# QUANTUM MULTI ASSET ALLOCATION FUND (QMULTI)

An Open-Ended Scheme Investing in Equity & Equity Related Instruments, Debt & Money Market Instruments and Gold Related Instruments

Dynamic research backed asset allocation.

Periodic rebalancing to buy low and sell high.

Tax efficient rebalancing and indexation benefits.

Smarter option to a Bank Fixed Deposit.

氚

Potential for good risk adjusted returns.

### ★ Quantum Multi Asset Allocation Fund

The Quantum Multi Asset Allocation Fund aims to diversify your portfolio across three major asset classes i.e. Equity, Debt and Gold to reduce dependence on a single asset class & deliver better risk-adjusted returns over the long run. While Equity investments have the potential to generate capital appreciation over time, Debt investments add stability to your portfolio & Gold plays the role of a strategic diversifier as it generally has an inverse correlation with Equities. This Fund helps combine the benefits of 3 asset classes with 1 single investment to achieve your long-term goals with peace of mind.

Enjoy the benefits of having a Fund Manager who periodically rebalances the portfolio to capitalize on opportunities across market cycles. Investors who do not have the time or the expertise to manage a diversified portfolio on their own can take advantage of this actively managed fund.
