## A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

The investment policies of the Scheme shall be as per SEBI (Mutual Funds) Regulations, 1996, and within the following guidelines. The asset allocation under the Scheme, under normal circumstances, will be as follows: -

Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Physical Gold	95%	100%
Money Market instruments	0%	5%

As the scheme invests 95% to 100% of the net assets into Gold, the scheme will, by and large, be passively managed fund. However, if and when permitted under SEBI regulations, the scheme may invest in gold related securities including derivatives.

Investment in warehouse receipts and other permitted instruments linked to Gold Prices and units of international gold linked ETFs would be made as and when, and to the extent permitted by regulatory authorities.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/ IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

### Indicative Table

Sr. No.	Type of Instruments	Percentage of Exposure	Circular Reference
1	Derivatives	5%	Para 12.26 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024

### Portfolio Rebalancing in case of deviation from Asset Allocation Under Defensive Consideration

The asset allocation pattern indicated above may change from time to time, depending on liquidity considerations or on account of high levels of subscriptions or Repurchase / Redemptions relative to Scheme size, or upon various defensive considerations including market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary substantially depending upon the perception of the AMC the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and only for defensive considerations. In the event of deviations from the above asset allocation table, the Fund Manager will carry out rebalancing within 30 Calendar Days in accordance to para-No. 2.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. However, at all the times the portfolio will adhere to the overall investment objectives of the Scheme.

## **B. WHERE WILL THE SCHEME INVEST?**

Subject to the Regulations and the disclosures as made under the Section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities / instruments:

- a. Purchase of Gold: The Scheme may purchase gold from a bank or any other institution authorized to import gold, if the amount is not less than the minimum market lot for such import. If the amount available is less than the minimum market lot for import, the scheme may purchase gold from local market. Any such transaction in local market is fraught with counter party risk, risk of theft/loss during the movement from vendor to the safe vault of the scheme. These risks are mitigated by due diligence conducted on the counter-party and by appropriate insurance policies.
- b. Money Market Instruments
- c. Any other Securities / asset class / instruments as permitted under SEBI Regulations in line with the Investment Objective of the Scheme subject to regulatory approval, if any required.

## **C. WHAT ARE THE INVESTMENT STRATEGIES?**

### **Investment Strategy / Philosophy**

The AMC uses ‘passive’ approach to try and achieve the Scheme’s investment objective. The Scheme does not try to “beat” the markets they track and do not seek temporary defensive positions when markets decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular gold investment nor will it attempt to apply any economic, financial or market analysis. Passive approach eliminates active management risks in regards to over / underperformance vis-à-vis the benchmark.

The AMC uses a “passive” approach to try and achieve the scheme investment objective. The scheme investing gold as an asset regardless of its investment merit.

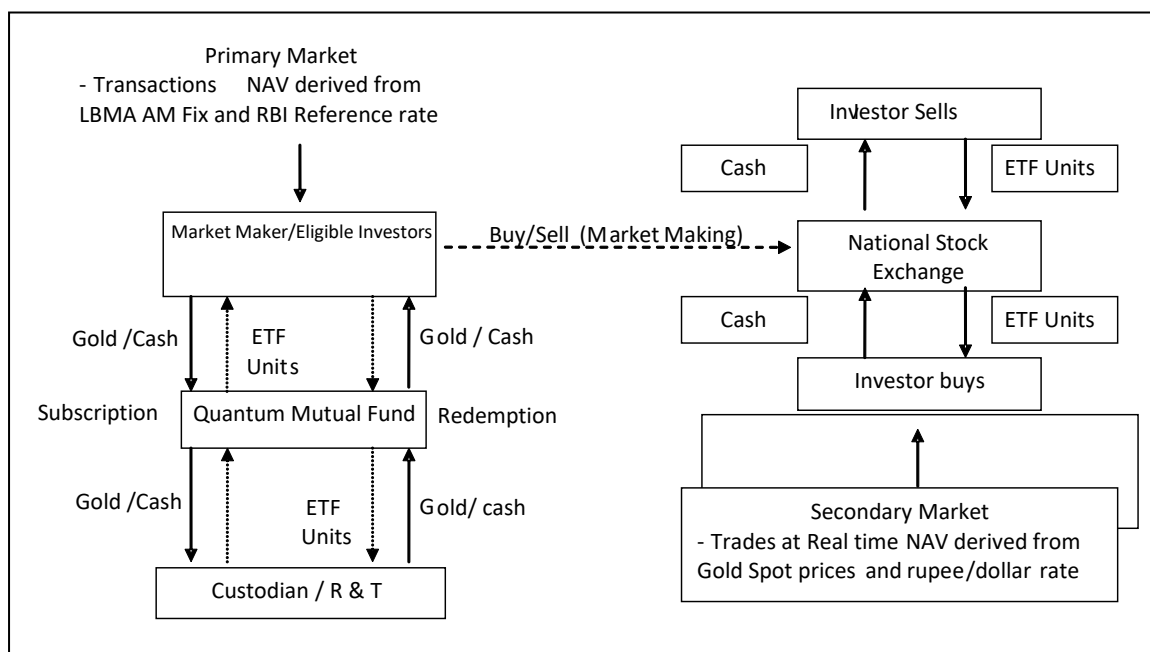

The QGF will invest up to 100% but at least 95% of its total assets in the physical Gold. The QGF may hold up to 5% of their total assets in money market instruments as specified in this Scheme Information Document. As long as a Scheme invests at least 95% of its total assets in physical Gold, it may also invest its other assets in cash and cash equivalents and money market instruments permissible under the investment norms.

The Scheme predominantly invests in Gold in physical form. The Scheme may invest in gold related derivative instruments in accordance with SEBI Guidelines.

### **Gold ETFs**

Gold ETFs are investment vehicles that track the price of gold. The underlying asset for the ETF is physical gold. So, the value of the ETF unit depends on the underlying value of the gold. They offer investors a smart way of investing in the gold bullion without the necessity of actually physically holding gold and storing it. It is akin to buying gold in demat form. As the ETFs are listed on a stock exchange, any investor can buy it through his stock broker member. The fund is passively managed, resulting in lower expenses, which translates to better returns for the investors.

## An Indicative Flow Chart on working of Gold ETF;

## INVESTMENT PROCESS AND RECORDING OF INVESTMENT DECISIONS

### INVESTMENT PROCESS

The Scheme will endeavor to track the domestic prices of gold by investing in physical Gold.

Normally the Fund will receive physical Gold from the Market Makers / Eligible Investors against the exchange of QGF units in Creation Unit size as defined by the Fund.

The AMC will analyse from time to time different ways of taking exposure in gold from the perspective of risk and returns and decide the same in the best interest of investors. The investment decisions of the scheme will be carried out by the Designated Fund Manager.

### RECORDING OF INVESTMENT DECISIONS

Record of all investment decisions will be maintained with justifications for the same as required under the regulations.

In respect of investment in gold, record of each investment decision describing the quantity, fineness, price, counter party, date of purchase and date of delivery to the custodian will be maintained.

It is the responsibility of the AMC to ensure that the investments are made as per the Internal / Regulatory guidelines, Scheme investment objectives and in the best interest of the Unitholders of the Scheme.

All investment decisions shall be recorded in terms of pursuant to para-No 12.23 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 or as may be revised by SEBI from time to time.

#### D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Tier I - Domestic Price of Gold

The benchmark is representative of Fund's Investment Objectives and Asset allocation and most suited for comparison for performance of the scheme.

The Trustee/AMC reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the Investment Objective & Asset Allocation of the Scheme and the appropriateness of the benchmark.

#### E. WHO MANAGES THE SCHEME?

Name of the Fund Manager	Age	Educational Qualifications	Tenure of the Managing the Scheme	Brief Experience	Other Schemes Managed
Mr. Chirag Mehta (Fund Manager)	43	MMS (Finance), M.Com, CAIA	10 months (managing since June 01, 2024)	Mr. Chirag Mehta has over 2 decades of experience in financial markets. ### vi. INVESTMENTS OF AMC IN THE SCHEME

The AMC may invest in the Scheme at any time during the continuous offer period subject to the SEBI Regulations & circulars issued by SEBI and to the extent permitted by its Board of Directors from time to time. As per the existing SEBI Regulations, the AMC will not charge investment management and advisory fee on the investment made by it in the Scheme.

Further, the AMC shall, based on the risk value assigned to the scheme, invest minimum amount as a percentage of assets under management of the scheme, pursuant to para-No. 6.9.2 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024. For details of such investments please refer the link: <https://www.quantumamc.com/downloads/AMC-Investment-in-schemes-of-Quantum-MF.pdf>

## **A. COMPUTATION OF NAV**

The NAV of the Units of the Scheme will be computed by dividing the value of net assets of the Scheme by the number of Units outstanding on the valuation date.

The NAV will be calculated and announced as of the close of every Business Day by 11.00 p.m. The repurchase price shall not be lower than 95% of the NAV subject to SEBI regulation as amended from time to time. For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

### **INDICATIVE NAV:**

Indicative NAV (iNAV) is the per unit NAV based on the current market value of its portfolio during the trading hours of the scheme.

iNAV shall be disclosed on a continuous basis of the stock exchange(s), where the units of the scheme are listed and traded. The iNAV shall be updated within a maximum time lag of 15 seconds from underlying market.

Example showing calculation for determination of NAV:

Price of Gold per half gram as on 31 <sup>st</sup> March 2025*	4529.2277

### B. Risk Factors

#### **Scheme Specific Risk Factors**

- The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, trading price, yield, total returns and / or its ability to meet its objectives.
- The Scheme's NAV will react to the Gold price movements. The investor may lose money over short or long period due to fluctuation in scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in bullion prices, market movement and over longer periods during market downturns.
- Although the units described in this Scheme Information Document are listed on the Stock Exchange, there can be no assurance that an active secondary market will develop or be maintained.
- The market price of ETF units, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the unit (or NAV) and (2) demand and supply of units in the market.
- Sizable demand or supply of the units in Exchange may lead to market price of the units to quote at premium or discount to NAV. Hence the price of QGF units is less likely to hold significant variance (large premium or discount) from the latest declaration NAV all the time.
- Trading in QGF units on the Exchange may be halted because of market conditions or for reasons that in view of Exchange Authorities or SEBI, trading in QGF units is not advisable. In addition, trading in QGF units is subject to trading halts caused by extraordinary market volatility and pursuant to Exchange and SEBI "circuit filter" rules. There can be no assurance that the requirements of Exchange necessary to maintain the listing of QGF units will continue to be met or will remain unchanged.
- Any changes in trading regulations by the Stock Exchange(s) or SEBI may affect the ability of Authorized Participant to arbitrage resulting into wider premium / discount to NAV. Any changes in the regulations relating to import and export of gold or gold jewellery (including customs duty, sales tax and any other statutory levies) may affect the ability of the scheme to buy/sell gold against the purchase and redemption requests received.
- The units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of Scheme's holdings. The trading prices of QGF units will fluctuate in accordance with changes in their NAV as well as market supply and demand for the units. However, given that QGF units can be created and redeemed in creation units size directly with the fund, it is expected that large discounts or premiums to the NAV of QGF units will not sustain due to arbitrage opportunity available.

- The units will be issued only in dematerialized form through depositories. The records of the depository are final with respect to the number of units available to the credit of a unit holder.
- Tracking error may have an impact on the performance of the scheme. However, the AMC will endeavour to keep the tracking error as low as possible.
- There is no exchange for physical gold in India. The Fund may have to buy or sell gold from the open market, which may lead to counter party risks for the Fund for trading and settlement.
- The Fund has to sell gold only to bullion bankers/traders who are authorized to buy gold. Though, there are adequate numbers of players (commercial or bullion bankers) to whom the Fund can sell gold, the Fund may have to resort to distress sale of gold if there is no or low demand for gold to meet its cash needs for redemption or expenses.
- There is a risk that part or all of the Scheme's gold could be lost, damaged or stolen. Access to the Scheme's gold could also be restricted by natural events or human actions.
- Any of these actions may have adverse impact on the operations of the scheme and consequently on investment in units.
- The Trustee, in the general interest of the Unit holders of the Scheme offered under this Scheme Offer Document and keeping in view the unforeseen circumstances market conditions, may limit the total number of units which can be redeemed on any Business Day.
- The returns from physical Gold in which the Scheme invests may underperform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of outperformance and under performance in comparison of the general securities markets.
- The Scheme is not actively managed. The Scheme may be affected by a general price decline in the Gold prices. The Scheme invests in the physical Gold regardless of their investment merit. The AMC does not attempt to take defensive positions in declining markets.
- The NAV of the units is determined based on the formula for valuation of gold prescribed by SEBI whereas the actual price of gold in the domestic market may be different from the value of gold arrival at based on the prescribed formula. This may lead to extreme conditions like NAV being far too different from the domestic market price of gold.
- For the valuation of QGF units, indirect taxes like customs duty, Goods and Services Tax etc. would also be considered. Hence, any change in the rates of indirect taxation would affect the valuation of QGF units.
- Whereas the Indian Market was formerly restrictive, a process of deregulation has been taking place over recent years. This process has involved removal of trade barriers and protectionist measures, which could adversely affect the value of investments. It is possible that the future changes in the Indian political situation, including political, social or economic instability, diplomatic developments and changes in tax laws, changes in SEBI / Stock Exchange / RBI regulations and other applicable laws / regulations could have an effect on such investments and valuation thereof. Expropriation, confiscatory taxation or other relevant developments could affect the value of investments.

- **Risks attached with the use of derivatives:** As and when the Schemes trade in the derivatives market there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of derivatives requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments.

#### **Market Risk / Liquidity Risk / Risk Associated with Handling and Storing of Gold:**

##### **a. Market Risk Due To Volatility In Gold Price**

The Scheme’s NAV will react to the Gold price movements. The investor may lose money over short or long period due to fluctuation in scheme’s NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in bullion prices, market movement and over longer periods during market downturns.

##### **b. Liquidity Risk - Limited Supply or Demand in physical or derivatives markets impairing the ability of the fund to buy and sell gold**

The Fund predominately invests in 1 Kg gold bars manufactured by LBMA accredited refiners due to it being the most traded and most liquid in the wholesale market. The Fund strategizes and hold some gold in smaller denominations of 100-gram bars as well to efficiently source liquidity. The Fund also has contractual agreements with gold dealers to enable liquidity at all times. In addition, the fund will keep some portion of the portfolio in money market instruments and / or cash for the purpose of meeting liquidity needs.

##### **c. Risk Associated with handling, storing and safekeeping of physical gold**

To ensure the highest safety, Gold is stored with renowned vaulting agencies in their professional vaults. Gold held by the Fund is fully insured.

#### **Risk Related to Debt & Money Market Instruments**

##### **• Interest Rate Risk/Market Risk:**

Changes in interest rate may affect the Scheme’s net asset value. Generally, the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities

markets can be volatile leading to the possibility of price movements up or down in the fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk or Default Risk:**

Credit risk or Default risk refers to the risk that an issuer of a debt instrument may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk, bonds issued by non-government agencies are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a debt instrument will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

- **Liquidity Risks:**

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or even during rebalancing of the Scheme's investment portfolio.

- **Concentration Risk:**

The Scheme will invest in certain securities of certain companies, industries, sectors, asset type etc. based on its investment objectives and policies as outlined in this Scheme Information Document. The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

- **Settlement Risk:**

Different segments of the financial markets have different settlement cycle/ periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods.

- **Re-investment Risk:**

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows than earlier assumed.

Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

- **NAV Performance Risk:**

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected

generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc.

Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme shall be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances. Different types of securities in which the Scheme would invest as stated in the offer document carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern e.g. corporate bonds carry a higher amount of risk than Government securities. Further even amongst corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

Lower rated or unrated securities are more likely to react to developments affecting the market and carry a higher credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated securities also tend to be more sensitive to economic conditions than higher rated securities. The Investment Manager will consider both credit risk and market risk in making investment decisions.

The Scheme will endeavour to invest in highly researched securities offering relative yield for the commensurate risks. However, the erosion in the value of the investments/portfolio in the case of the debt markets passing through a bearish phase is a distinct possibility.

The NAV of the Scheme is largely dependent on the performance of the various debt instruments wherein the investment has been made which may fluctuate from time to time. The Scheme may use techniques and instruments for efficient portfolio management and diversify to reduce the risk of such fluctuations. However, these techniques and instruments if imperfectly used have the risk of the Scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any).

Besides, the fact that skills needed to use these instruments are different from those needed to select the Scheme's securities. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase/redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

### C. Risk mitigation strategies

Risk is an important part of the investment functions. Effective Risk Management is critical to Fund Management for achieving financial goals. Investments made by the Scheme shall be made in accordance with Investment Objective of the Scheme and provisions of SEBI (MF) Regulations.

The Fund has identified the following Risks and designed Risk Management Strategies which is the part of the Investment Process to manage such risks.

Type of Risks	Risk Management strategies
Tracking Error Risk – Risk of deviating away from the investment objective of tracking gold prices	The Fund follows a passive investment approach. The Fund does not try to time the market. It endeavors to stay near fully invested at all times.
Quality and Purity Risk – Risk of substandard quality of gold	Gold purchased by the Fund is 0.995 purity and above. Gold sourced shall be from an LBMA accredited refiner only. The Fund has a well-defined and specific good delivery norms policy to be followed by the custodian for acceptance of Gold.
Custody risk – There is a risk that part or the entire scheme's gold could be lost, damaged or stolen.	To ensure the highest safety Gold is stored with renowned vaulting agencies in their professional vaults. Gold held by the Fund is fully insured.

### Risk Associated with Debt & Money Market Instruments

Types of Risk	Risk Management Strategies
<b>Interest Rate Risk</b>	<p>Since the Scheme can invest in short term and long-term instruments; interest rate risk is inherent in the portfolio.</p> <p>The management of interest rate risk is then a function of the quality of the fixed income research inputs and the active investment management strategy.</p> <p>Since the Scheme will not invest in derivatives, the management of interest rate risk would be achieved by diversification and altering the Scheme maturity profile at appropriate times.</p>
<b>Credit and Default Risk</b>	<p>The Scheme investment strategy limits the investments in debt instruments issued by private (non-government) companies. This reduces the inherent credit / default risk of the portfolio.</p> <p>The internal guidelines of the AMC also limit the investment in lower rated instruments. The Scheme has to necessarily invest a major portion of its investments in Treasury securities, government bonds and/or PSU Bonds thus lowering the overall credit risk in the portfolio.</p>

<b>Liquidity Risk</b>	<p>With the overall improvement in the reporting and transparency of traded market data of all debt and money market instruments, the Investments Team can gauge the liquidity of individual instruments in the portfolio. By this, the Scheme can also determine the time taken to liquidate the position based on historical traded data.</p>
<b>Concentration Risk</b>	<p>Quantum Mutual fund has a well laid out investment policy, applicable to all its debt schemes, which has set pre-defined limits of exposure to each security based on its maturity and credit profile.</p> <p>This ensures that the portfolio is not overly concentrated to one issuer or industry.</p> <p>Adequate portfolio liquidity can also help limit the losses due from large portfolio redemption.</p>
<b>Counterparty Risk</b>	<p>The Fund has single party counter-party limits to limit the damages from a failed settlement or delayed settlement by counterparty.</p> <p>Counterparty risk is also a function of the nature of the instrument and mode of settlement being followed.</p> <p>For instance, in government securities, the settlement of all trades are done through a clearing corporation thus ensuring lower likelihood of failed settlements and counterparty risk.</p>
<b>Settlement Risk</b>	<p>Government securities, T-bills, SDLs, TRI-Party Repo are now settled through a counter party clearing mechanism operated and managed by CCIL (clearing Corporation of India Ltd). This has vastly reduced settlement failures in these securities.</p> <p>Although, corporate bonds are still settled on a DVP basis, but the trades are now routed through a clearing corporation. This limits settlement failures arising out of a bilateral settlement.</p> <p>Our counterparty exposure norms also limit the risks of a failed settlement on the overall portfolio.</p>

## II. Information about the scheme

### A. Where will the scheme invest?

Subject to the Regulations and the disclosures as made under the Section “How the Scheme will allocate its Assets”, the corpus of the Scheme can be invested in any (but not exclusive) of the following securities / instruments:

- a) Purchase of Gold: The Scheme may purchase gold from a bank or any other institution authorized to import gold, if the amount is not less than the minimum market lot for such import. If the amount available is less than the minimum market lot for import, the scheme may purchase gold from local market. Any such transaction in local market is fraught with counter party risk, risk of theft/loss during the movement from vendor to the safe vault of the scheme. These risks are mitigated by due diligence conducted on the counter-party and by appropriate insurance policies.
- b) Money Market Instruments
- c) Any other Securities / asset class / instruments as permitted under SEBI Regulations in line with the Investment Objective of the Scheme subject to regulatory approval, if any required.

The Fund may use derivative instruments related to gold only after the same is allowed under the Regulations.

The AMC uses a “passive” approach to try and achieve the scheme investment objective. The scheme invests in gold as an asset regardless of its investment merit.

### Tracking Error

Tracking error means the variance between returns of the underlying benchmark (gold in this case) and the NAV of the scheme for any given period.

NAV of the Scheme is dependent on valuation of gold. Gold has to be valued based on the formula as prescribed by SEBI subject to applicable changes from time to time. NAV so computed may vary from the price of Gold in the domestic market.

Tracking error could be the result of a variety of factors including but not limited to:

- Delay in the purchase or sale of gold due to:
  - Illiquidity of gold,
  - Delay in realisation of sale proceeds,
  - Creating a lot size to buy the required amount of gold
- The scheme may buy or sell the gold at different points of time during the trading session at the then prevailing prices which may not correspond to its closing prices.
- The potential for trades to fail, which may result in the Scheme not having acquired gold at a price necessary to track the benchmark price.
- The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, Income payouts etc.

- Execution of large buy / sell orders
- Transaction cost (including taxes and insurance premium) and recurring expenses
- Realization of Unit holders' funds

The scheme will endeavor to minimize the tracking error by:

- Use of gold related derivative instruments, as and when allowed by regulations
- Rebalancing of the portfolio

**a) Tracking Error:** 0.144% (As on March 31, 2025)

**b) Tracking Difference:** (As on March 31, 2025)

Period	Scheme Returns	Benchmark Return (Domestic Price of Gold)	Tracking Difference*
Since Inception (22nd Feb 2008)	11.44%	12.34%	-0.90%
March 31, 2015 to March 31, 2025 (10 years)	11.99%	13.09%	-1.10%
March 31, 2020 to March 31, 2025 (5 years)	14.56%	15.61%	-1.05%
March 31, 2022 to March 31, 2025 (3 years)	19.21%	20.34%	-1.13%
March 31, 2024 to March 31, 2025 (1 year)	34.03%	35.45%	-1.42%

Note: \* Tracking Difference of Return between Scheme and Benchmark

#### **B. What are the investment restrictions?**

Pursuant to the Regulations and amendments thereto, the following investment restrictions are applicable to the Scheme:

1. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transaction.
2. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.
3. Save as otherwise expressly provided under SEBI (MF) Regulations, the Mutual Fund shall not advance any loans for any purpose.
4. The Mutual Fund shall get the securities purchased/ transferred in the name of the Mutual Fund on account of the Scheme, wherever the investments are intended to be of a long - term nature.
5. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act subject to the below limits at rating level:

The scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of its NAV of the Scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to overall limit of 12% of its NAV of the Scheme for a single issuer.

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-party Repos on Government securities or treasury bills (TREPS).

- 6. The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

Provided that the Scheme may invest in unlisted non- convertible debentures up to a maximum of 10% of the debt portfolio of the Scheme subject to such conditions as may be specified by SEBI from time to time.

- 7. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-

- (i) Such transfers are made at the prevailing market price for quoted Securities on spot basis

Explanation: spot basis shall have the same meaning as specified by Stock Exchange for spot transactions

Provided that inter scheme transfer of money market or debt security (irrespective of maturity) shall take place based on prices made available by valuation agencies as prescribed by SEBI from time to time.

- (ii) The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

- 10. The Scheme shall abide by the following guidelines for parking of funds in short term deposits Pursuant to para-No. 12.16 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024.

- (i) "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- (ii) Such short-term deposits shall be held in the name of the Scheme.
- (iii) The Scheme(s) shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- (iv) Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- (v) The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- (vi) The Scheme shall not park funds in short-term deposit of a bank, which has invested in the Scheme. Trustees/ AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.

- (vii) No investment management and advisory fees will be charged for such investments in the respective Scheme.

11. The Scheme shall not make any investments in:

- a. any unlisted security of an associate or group company of the Sponsors;
- b. any security issued by way of private placement by an associate or group company of the Sponsors;
- c. the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets;
- d. any fund of funds scheme.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. The AMC/Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations. All investment restrictions shall be applicable at the time of making investment.

### **C. Fundamental Attributes**

Following are the Fundamental Attributes of the scheme, in terms of Clause 1.14 of SEBI Master Circular for Mutual Funds dated June 27, 2024:

#### **(i) Type of a scheme**

An Open Ended Scheme Replicating / Tracking - Gold

#### **(ii) Investment Objective**

##### **(a) Main Objective**

The Investment Objective of the Scheme is to generate returns that are in line with the performance of gold and gold related instruments subject to tracking errors. However, investment in gold related instruments will be made if and when SEBI permits mutual funds to invest, in gold related instruments. The Scheme is designed to provide returns that before expenses, closely correspond to the returns provided by gold. There is no assurance that the Investment Objective of the Scheme will be achieved.

##### **(b) Investment pattern**

The Scheme will invest in Physical Gold and Money Market Instruments

#### **(iii) Terms of Issue**

- Liquidity provisions such as listing, repurchase, redemption: The Scheme is an open ended Exchange Traded Fund - Gold and is listed with National Stock Exchange (NSE). The trading will be as per the normal settlement cycle. In addition, mutual fund will repurchase units from Market Makers and Eligible Investors in Creation Unit Size on a daily basis.
- The aggregate fees and expenses charged to the Scheme are provided in Part III- other details - Annual Scheme Recurring Expenses.
- The Scheme does not guarantee or assured returns and hence no safety net or guarantee is provided.

In accordance with Regulation 18(15A) of the Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme and the Plan(s) / option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme and the Plan(s) / option(s) thereunder and affect the interests of Unit Holders is carried out unless:

- a. SEBI has reviewed and provided its comments on the proposal.
- b. A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nation-wide circulation as well as in a newspaper published in the language of the region where the head office of the Mutual Fund is situated; and
- c. The Unit Holders are given an option for a period of 30 (thirty) days to exit at the prevailing NAV without any Exit Load.

Fundamental Attributes will not cover such actions of the Trustees of the Fund or the Board of Directors of the AMC, made in order to conduct the business of the Trust, the Scheme or the AMC, where such business is in the nature of discharging the duties and responsibilities with which they have been charged. Nor will it include changes to the Scheme made in order to comply with changes in Regulations with which the Scheme has been required to comply.

#### **D. Index Methodology - Not Applicable**

#### **E. Principles of incentive structure for market makers**

Incentive, if any, will be paid to Market Makers based on trading volume, bid-ask spread, liquidity and time frame for market making. Incentives, if any, to Market Maker shall be charged to the Scheme within the maximum permissible limit of TER.

Scheme. In addition the cash Component may include transaction cost as charged by the Custodian / DP and other incidental expenses for creating units. The cash component will vary from time to time and will be decided and announced by the AMC.

#### **Procedure for creating QGF Units in Creation Unit Size**

The requisite physical gold constituting the Portfolio Deposit has to be submitted to the Custodian / AMC while the Cash Component has to be paid to the Custodian / AMC. On confirmation of the same by the Custodian/ AMC that the pre-defined quantity and purity of physical gold has been received, the AMC will transfer the respective number of QGF Units into the investors DP account. The AMC may create "Creation Units" prior to receipt of all or a portion of the relevant Portfolio Deposit and Cash Component in certain circumstances where the purchaser, among other things, posts collateral to secure its obligation to deliver such outstanding Portfolio Deposit Securities and Cash Component.

The Portfolio Deposit and Cash Component for QGF units may change from time to time due to change in NAV. The Fund may from time to time change the size of creation unit in order to equate it with marketable lots of underlying instruments.

The creation request can be made to Fund in a duly filed application form. Application Forms for creation of QGF units can be obtained from the office of AMC.

#### **Example of Creation of Units**

As explained above, the creation unit is made up of 2 components i.e. Portfolio Deposit and Cash Component. The Portfolio Deposit will be determined by the Fund. The Portfolio Deposit will be physical Gold and will be for 1 Kg and in multiples of 1 Kg. The Value of Portfolio Deposit will change due to Changes in the prices during the day.

The Cash component will be arrived in the following manner:

(Physical Gold of 1 Kg .995 Purity based on price in Mumbai as on March 31, 2025)

Number of Units comprising one Creation Unit	120000
NAV per Unit	<b>74.396</b>
Value of one creation Unit (Including Stamp Duty on Units)*	89,27,520.00

Value of Portfolio Deposit (Physical Gold of 1 Kg) **	93,30,208.86
<b>Cash Component payable to AP#</b>	<b>3,93,184.03</b>

The above is just an example to illustrate the calculation of cash component. As can be seen from the above example for subscription of 1 creation unit, 1 kilogram of Gold equivalent of **Rs. 93,30,208.86/-** would be the portfolio Deposit and Rs. 3,93,184.03/- would be the Cash Component Payable to AP.

(Physical Gold of 1 Kg .995 Purity based on price in Ahmedabad as on March 31, 2025)

Number of Units comprising one Creation Unit	120000
NAV per Unit	74.3960
Value of one creation Unit (Including Stamp Duty on Units)*	89,27,520.00
Value of Portfolio Deposit (Physical Gold of 1 Kg)**	93,30,208.86
<b>Cash Component Payable to AP#</b>	<b>3,93,184.03</b>

The above is just an example to illustrate the calculation of cash component. As can be seen from the above example for subscription of 1 creation unit, 1 kilogram of Gold equivalent of **Rs. 93,30,208.86/-** would be the portfolio Deposit and **Rs. 3,93,184.03/-** would be the Cash Component.

\*Value of one creation unit includes stamp duty charge on Mutual Fund Units issue.

\*\*Value of 1 Kg .995 Purity Gold Portfolio includes Government Taxes and TDS deducted on Gold buy price excluding GST.

#Cash Component will vary depending upon the actual charges incurred like Custodial Charges and other incidental charges for creating units.

#### **Procedure for creating QGF Units in Creation Unit Size – Cash Subscription**

The payment of requisite cash for creation of units in Creation Unit Size at Intra Day NAV based prices shall be made as determined by the AMC only by means of Payment Instruction of Real Time Gross Settlement (RTGS) / National Electronic Fund Transfer (NEFT) / Funds Transfer Letter / Transfer Cheque of a bank where QGF has a collection account. The AMC will arrange to buy the underlying physical gold on behalf of the Eligible Investors / Market Makers on receipt of the subscription

application along with the subscription amount. The underlying physical gold shall be purchased within 3 Business Days on the receipt of the subscription amount. The Eligible Investors / Market Makers need to incur all the actual cost of purchase of the underlying physical gold and funding of market movement from the time of application to actual buying of underlying physical gold by the AMC in addition to the cash component (if any) as determined by the AMC from time to time. Any excess / shortfall in the amount paid on account of the subscription will be refunded / collected to / from the Eligible Investors / Market Makers on allotment of units.

The AMC may at its own discretion reserves the right not to accept application in Creation of Unit Size through Cash Subscription without any reason for the interest of the Scheme.

#### **Disclosure of Portfolio Deposit and Cash Component**

The AMC discloses the Portfolio Deposit and Cash Component on daily basis for creating and redeeming units in Creation Unit size for QGF. The same will be disclosed on our website i.e. [www.QuantumAMC.com](http://www.QuantumAMC.com) daily in the morning and would be applicable for creating and redeeming units in Creation Unit size for that working day only.

#### **(b) On the Exchange**

As the units of the Scheme are listed on NSE, an investor can buy units on continuous basis on the capital market segment of NSE, during trading hours like any other publicly traded stocks at a price which may be close to the NAV of the Scheme. Each unit of QGF issued under the Scheme will be approximately equal to price of 0.01 gram of Gold.

#### **A. Directly with the Fund: Redemption**

The Market Maker and The Eligible Investor can redeem units directly with the AMC in Creation Unit Size at Intra- Day NAV.

“Creation Unit” is the number of QGF units, which is exchanged for Portfolio Deposit which would consist of physical Gold of defined purity and quantity and Cash Component. The facility of redeeming units in creation unit size will be available only for the Market Maker and Eligible Investors as defined in this Scheme Information Document.

The creation unit size would change from time to time due to change in NAV. The Fund may from time to time change the size of the creation unit size in order to equate it with marketable lots of the underlying instruments.

The investor has to deposit at least 1 Kilogram of physical gold & in multiples of 1 Kilogram thereof in order to create units of the scheme. The Portfolio Deposit and Cash Component is defined as follows:

**(a) Portfolio Deposit:**

Portfolio Deposit shall consist of Physical Gold which will be in predefined quantity and purity and will be held by the Custodian / Sub- Custodian as may be specified by the AMC and will be defined and announced by the AMC and will vary from time to time.

**(b) Cash Component for Redemption in Creation Unit Size:**

Cash Component represents the difference between the net asset value of units in Creation Unit Size and the market value of the physical Gold. This difference will represent accrued interest, income earned by the Scheme, accrued annual charges including management fees and residual cash in the scheme. Any transaction cost charged by the Custodian / DP and other incidental expenses for redeeming units will also form part of cash component. The cash component for redemption will vary from time to time and will be decided and announced by the AMC to the Market Maker. The Cash Component will also include exit load, if applicable. The exit load 36 will be declared by the AMC from time to time.

**Procedure for Redeeming (QGF) Units in Creation Unit Size.**

The requisite number of QGF Units equaling the Creation Unit Size has to be transferred to the Fund's DP account and the Cash Component to be paid to the AMC / Custodian. On confirmation of the same by the AMC, the custodian will transfer the Portfolio Deposit by handing over the physical Gold of the predefined purity and quantity to the investor and pay the Cash Component, if applicable. The AMC may redeem the QGF units in Creation Unit size prior to receipt of all or portion of the relevant QGF units in certain circumstances where the purchaser, among other things, posts collateral to secure its obligation to deliver such outstanding QGF units. The Portfolio Deposit and Cash Component for the QGF units may change from time to time due to change in NAV. The Fund may from time to time change the size of Creation Unit in order to equate it with marketable lots of underlying physical gold.

Example of Redemption of Units:-

The Cash component will be arrived in the following manner:

(Physical Gold of 1 Kg .995 Purity based on price in Mumbai as on March 31, 2025)

Number of Units comprising one Redemption Unit	120000
NAV per Unit	<b>74.3960</b>
Value of one redemption Unit (Including Stamp Duty on Units)*	89,27,520.00
Value of Portfolio Deposit (Physical Gold of 1 Kg) **	93,30,208.86
<b>Cash Component receivable from AP#</b>	<b>4,12,019.07</b>

The above is just an example to illustrate the calculation of cash component. As can be seen from the above example for Redemption of 1,20,000 units, 1 kilogram of Gold equivalent of Rs. 93,30,208.86/- would be the portfolio Deposit and Rs. **4,12,019.07/-** would be the Cash Component.

(Physical Gold of 1 Kg .995 Purity based on price in Ahmedabad as on March 31, 2025)

Number of Units comprising one Redemption Unit	120000
NAV per Unit	<b>74.3960</b>
