United States of America ("US"), Canada and in Countries which are non-compliant with FATF Agreements, to or for the benefit of United States persons as defined under the US Securities Act of 1933, as amended, persons residing in Canada and Countries which are non-compliant with FATF Agreements. Quantum Mutual Fund Schemes / Units are not registered under the US Securities Act 1933 and the Schemes / Units are offered and sold outside the US in reliance of the exemption available under the Regulations.

The AMC shall rely on confirmation given by the investor in this regard and in no event shall members of the Quantum Group and / or their directors, officers and employees be liable for any direct, indirect, special, incidental or consequential damages arising out of any false confirmation/information provided by investors (including false information/confirmation about their residential status).

A. TYPE OF THE SCHEME

1. Type of Scheme: An open-ended Equity Scheme investing in companies following Environmental, Social and Governance (ESG) theme.
2. Category of Scheme: Thematic Scheme

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The Investment Objective of the scheme is to achieve long-term capital appreciation by investing in share of companies that meet Quantum's Environment, Social and Governance (ESG) criteria.

The sustainability objectives of the ESG strategy are:

- a. achieving positive and above-average ESG profile
- b. mitigating ESG risks and harnessing ESG opportunities, and
- c. influencing overall positive behavior by investing in companies that promote sustainable products and services.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The investment policies of the Scheme shall be as per SEBI (Mutual Funds) Regulations, 1996, and within the following guideline. The asset allocation under the Scheme, under normal circumstances, will be as follows:

Instruments	Indicative Allocation (% of Total Assets)		Risk Profile
	Minimum	Maximum	High/ Medium/ Low
Equity & Equity Related Instruments of Companies following ESG Criteria	80	100	High
Money Market Instruments and Liquid Schemes of Mutual Funds	0	20	Low

The Scheme will not invest either in Repo of Corporate Debt Securities, Securitized Debt Instruments, Foreign Securities or Derivatives.

In accordance with SEBI Circular No. CIR/IMD/DF/11/2010 dated August 8, 2010, the aggregate asset allocation will not exceed 100% of net assets of the scheme.

The Scheme, under normal circumstances, shall not have exposure of more than 50% of its net assets in stock lending. The Scheme may also not lend more than 5% of its overall stock lending exposure to any one intermediary to whom securities will be lent.

The proportion of the scheme portfolio invested in each sector will vary to track sector weights that of a broad well-diversified indices to ensure portfolio diversification. The proportion of the scheme portfolio invested in each type of security within the sector will vary depending upon a comprehensive analysis of the company based on the Environmental, Social and Governance factors impacting the company and their peer group within its sector of operations.

The above asset allocation is only indicative and may change from time to time, keeping in view the market conditions and applicable rules and regulations.

CHANGE IN INVESTMENT PATTERN

Subject to the SEBI Regulations & rebalancing period of 30 days, the asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon considerations that optimize returns of the Scheme through investment opportunities or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will endeavor to carry out rebalancing within 30 Days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of actions. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

In case of deviation from the above stated allocation table due to passive breaches (occurrence of instances not arising out of commission and omission of the AMC), the rebalancing will be done within 30 Business Days. If the rebalancing is not done within 30 Business Days, then justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee if so desires, can extend the timeline upto 60 Business Days from the date of completion of mandated 30 days rebalancing period.

E. WHAT ARE THE INVESTMENT STRATEGIES?

Investment Philosophy/Strategy

India has embarked upon a national level cleanliness movement- "Swachh Bharat Abhiyan". The aim was to clean length and breadth of country, provide cleaner natural resources, improve hygiene and health and contribute towards achieving the sustainable development goal established by the United Nations in 2015.

Supporting the mass movement for cleanliness and sustainability, Quantum India ESG Equity Fund is a step towards ensuring that investments flow into greener and cleaner business. The focus of this scheme would be on investing

in businesses, which are ensuring sustainable management of natural and human resources, diversity within the organizational structure, prudent management and socially responsible framework of business. The aim of this scheme is to provide the investors an opportunity to have an exposure to sustainable investment option.

The investment strategy determines sector weightages to reflect that of broad well diversified indices for the Indian equity markets. Further, the strategy aims to invest in companies within each sector that stand high on the Environmental, Social and Governance parameters.

The investment strategy of the Scheme will be to invest in a basket of stocks after intensive analysis on the environmental, social and governance aspects of the company. The aim is to follow a comprehensive 'ESG Framework' in order to develop deeper understanding into a company's management practices, sustainable businesses and risk profile, which would thereby help us in understanding the impact on long-term sustainability that drives performance.

The primary focus of the Scheme will be on companies based on two criteria. First is for selecting companies under coverage and second is for selecting companies in the portfolio. The first criteria are selecting companies generally trading with liquidity of minimum US \$ 1 million on an average over the last 12 months and second criteria based on their ESG score.

Each security, which is filtered on the basis of first criteria, will be scored on ESG parameters using data sources such as sustainability reports (GRI Framework), Business Responsibility Reports (BRR) and other publicly available documents. Active weights of a security within their respective sector will be determined by a composite ESG score. A higher ESG score of a security within the sector will have higher relative weight and vice versa. The selection process ensures eliminating exposure to companies that rank poorly on ESG criteria completely. The sum total of the weights of securities in a sector will equal to track sector weights of broad well-diversified indices. The allocations focus on governance and sustainability; hence will be agnostic to valuations.

The investment strategy is broadly a combination of the following ESG approaches:

- Exclusions: The investment strategy excludes companies in the sectors – Alcohol, Gambling and Tobacco.
- Integration: The investment strategy incorporates certain key financial filters that the company needs to comply with. These filters include long-term return on capital employed, leverage, and growth rates.
- Best-in-class & Positive Screening: The investment strategy is based on a positive screening and Best-in-Class approach subject to adherence of the company incorporating favorable ESG practices in core/material within each of the E, S, and G dimensions.

The contribution to 'positive environmental change', an investor might reasonably expect:

- The Scheme Fund invests in companies that meet Quantum ESG criteria and has a positive ESG score which means the company stands relatively better as compared to other companies in their sectors on their ESG performance. While evaluating companies, the Team assess if the company has gone beyond their traditional remit and have made conscious effort to recognize the environment and society as important stake holders and have achieved a reasonable progress on their environmental footprint and social recognition and contribution. The Team also look for companies efforts in adapting and mitigating climate change and thereby reducing the carbon footprint, improving the resource efficiency, water usage and waste reduction and disposal. Similarly, on the social aspects, companies should work towards being more equitable, encourage diversity, positively contribute towards the society through judicious use of CSR, encouraging worker representation and health & safety at workplace, upholding best standards for data privacy and cyber security.

- The Team do not only measure these aspects through the ESG framework but monitor and engage companies to become better at their ESG performance. One can reasonably expect a gradual improvement and many of these material ESG measure impacting the companies' operations.

Decision-making process for Investing:

- Decision-making process for investing is based on the use of proprietary ESG scoring methodology. The broad comparisons made by the analysts of various companies within the sector and also taking clues from global companies evolution provides great insights into any ambiguous claims made by the company being researched. The Research is not restricted We do not restrict our research to self-declared company disclosures. We try to do a 360-degree company check is done by talking to various stakeholders like suppliers, vendors, customers, channel checks, employees, etc. to get more information to get a granular understanding of the true state of the company's affairs. We also try to get the information is also obtained from unorthodox sources like pollution control boards, NGOs, local communities in our bid to gather more information to verify the sustainability claims made by the company.

Investment Portfolio

The Scheme's investment portfolio typically will consist of investments made in shares of Indian companies listed on a stock exchange in India. The Scheme will invest primarily in equity securities of Indian issuers listed on an Indian stock exchange.

While the majority of the assets will be invested in the securities of Indian companies, the Scheme may also invest in money market instruments or in units of liquid schemes under the Quantum AMC or any other Mutual Fund, subject to the applicable SEBI Regulation limits, for brief periods of time pending investment in equities or other securities more generally associated with the Scheme's portfolio. The Scheme shall endeavor to have a higher proportion of the assets under the ESG theme.

Generally speaking, the portfolio will tend to include shares of all companies above a particular threshold ESG composite score derived as a result of a thorough analysis of the Environmental, Social and Governance factors relevant to the company and the sector in which it operates.

INVESTMENT PROCESS AND RECORDING OF INVESTMENT DECISIONS

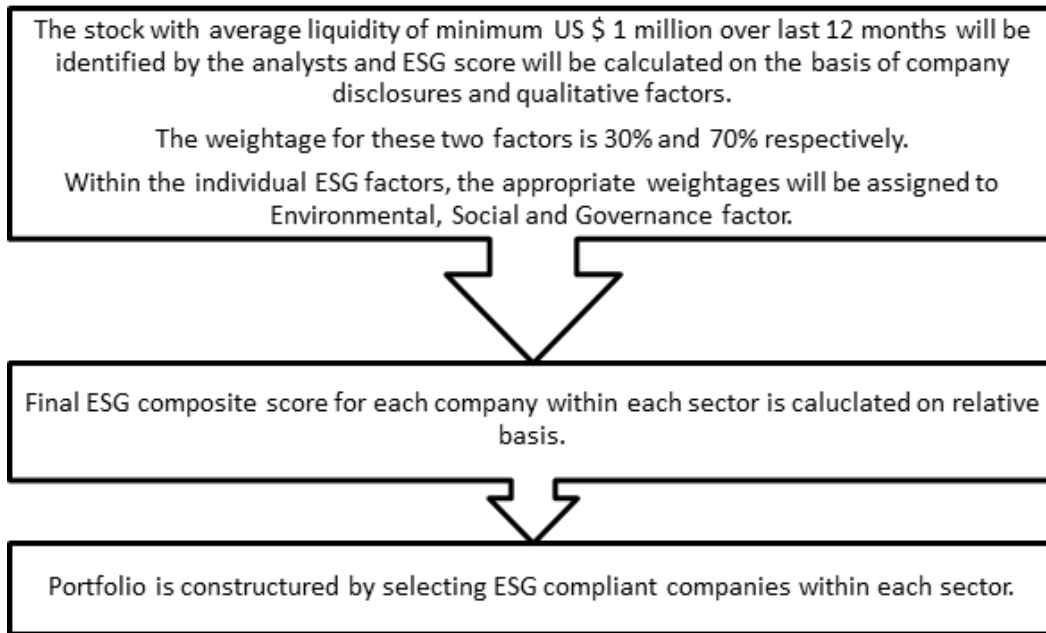

INVESTMENT PROCESS

The investment process consists of:

- Benchmarking Sector weights to that of broad well diversified indices in the Indian equity markets
- Stock selection
- Portfolio Construction

- **STOCK SELECTION**

The AMC's stock selection approach is basically based on ESG scores.

PORTFOLIO CONSTRUCTION

1. The stock should generally have an average liquidity of minimum US\$ 1 million over last 12 months.
2. Every Stock with ESG composite score equal to or above the threshold ESG score will be part of the portfolio.
3. The AMC would generally not try to time the market and will add stocks that meet the ESG criteria on set rebalancing dates. Every stock in portfolio will be bought and sold on the basis of weights allotted to it and will be value agnostic.

The AMC will set sector weights for the portfolio in accordance with sector weights of a broad well diversified India equity Index.

4. In case, there are no stocks with ESG score greater than or equal to the set threshold ESG composite score in a particular sector, the weightage of that sector is redistributed on a relative basis among other sectors, where the stocks meet the ESG criteria. Consequently, the weightages of individual stocks qualifying the ESG criteria within those sectors will also change accordingly.
5. The AMC will periodically review and if necessary, rebalance the portfolio typically coinciding with rebalancing of the underlying indices and / or quarterly. The AMC will also seek to periodically rebalance the portfolio on account of a new addition of stock, company specific events and in case of change in the view of the sector or the company.
6. From October 1, 2022, the Scheme shall only invest in securities that have Business Responsibility and Sustainability Report (BRSR) disclosures. The existing investments in the schemes for which there are no BRSR disclosures would be grandfathered by SEBI for a period of one year i.e., till September 30, 2023.

RISK CONTROL/ RISK MANAGEMENT STRATEGY

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (Mutual Funds) Regulations.

The Fund has identified the following Risk and designed Risk Management Strategies, which is the part of the Investment Process to manage such risks.

<u>Type of Risks</u>	<u>Risk Management Strategies</u>
Liquidity Risk	The Investments are made only in such stocks which has high trading volume in the market.
Quality Risk	Investment universe is selected based on ESG score and the scoring process takes into consideration the nature of industry, quality of business, history of company, management capabilities, promoter background, etc. Regular meeting are attended by analysts to be updated about the Company's information.
Price Risk	The investment process is valuation agnostic, but emphasis is on investing in sustainable business to drive long term performance.
Volatility Risk	External factors like liquidity flows, changes in the business environment, economic policy, corporate governance etc. contributed largely to the volatility. The scheme will manage volatility risk through diversification.
Concentration Risk	The concentration risk and volatility risk both are managed through diversification. The investments are made across various sectors to diversify and within the sector; there is a limit on the allocation to each stock at maximum 5% at cost and 10% at market value.
Allocation Risk	The emphasis is on investing in sustainable business which should do well over the long term. Also, the portfolio is well diversified at the sector level and considers allocation of a broad diversified index for investing. At the time of rebalancing of the portfolio, the sector weights are rebalanced to reflect the Index exposure. In case of changes in sectoral composition, a sector is included or excluded from the portfolio. In case of addition of new sector, the underlying stocks are added in proportion to their respective ESG score ensuring that the sum total of the weights of stocks in that sector will be equal to respective sector weight.
Corporate Actions	In case of corporate actions like merger, demerger or issue of QIP, the rebalancing of stocks shall be done on the next set date to maintain the sectoral weights and stock weight limit.
Volatility risk	External factors like liquidity flow, changes in the business environment, economic policy, corporate governance, etc. contributed largely to the volatility. The scheme will manage volatility risk through diversification.
Risks related to greenwashing	Greenwashing is the process of conveying a false impression or providing misleading information about how a company's business/products/services are more environmentally sound. The Team We are well aware that there are many "greenwashing" incentives for companies from brand building to attracting investment flows. It is our fiduciary duty as custodians of investor capital to

	<p>navigate any greenwashing attempts and deliver investors true sustainability geared portfolio. The Team We understand that ESG is not a “tick the box” desk research. The Team We do not restrict our the research to self-declared company disclosures. The Team We try to do a 360-degree company check by talking to various stakeholders like suppliers, vendors, customers, channel checks, employees, etc. to get more information to get a granular understanding of the true state of the company’s affairs. The Team We also try to get information from unorthodox sources like pollution control boards, NGOs, local communities in our bid to leave no stone unturned. There is also an attempt to verify the information with other available data and map with other companies in the sector and globally to identify any red flags.</p>
